WANT TO KNOW EXACT NUMBER

Prohibitionists Anxious to Secure Complete Returns.

APPEALED TO MR. ELLYSON.

Judges of Election Urged to Send in the Vote Cast at Tuesday's Election for the "Cold Water" Party Ticket.

The leaders of the Prohibition party in the State are anxious that the vote card for the candidates of their party may be accurately returned, in order that they may ascertain their exact numbers in Virginia. They have appealed to Democratic State Chairman Elyson to aid them in securing accurate returns.

TAKE THEM OUT.

Or Feed Them on Food They Can Study On. When a student begins to break down from lack of the right kind of food, there are only two things to do; either take him out of school or feed him properly on food that will rebuild the brain and nerve cells.

Our committee is thoroughly in earnest in its determination to have the Prohibition vote counted and returned as cast. We trust we will not be driven to the extremity of contesting the election in the State and legislating in the State.

With assurances of personal esteem, I remain, Respectfully yours, J. O. ALWOOD, Chairman.

J. TAYLOR ELLYSON, Chairman.

Richmond, Va., Oct. 28, 1911.

Hon. J. Taylor Elyson, Chairman, Democratic State Committee, City.

Dear Sir—Allow me to thank you for your courteous favor of the 25th instant, in which you say that you are sure the judges of the election would, if their attention were called to it, be glad to make proper return of the vote cast for Prohibition tickets to me to say in reply that I think it is so obviously the duty of judges of election to make proper return of the votes cast for every ticket of the official ballot, that it ought not to be necessary for persons interested in any ticket to call the attention of judges to this part of their duty.

AUSTRALIA AS IT IS AND WAS.

Mr. White to Discuss This Subject Before the Lyceum To-morrow Night. The second attraction of this season of the Lyceum Course will be the illustrated lecture on "Australia as it Was and is," which will be delivered by Mr. W. Hinton White to-morrow evening.

The lecturer is a native of the country about which he will speak, but he has resided in the United States since 1882, and during that time he has been delivering lectures on this and kindred subjects so that he is equipped both by

THE TALE OF A DOG THAT WAS NOT MAD

This is the plain, unvarnished tale of a dog. It might almost be called a biography, because, as a matter of fact, there wasn't much tail to the dog; and truthfully what little there was looked as if it might have been varnished or as if something else had happened to it. In addition to which the dog wore only one ear, and at a vantage point forward. Altogether, his general appearance was as if he had passed through a hard political campaign.

At a personal interview between the Democratic and Prohibition State Chairmen, October 26th, Mr. Elyson stated that he had no objection to the Democratic judges of election, had never seen such a list and consented to the publication of the foregoing correspondence as the most practical way of communicating his sentiments in regard to the counting and returning of the Prohibition vote to the judges of election in time to accomplish the object sought at the impending election. Mr. Elyson also said that he was in favor of returning every legal vote, in favor of whom cast, at every election and that he hoped this would be done.

experience and training to present to his audience a new subject in a most attractive manner.

The lecture will be illustrated by over 125 views, representing the finest achievement of photographic art, but it will not be dependent on pictures to make it attractive because Mr. White is a speaker of ability and would entertain even though there were no pictures shown. He will be introduced by Hon. John Garland Pollard.

The Executive Committee wishes to call the attention of the members to the rule closing the doors of the Academy at 8:30 and to say that this rule will be adhered to during this season, as it has been so essential to have quiet after the lecture begins.

ter the cafe. The dog beat him in by a retrograde motion between his legs, seeing which sudden appearance from apparent nothingness the gentleman decided the hind had had enough to drink and went out hurriedly.

"Scat," said the bar-tender. "Ki yi," said the dog.

"Get out of here!"

"Ki yi bow-wow," exclaimed the dog.

"Nice doggie," said the bar-tender, "I'll break your back when I get to you," and he started for him.

"R-r-r-r," said the dog.

Sweat on the bar-tender had aimed a blow at the canine's intellectual department, but he wasn't there. A plunge put the dog through the door and he went Ki-ying up the street, until he reached a cigar store.

A sideways leap put him inside.

"Hello, old fellow," said the clerk, "what's the matter?" and he patted the dog's head, much to the latter's surprise.

"The dog whines because he is hungry. Being a man who in his day and generation, the clerk poured some water in a tin cup and gave it to the dog. That's all.

THE HUSTLING CITY BY THE DAN

Business is Prospering With Diversity of Interests.

TOBACCO THE MAIN STAY.

But Danville is Entering Many Other New Fields of Industry—Politics Are at a White Heat—A New Rail-road Coming.

(Special Dispatch to The Times.) DANVILLE, VA., November 2.—The city of Danville has never been in a more interesting state than it is to-day. Business is good—better, perhaps, than it has been for years. The Business Men's Association has budded forth from a state of indifference to one of extreme action. The Mount Rogers and Eastern Railroad has come to light through this channel and many new business enterprises have budded forth.

THE MAIN STAY. Danville has for years depended on her tobacco trade for her chief support, and thus the very business of the city has depended more or less on the condition of the weather and its effect on the crop.

The Business Men's Association has brought to light this great fault among the business men and a new interest has been provoked through the hard work of the men who form this body. Knitting mills, broom factories, pants factories, cigar factories, cigarette factories, sock factories and a dozen other new industries have been put on foot by the men, mostly from the pockets of her merchants.

FINE WATER POWER. Dan river has rolled along with her usual water-power for many years unthought of, and since it has been discovered what great industries can be carried on here at a very small cost new industries are daily purchasing the land which borders on the banks of the valuable and muddy Dan. There is no doubt of the fact that in Danville there is perhaps a brighter future than for any other city in the State.

REGARDING POLITICS. From a political standpoint, this city seems to have risen to the white heat during the campaign which recently existed between Swanson and Montague. The fight was perhaps the hottest since the days when Mahone ruled the noble old State under her Republican domination. The fifteen years of Democracy which has been a blessing to the State at large has not failed in its effects on this city. The public schools have risen to a standpoint of great proficiency. Perhaps there are few colleges that can offer better advantages than Danville's notable High School, which is free to every tax-payer's children.

TWO FEMALE COLLEGES. There are now two female colleges under the direction of the Baptist and Methodist churches, and Danville has now the right to boast of one of the best and largest military schools in the South—the Danville Military Institute. This school can boast of students from fifteen different States of the Union.

GAS AND WATER. Gas is only 8c, while there is no doubt whatever regarding the efficiency of the water system. Two reservoirs supply the city. They are connected and are at a high elevation. In fact, the fire department seldom find use for the fire

THE CHURCHES.

From a religious view, this city embraces every denomination, and every denomination has a handsome synagogue, a thing not known in every city in this State.

THE SOUTHERN RAILWAY has a depot here that is one of the prettiest in the South, and has many of the latest improvements, that with both north, south and east coast.

In conclusion, suffice it to say that married men will find here untold opportunities for investment and that there is no telling what will be the future of the Border-State City.

Royal Arcanum on the Increase. The Royal Arcanum continues on the up grade in point of increasing membership in old Councils, and the organization of new Councils (which number ten this year), making in all sixty Councils in this State. Mr. Harry Kemp, S. D. G. E. Council, arrived in the city Friday night, after an absence of eleven months. During this period Mr. Kemp has been hard at work in Southwest Virginia and other sections of the State, where he has met with big success, through the increase for Virginia having been phenomenal. Mr. Kemp will make Richmond his headquarters during the winter months and we expect a large increase in the local membership of which there are eight, including one at Manchester.

The Grand Council of Virginia (Brother Chas. C. Berry, of Staunton, Va., Grand Regent) will meet here next April.

Richmond, Va., Nov. 2, 1911.

At a meeting of the Board of Directors of the City Bank of Richmond, held at 11 o'clock to-day to take action upon the death of Mr. Geo. W. Anderson, which occurred at his residence on Leigh Street on Friday, November 1, 1911, a committee, consisting of the president, Col. Wm. H. Palmer, Messrs. E. B. Adair and S. W. Travers, appointed to prepare resolutions, presented the following, which were unanimously adopted:

In the death of Mr. Geo. W. Anderson, this board is called upon to record the loss of one of its oldest and most useful members, who has served with fidelity upon the Board of Directors of this institution for fifteen years. It is, therefore, Resolved, That we mourn the death of
