Weather Forecast—Cloudy Friday; probably rain.

Friday--With Its Unusual Amount of Remnants This Week.

We didn't give the remnants their usual prominence last week on account of the Easter season. That means a pretty heavy stock all over the store for Friday of this week, as our regular Easter business was the heaviest we ever had.

Dress Goods Special. To-Day We Will Place on Sale 24 Pieces of All-Wool Black Storm Serge At 29 Cents Yard.

They are one yard wide, and if bought in the regular way we could not sell them for less than 39c, but in this lot there were some pieces of only 8, 10 and 12 yard lengths, known to the trade as manufacturer's short lengths.

Remnants of Colored Dress Goods. Remnants of Black Dress Goods. Remnants of Silks.

The Easter trade is the greatest we ever had in these fabrics. Consequently there's an unusually large amount of Remnants for Friday's sale. No need to specify the different kinds. It takes in our whole stock, which is complete.

The Great Linen Sale.

The great linen sale started off yesterday. It's not for a day only, but it's the beginning of a sale that will continue until every housekeeper in Richmond has had an opportunity of refurbishing for the summer season from the finest assortment of linens in Richmond.

We're not advertising "reductions" or "bargains" in their much-abused sense, but we're offering you the finest that the home and foreign markets produce and at the lowest legitimate prices.

Where we can get any amount of goods below the regular market price we tell you about it and give you the benefit of the lower prices.

Wash Goods.

Wouldn't you like a pretty pattern in a Dress Gingham, tinted grounds in stripes? It's only 8 1/2c here.

Or for 10c either a fine Percale 36 inches wide, in good styles, or a Batiste in a fine sheet cloth. Either one of them will make you a handsome summer wash dress.

The 19c Babelle Cloth that has all the appearance of wool without any of its summer disadvantages is one of the dressiest fabrics for summer wear that we have. It's a 25c goods.

Waist Cloth in single and double stripes, 21c.

Wash Goods.

You'll find all the short lengths in Wash Goods in the basement, among them being some Dimities, Batistes and Lawns that are worth from 8 1/2 to 10c in the full piece, but you can have any of these pieces for 3c yard.

Finer quality in Batiste, Dimities, Crepons and Organdies for 5c per yard. The full lengths run from 12 1/2 to 25c.

Dress Gingham—good line of patterns for 5c; and for 6 1/2c you can get some of the regular 10c articles in the best styles.

Madras in small figures and light grounds, 36 inches wide, for 8c.

White Goods

are, of course, the ideal summer wear, and for a low-priced article look at our fine Lawns, 40 inches wide, for 5c a yard.

Striped Dimity at 8 1/2c, very sheer and fine.

How about Piques? Always such a favorite. Ours at 10c have a narrow wale, soft, medium weight. Others at 12 1/2c are fine cord and light weight, while at 25c we have them with lace stripes in three styles. 25c is a very moderate price indeed for this latter fabric. Examine it and see.

Scotch Cambric, 12 1/2c, narrow stripes, and a medium weight figured Madras for 15c.

Oak Screens.

Ten of them left that we value at \$1.25. Three-fold and five feet high, silklike filled and all colors. Your choice, 85c each.

Head Rests.

A very pretty head rest and yet a very pretty one is a silklike covered with cord edge and clasps. They're the regular 15c and 19c ones. Friday, 10c each and in all colors.

Corsets.

An extended hip Corset made by one of the leading manufacturers of the United States is one of the very best made for stout forms, and we handle it exclusively in Richmond. The price is only \$1.25.

For \$1.00 the Royal Worcester, No. 445, is one of our leaders. Made in Batiste.

We have a number of Thomson Glove-Fitting and W. B.'s in odd sizes that we'll close out at 89c. Being odd sizes is the cause of their reduction from \$1.00 and \$1.25.

Odds and Ends in the Ready-to-Wear Section

How would you like a Duck Skirt for 75c that sold last year for \$2.98? We have a few colored ones left over from last year that we'll let you have at this price. Nothing the matter with them, except we can't sell last year's garments at this season's prices.

Four graduating ruffles on these skirts.

Linen Casual Skirt for 39c, trimmed in braid, regular 98c value last season.

Nice Black and White Mercerized Satine Waists with tucks. They sold for \$1.25, but we'll close out what's left for 79c.

Light Gray Homespun Skirts, circular flounce, headed with stitched band of satin, for \$2.98.

Some other things left over from last summer are White Lawn Waists that sold for 75c. They're slightly soiled, but a little soap and water will remedy that. You can take your choice for 25c cents each.

Infants' Department.

Fix the little people up for spring and summer now while we have the stock. Do you know that this department is the most complete of its kind in Richmond? We make no exceptions whatever. The stock in variety and quality is absolutely first-class.

Infants' Spring Hats in Mull and Silk; white, blue, pink and cardinal. 98c and \$1.25.

Children's Hats in Point de Spray, India Silk and Mull; \$1.50 to \$3.00.

Infants' Muslin Caps in tucked lawn, with hemstitched and lace trimmed edge, 20c and 25c.

Children's Reefers in blue, red and brown, sailor collar trimmed with white braid, \$1.50.

Child's Reefer in All-Wool Flannel, trimmed with lace insertion and braid, \$2.25.

Infants' Long and Short Dresses, made of fine cambic trimmed with lace and embroidered insertion, 50c.

Curtains and Window Shades.

We've been selling some lace curtains here during the past week, and we've sold so many that there's not a very large stock of them left. To close out what we have in Nottingham, Irish Point and Arabian, that sold as high as \$4.50, we'll give you your choice at prices from \$1.00 to \$2.98 per pair. Only one, two and three pairs of a kind.

You've noticed our Oil Opaque Window Shades, of course. Nice ones, are they not? Mounted on Harshorn Rollers, 38, 42 and 44 inches wide and 7 to 8 feet long. Demand for these at \$1.00 and \$1.25 has been very satisfactory during the past week—so much so that it's left us with a few odd shades on hand that we'll close out at 50c each. You save one-half and over.

LATEST NEWS OF RAILROADS

Chesapeake and Western to Cross State from West to East.

TAPS COAL AND IRON FIELDS

Advantages of New Territory Said to Exceed Those of Birmingham District Other Railroads Items.

The Pittsburg Gazette prints the following, which is of peculiar interest here, as throwing light on the new trans-Virginia railway:

In the midst of the present intense interest over a new seaboard outlet from Pittsburg, the Gazette is able to furnish a full statement of the plans and purposes of one of the most interesting as well as the most mysterious of these projects. This is in connection with the Chesapeake and Western Railway, the managers of which have been strenuously working for the past year in particular in Virginia and West Virginia to link up the bituminous coal country and the steel region with the seaboard at Gloucester Point, York Harbor, Va.

The statement comes from Joseph W. Reinhart, formerly president of the Atchison, Topeka and Santa Fe, and a native of this city. Mr. Reinhart is at the head of the syndicate which is furthering this project.

TERMINUS AT PARKERSBURG. It is of much significance that the western terminus of this project is at Parkersburg, W. Va., to which city a line is now being built by the Goussus from a connection with the Wheeling and Lake Erie at Zanesville. It is also significant that Virginia, the head of the would-be railroad interests, spent a week at Gloucester Point last summer, and is thoroughly in touch with the whole situation.

Mr. Reinhart's statement covers not only the present move, but gives a most comprehensive survey of the railroad situation from Pittsburg to the seaboard. It follows:

It is generally known, but it is a fact, that before the Pennsylvania Railroad Company secured control of the Tidewater traffic through the purchase of the Baltimore and Ohio, Norfolk and Western and Chesapeake and Ohio, a railroad men quietly took up the project for the construction of a line of railway from the Ohio river through the northern West Virginia coal fields and Virginia to the Atlantic coast.

This enterprise has been several years before the purchase by the Pennsylvania Railroad Company of all of the roads to the coast mentioned, has been carried forward intelligently and conservatively, and has now such a foundation upon which the whole structure will shortly be erected.

MUCH COAL LAND PURCHASED. The company has bought outright 61,000 acres of mineral lands and negotiations for the purchase of additional large tracts of coal lands have been brought to the final stages for transfer of the property.

Four surveying corps are in the field at different points, and the best and most exact survey has been taken in the matter of location, as is evidenced by the fact that although the line passes through the Alleghany, Shenandoah and Blue Ridge Mountain ranges, its maximum grade is but 1 1/4 per cent, as against over 2 per cent on the Pennsylvania and Baltimore and Ohio roads. The distance from Gloucester Point, Va., to Parkersburg, W. Va., on the Ohio river, via this line, is 475 miles. Every mile of the road is in traffic-producing territory, and for 100 miles passes through bituminous coal and 70 miles through iron ore deposits.

These deposits are so extensive as to call forth the recent statement from one of the most prominent public and business men of the country that this particular region contained greater possibilities than Birmingham, Ala., for the manufacture of iron and steel.

The proposed line, which is to be a double-track road with any existing railway, but opens up new and prolific traffic territory throughout its entire length. It connects with and crosses nine north and south trunk roads. By avoidance of a large city for the Tidewater terminal the traffic of the railway line can be delivered direct from cars into vessels without having to pass over the expensive terminals that must necessarily be created in a large city.

Mr. John E. Wilson, of Chattanooga, Tenn., soliciting passenger agent for the Choctaw Route, was a visitor to-day at the Southern Railway offices.

The rate of \$5.50 for round trip to Charleston, S. C., will go into effect on April 15th with final limit April 20th.

Mr. Wins F. Wilson, who has for years been secretary to J. H. Drake, assistant general freight agent of the Southern Railway will be made soliciting freight agent in this city. Since the resignation of Mr. W. F. Bennett, Mr. Benjamin Barker has been attending to both his own duties and those formerly done by Mr. Bennett.

Mr. Wilson is a Richmonder, and his

PAIN'S CELERY COMPOUND

Saves Sleepless, Nervous, Dependent, and Morose People From Insanity.

It is the Only Effective and Honorable Medicine for the Banishment of Common Spring Ailments.

Medical men of the highest standing and a host of educated men and women competent to judge, accuse that Paine's Celery Compound is the only true and effective medicine for the banishment of the ailments that make life miserable in spring time.

In the spring season tens of thousands are sleepless, fretful, nervous, despondent and gloomy. They find it impossible to obtain restful sleep, and soon become physically exhausted, some are already stricken with insanity.

Such sufferers cannot with safety trifle with their condition. They need immediate succor and aid before nature is too severely overtaxed. The weakened, exhausted and irritated system must be fortified at once.

Paine's Celery Compound is the only agent that can afford the run-down, nervous, sleepless and despondent victims prompt relief and permanent cure. If you are assured of this fact, dear reader, do not hesitate a moment in getting it. It will certainly aggravate your condition and lead you nearer the grave. If you w'seely determine to test the health-building powers of Paine's Celery Compound, do not accept substitute or vile imitation. Your special case demands the best; you are paying for it and should get it. Ask your dealer for PAIN'S; refuse all others. The name is on the bottle and wrapper.

Save Money by giving your faded garments with Diamond Dyes, 10 cents.

many friends will be glad to hear of his promotion.

Caplan J. K. Michie will have charge of all excursions to West Point during the season. He has already contracted with the Sunday-schools of the following churches to run excursions to Beach Park: Asbury Methodist Church, of Manchester, June 10th; Sacred Heart, of Manchester, June 24th; Centenary Methodist Church, June 18th; Tasker-Memorial Lutheran Church, June 16th; St. John's German Lutheran Church, June 18th; Laurel Street Methodist Church, June 18th; Second Baptist Church, June 20th; All-Saints Episcopal Church, June 24th; Fulton Baptist Church, June 24th; Third Christian Church, June 25th; St. James Methodist Church, June 27th; West View Church, July 1st; Randolph-Street Church, July 17th; Tabernacle of St. John's German Lutheran Church, July 15th.

The bonds of the Seaboard Air Line, for the listing of which application has been made to the New York Stock Exchange, are the first mortgage 4 per cent gold bonds of October 1, 1922, and the funding collateral trust bonds issued in June, 1901.

Of these latter, \$2,000,000 were reserved to take up the 5 per cent collateral trust bonds due October 1, 1922. The remainder will be used for the retirement of the 6 per cent certificates of indebtedness due March 25, 1922, to pay for a one-sixth interest in the Washington Terminal, and for the payment of floating debt and to provide a fund of at least \$1,000,000 for additions and improvements.

The Richmond Locomotive Works has just delivered to the Colorado Southern Railroad five of the fifteen big locomotives recently ordered by that road.

President George W. Stevens, of the Chesapeake and Ohio, will reach the city this morning from a Western trip and will go on through to Newport News.

President Gillaudeau, of the Old Dominion Line, is in the city.

APPEAR BEFORE CONVENTION

Diaz Says He Will Be There if Possible. Brief Religious Notes.

In an open letter to Dr. T. Tichenor, A. J. Diaz, the missionary-politician, who formerly worked in Cuba under the Home Mission Board of the Southern Baptist Convention, and who gave that board so much trouble, declares that he has not been treated fairly, and that if possible he will visit the approaching meeting of the convention and lay his case before that body.

The Rev. Morris Eagle, of Mineral, Va., will preach Sunday at St. James' Monumental and Holy Trinity Episcopal Churches, of this city, and will make an appeal for contributions for the erection of a church in his town.

Mr. Eagle gives a most interesting account of the work at Mineral, which is a little mining town about sixty miles from here, on the Chesapeake and Ohio. This work is progressing most successfully, and to all appearances has a bright future.

A great number of the graduating students at Union Theological Seminary have answered calls for work. Some have not yet answered definitely. The following:

A TEARFUL BABY.

Wanted to Write a Letter.

A man came upon his little girl in a grievous and tearful condition, because she had been restricted in her allowance of Grape-Nuts. The father says, "I am better at home and I hardly understand why the absence of one particular food should excite her grief, but upon inquiry discovered that she had taken such a decided fancy to it that she was refusing meat and almost every other kind of food."

lowing, however, have accepted: Rev. W. J. Garrison, Bridgeport, Texas; Rev. H. L. Kinnaid, Excelsior Springs, Mo.; Rev. George M. Matthis, Culpeper, Va.; Rev. J. A. Smith, Home, Mississipi; Rev. S. C. Smith, Bayard and Gortman, W. Va.; Rev. V. H. Starbuck, Ivanhoe, N. C.; Rev. J. C. Story, mission work, near Hottel, Mississipi; Rev. J. A. White, Southern Mississipi work, with headquarters at Ada, Indian Territory.

In its issue of this week the Southern Churchman, referring to the common expression that preachers' sons are odd sons, says in part: "There is an old snare, grown so old and toady in the service of falsehood that many thoughtless people are deceived by it. It is a statement about preachers' sons going wrong and being somewhat notorious for badness. Every community has full proof to the reverse of this, but every community seems to think itself exceptional in this respect. Indeed every man who knows anything of ministers' sons knows perfectly well that as a class they stand peculiarly high in every calling of life."

The Churchman also says editorially that there is a "flood" of rural Virginia and that "the tide of population that has been tending to the cities for a number of years past will have its reaction. For this reason the Churchman believes that the old churches which have stood since Colonial days and that have been in constant vacation in many places will yet be needed and should be kept in good repair. It is suggested that Colonial church guilds be formed for the collection of money for repairs and that special services be held to the effect of a number of clergymen, invited for the purpose.

The spring meeting of the Richmond Convocation will be held at West Point, Va., beginning Tuesday, April 24th. The date for the spring meeting of the Albemarle Convocation has been changed from April 15th to April 24th, at the request of the Rev. J. S. Hainsbrough, rector of St. Thomas Church, Orange Courthouse, at which place the convocation will meet.

The Right Rev. L. L. Kinsolving, Bishop of Brazil, will preach in Richmond on Sunday in the morning at Holy Trinity, in the afternoon at All Saints' and at night at St. Paul's.

ISSUE JOINT LETTER.

Warehousemen Give Timely Advice to Planters—Tobacco Notes.

The loose tobacco warehouses of Richmond have issued a joint letter to tobacco planters giving them some timely advice concerning the planting of the next crop. Of the local field, the letter says in part:

"But the counties around Richmond need to, and can, best make for profit, as has been fully demonstrated this season, a plug grade of dark, or untried sun or air-cured leaf, for which open barns are used. There is no grade of tobacco that measures more in value on this market, according to texture, color and flavor, than does sun-cured. Many a time a pile starts at six or eight cents, and as the bidder discovers that it has good and more merits for fine plug it may run up in the teens, or even in the twenties; aroma, color and texture sell."

The firm of Butler & Eosher, of this city, has again secured the contract for supply of tobacco to the United States navy. The contract this year calls for 200,000 pounds of sun-cured at 47 cents. Among the bidders were quite a number of local concerns.

The sales on the Richmond breaks yesterday were better than usual and prices were higher. This was probably due to the announcement of the navy contract, though one warehouseman thinks otherwise. The highest price of the day was \$32 and was received at Shelburne's warehouse. Some of the fine sales at Shelburne's were the following: Mrs. Alice Loving sold 26 pounds at \$22; 200 pounds at \$17; 175 pounds at \$18.25; Charles Martin sold 175 pounds at \$22; 120 pounds at \$20; 25 pounds at \$18; 500 pounds at \$14; 315 pounds at \$12.25. Average, \$16. J. B. Self sold 155 pounds at \$19; 225 pounds at \$13.50; 180 pounds at \$12.25; 185 pounds at \$12.75; 120 pounds at \$11.50. Mr. L. Taylor sold 315 pounds at \$15; 345 pounds at \$11.75.

Among the out-of-town tobaccoists in the city yesterday were the following: Messrs. G. T. Patton, of Darlington, S. C.; R. E. Noblin, of South Boston; C. E. Conroy, of Danville, and William Smith, of Wilson, N. C.

Birthday Celebration.

Clarence Holzbach celebrated his birthday with a sociable at his home, Tuesday, No. 1261 Randolph Street. Games were indulged in until a late hour, when refreshments were served. Among those present were: Misses Nancy Gross, Tillie Schmidt, Foy (Uncle) Marie Johnson, Laia and Lizzie Dunkel, Rosa and Hannah Heller, Lula Williams, Kate Terry, of King William; Lillie Carter, Lillie Redford, Kate Keaton, Gertrude Jorner, Lynn Richardson, Lottie Marshall, Maggie Tripplett, Louise Rhenhardt, Lizzie Davis, and Ruth Umlauf; Bessie Ora, Rubie and Grace Holzbach; Messrs. Ben Neils; Charlie Frommer, John Llewellyn, Willis Umlauf, George Lawson, George Gross, John Carter, Hunter Pettus, Herbert Dealey, Tillie Holzbach, Fred Johnson, Willie (Tippie) Bauer, John Mills, Jack Neils, Howard Burton, Richard Schmidt, Walter, Clarence and Earle Holzbach, Chaperones, Mr. and Mrs. Jacob Umlauf, Mr. and Mrs. H. E. Holzbach. At a late hour the happy crowd dispersed, wishing their host many more happy birthdays.

DAY IN THE POLICE COURT.

M. T. Page, Reported for Selling Beer on Sunday, Was Discharged. Through a queer mistake Mr. M. T. Page, who has a place in Seventeenth Street, was in Police Court yesterday charged with selling beer on Sunday. J. E. Dudley made the charge. It seems that Dudley gave his small brother a quarter last Sunday to get him some beer, and the boy went to his mother, got two bottles and took them to him, keeping one for himself. Whereupon Mr. Duquey drank the beer and reported the case to the First Police Station. In Police Court yesterday there was no evidence of evil intent against Mr. Page. Mr. Dudley has presumed that the beer had come from him, and he was discharged.

READY FOR TRAP-SHOOTING.

Grounds Drained and New Trap System Put In.

Perfect drain' ge and an unerring hand-pull system, combined with the natural attractions of the Hunt Club shooting field, will draw even larger shooting parties than ever to these favored traps this summer. The shooting season at the Hunt Club begins just after the spring meeting and lawn party, and extends beyond the autumn horse-show, and the Saturday afternoon shoots are of a nature of Richmond summer social life.

A three-inch terra-cotta drain has been laid from six inches below the sloped floor at the south end of the trap-box down the meadow, four-hundred feet toward the branch in the hollow. For the first time since it was built the trap-house is dry, and with this perfect drainage, it will remain dry after the hardest rain. The roof of the house is being

L. J. Hayden,

INDIAN HERB MEDICINE MAN.

404 WEST BROAD STREET.

Greatest Healer of the Sick on Earth.

Cures All Diseases or No Charge.

I cure all diseases that are known to man or beast or no charge, no matter what your disease, sickness or affliction may be, and restore you to perfect health.

Send for our "ALL-YEAR-ROUND" which will be mailed gratis.

Millions of people, the best and leading ones in the United States, will testify that I am the most wonderful healer of all complaints in the world. I use nothing but herbs, roots, barks, gums, balsams, leaves, seeds, berries, flowers and plants made into teas, for all complaints. I have cured and relieved all the most difficult physicians and the best hospital physicians in America have given up to die and said there was no cure for them.

I cure the following diseases: Heart Disease, Consumption, Blood, Kidney, Bladder, Stricture, Piles in any form, Vertigo, Quinsy, Sore Throat, Lung, Dyspepsia, Indigestion, Rheumatism in any form, Pains, Aches, All venereal diseases, Bronchial Troubles, Sore, Skin Diseases, all itching sensations, all Female Complaints, and all other ailments.
