At the National White House A Veteran Usher Uses Pe-ru-na

Thirty-six years in the White House is the record of Thomas F. Pendel, an usher, who was appointed November 3, 1864, by President Lincoln.

He is still hale and hearty as the day he entered the service, although he is seventy-six years of age.

Although this interesting old gentleman has found small need of medicine during his life, he has noted the virtues of the world-famous catarrh remedy, Peruna.

"I can conscientiously recommend Peruna to anyone suffering from stomach trouble in any form, especially in catarrhal trouble of the stomach."

THOS. F. PENDEL.

Every human organ is subject to catarrh so Dr. Hartman says in a recent lecture at the Hartman Sanitarium.

It spreads and spreads and, if not cured, pervades the whole body. It never stops when once it gets started, unless cured.

Below is given a list of the organs most commonly affected by catarrh, with the most prominent symptoms caused by it:

Catarrh of the head and frontal sinus, headache; catarrh of the eyes, watery eyes; catarrh of the nose, discharges and scabs; catarrh of the throat, hawking and painful swallowing; catarrh of the larynx, hoarseness; catarrh of the stomach, dyspepsia; catarrh of the bronchial tubes, cough and soreness; catarrh of the lungs, consumption; catarrh of the liver, biliousness; catarrh of the duodenum, wasting; catarrh of the pancreas, diarrhoea; catarrh of the kidneys, Bright's disease; catarrh of the bladder, smarting and scalding; catarrh of the pelvic organs, urinary and female difficulties.

Peruna cures catarrh wherever located. Peruna is a systematic medicine, and does not depend upon local applications for a cure. Peruna cures permanently. It gradually eliminates the disease from the system and removes the symptoms by removing the cause of the disease.

Every one having any of the above symptoms should take a thorough course of Peruna. Dr. Hartman's latest book on chronic catarrh is a 64-page book in-

James Jones alias Andrew Anderson alias Casle, suspicious character, continued.

Pleasant Way to Drive Away the Blues.

A food that will bring back health and rosy cheeks to the sick, as well as please the palate of the healthy, is a pretty good food to know about.

"I was taken ill with a serious stomach trouble—so ill that the slightest movement caused me pain—and could take nothing into my stomach."

"The nurse prepared some with warm water, sugar and cream, and I took it hesitatingly at first, until I found it caused me no pain, and for ten days I took no other nourishment."

"For a year I have had for a neighbor a delicate girl—an epileptic. When I first knew her she was a mere shadow, weighing seventy pounds, and subject to fearful attacks, having as many as twelve and sixteen convulsions in a day."

"The result has been wonderful; her improvement is the subject of remark with all who know her. The attacks are less frequent and violent, and she has gained twenty pounds since last November, and her family attribute her improvement, and she has made it her chief article of diet."
