MRS. HULDA JAKEMAN,

Wife of the President of the Elders of the Mormon Church, Salt Lake City, Utah, Recommends

Lydia E. Pinkham's Vegetable Compound for Woman's Periodic Pains.

Surely the great volume of letters we are constantly publishing from women made strong and well by Lydia E. Pinkham's Vegetable Compound must convince all women of the value of this famous medicine. Does anyone suppose that the young wife of President Jakeman, whose portrait we are permitted to publish, would allow us this great privilege if she had not been so over-joyed at her own recovery that she now wants to be of service to her suffering sisters? No, indeed! No money can purchase such testimony, only a grateful heart full of a desire to help other sufferers could induce a young woman of such high social position to allow her name to be used in connection with any remedy.

MRS. HULDA JAKEMAN, of Salt Lake City.

"DEAR MRS. PINKHAM:—Before I knew of Lydia E. Pinkham's Vegetable Compound I dreaded the approach of the time for my menstrual period, as it would mean a couple of days in bed with intense pain and suffering. I was under the physicians care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of our Mormon women who had been cured through its use. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, MRS. HULDA JAKEMAN, Salt Lake City, Utah."

\$5000 REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find the above testimonial letter, are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

DEVELOPMENT IS SUBSTANTIAL

Growth in Southwest Virginia is Astonishing.

UTILIZATION OF WATER POWER Falls in New River to Be Used to Run One of the Largest Cotton Mills in the Country—Activity in Cotton Oil Mill Industry.

(Special Dispatch to The Times.) BALTIMORE, MD., March 27.—In Southwest Virginia, where coal, coke and iron form the basis of the greatest activity, a corresponding development of cotton and oil industries is being witnessed. Record, writing in this week's issue, notes solid and substantial development in many directions. He finds Roanoke, which, twenty years ago, had a small place on the map, a thriving, busy city of 25,000 people, and Bristol, on the Tennessee-Virginia line, presenting an array of industries, store works, machine shops, lumber companies, tanneries, jobbing houses and small industries, with its railroad business doubled four or five times within the past ten years. He writes: "And so it is in varying degree throughout the section. All the cities and towns in Southwest Virginia are doing something, and the development continues over in Kentucky, where new coal fields are being opened all the time; into Eastern Tennessee, where just now new zinc mines are being added to the great development of coal, marble and timber properties, and into Western North Carolina, where 3,000 men are at work in copper mines, and other resources are being turned into available wealth. The railroads are taxed to their capacity to handle the business, and new equipment cannot be obtained as fast as needed."

WATER POWER UTILIZED. The correspondent mentions, as typical of railroad conditions, contracts of the Norfolk and Western road for 6,000 freight cars, 62 locomotives, 25 passenger coaches, 4 baggage cars and 2 mail cars, and refers to the plans for railroad extension in three or four States of that section to get at deposits of coal and to touch vast timber tracts. He refers, too, to the utilization of the great fall in the New River below Pulaski for the development of electric power for one of the largest cotton mills in the country, representing an investment of \$2,235,000, and to the growth of market gardening around flourishing textile centers.

After the conference he returned to Louisville, where he was searching the mountains of Harlan and Bell counties for a place to hide. He was paid and he was allowed time to get back home and prepare himself for arrest. He understood that his further endeavors to arrest him."

STANDS PAT. Anglo-Japanese Alliance Seals the Fate of Manchuria. (By Associated Press.) LONDON, March 28.—The dispatch from Moscow, correspondent of the Daily Graphic gives an interview with a Russian staff officer who has returned from Amur, Siberia, and is quoted as saying that the Anglo-Japanese alliance has sealed the political destiny of Manchuria, which, in the hands of Russia, never was a Russian possession. The brigandage rampant there will be used as justification for the retention of a powerful Russian army. After the Russo-Japanese war, the Russian will remain in Manchuria to protect their railroad and secure peace in Northern China.

Surprising Results.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh. People who have used sprays, inhalers, salves and washes for catarrh and have found how useless and inconvenient they are, will be greatly surprised at results after the use of a pleasant, simple remedy in tablet form; druggists everywhere admit that Stuart's Catarrh Tablets, which they sell at 50 cents for full-sized treatment is the safest, most effective and popular of all catarrh remedies.

LETTERS, which they sell at 50 cents for full-sized treatment is the safest, most effective and popular of all catarrh remedies. Nearly all cheap cough mixtures and lozenges contain opiate, which these cheap medicines give a temporary relief, especially with little children by destroying the natural cough reflex. Red gum from Eucalyptus tree, etc., when you use these tablets you know that you are putting into your system and not taking chances with cocaine, opiate or similar poisons found in so many catarrh cures and cough medicines.

DR. Wainwright says: "I never hesitate to prescribe Stuart's Catarrh Tablets as a specific because I know them to be perfectly safe for child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should not use them because we should seize upon the means of cure wherever found." Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children because they are pleasant to the taste and may be used freely to break up mucus, and to keep the throat very clean.
