

VERY WET DAY FOR RICHMOND COLLEGE

Washington and Lee Drowned Them Under a Score of 29 to 0 NEVER IN GAME AT ANY STAGE

Pigskin was in their Territory most of the Time, but Rarely in Their Possession—There Was Down-pour of Rain; Field Muddy.

(Special Dispatch to The Times.) LEXINGTON, VA., Oct. 27.—Washington and Lee University and Richmond College this afternoon contended for gridiron honors on an aquatic field in a pond of water and slushy day. In a downpour of rain and witnessed by a fair crowd Varsity defeated the collegians 29 to 0.

The visitors put up a plucky game, but they soon realized they were up against a strong team. Their weights were about equal, but that was the only equal thing in the contest. In three minutes Alexander across the line for a touchdown. During the entire game the pigskin remained in Richmond's territory. The visitors rarely had possession of the ball, and each time they attempted to kick for gains, but their several efforts were frustrated by their watchful opponents.

The visitors played well at tackling and their individual efforts were good, but they were deficient in concerted action. Smith, for the Varsity, made one of his favorite end runs for a touchdown at forty yards.

At the end of first half Washington and Lee had the ball on Vashington's five yard line. Gilliam was forced to retire from the game and Richmond used several substitutes.

The line-up. Washington. Position. College. Smith, center. Gilliam. McNeil (Capt.), left tackle. Hudgins. St. John, right guard. Morgan. Stone, right center. Anderson. Miller, right tackle. Smith. Wright, left tackle. Frazier. Ross, right end. Campbell. Campbell, quarter back. Toombs. Alexander, left half back. Spillman. Haw, right half back. Sutherland. Walker, full back. Alexander. Claimed Were Ringleaders. (By Associated Press.) TAMAUQUA, PA., October 27.—Park Place colliery, operated by Lentz and Company, situated between Mahanoy City and Delano, did not resume to-day, owing to the fact that the operators refused to take back the men who were discharged because of the claim that they were ringleaders in the disturbances which occurred during the strike. The union held a meeting yesterday and the members decided by a unanimous vote to stay out unless the men were reinstated. The strike affects nearly 1,000 men and boys.

Coal Output Increasing. (By Associated Press.) WILKESBARRE, PA., Oct. 27.—More coal was mined and more men were employed in mining to-day than any day since the miners in the anthracite region resumed work. The only districts that lag behind in the output are the Lehigh and Mahanoy districts. The operators in these districts are still at loggerheads with the miners. In the Wyoming and Lackawanna regions all the collieries are in operation with the exception of a few which are still under water. All had large outputs to-day, and heavy trains of coal were moved rapidly to seaboard points.

Won't Employ Union Officials. (By Associated Press.) HAZELTON, PA., October 27.—Charles Helferty, president of James Callahan, secretary Paul Dunley, treasurer, and Henry Shovelton, a member of the relief committee of the Jedd local union of the United Mine Workers, are among the eight employees occupying houses of the Markle Company at the Japan and Oakdale and Philadelphia, who were served with notices by the company to vacate their premises within six days. The company officials say they will not be re-employed at any of its four collieries.

SATURDAY'S FOOT-BALL FATALITIES REPORTED (By Associated Press.) STAUNTON, ILL., Oct. 27.—Edward Schmidt, member of a local foot-ball team, is dead from injuries received in a game with a St. Louis Club. The first half was almost completed, neither eleven having scored, when Schmidt, after a tackle, complained of a pain in his head. He was taken to a doctor and died just as he arrived at the office. A. A. Schmidt died the Staunton team, led by their captain, marched to the ends of the field, pulled up the goal posts and burned them. On changing their clothes they added their sweaters and foot-ball suits to the fire and announced that there would be no more foot-ball in Staunton.

JAMESTOWN, N. Y., October 27.—In the foot-ball game between the Jamestown and Buffalo High School teams Saturday one of the Jamestown players was injured. George Melchior, a substitute, took his place, and a few seconds later was thrown in such a way that his neck was broken. Death resulted almost instantly.

Fixing the Price of Coke. (By Associated Press.) PITTSBURGH, PA., Oct. 27.—A decision has been reached by the United States Steel Company, so far as their interests are concerned, to fix the price of furnace coke at \$3 per ton. All the coke has been selling at \$4.50 and \$5 per ton. The large interests prefer a steady, regular market at the above rate. It is supposed that all the coke producers will now settle on the \$3 rate to be charged their furnace consumers for coke.

Mr. Savory Says That He is Not in Favor of Talley for Congress, County Fair at Leader Hall, News from the Southside.

Manchester Bureau, Richmond Times, No. 1102 Hull Street.

Though not permanent, the small attendance of members making this impracticable, there was organized last night by the special committee representing each branch of the City Council and the Business Men's Association, a temporary league, as it may be termed, whose aim will be to bring many factors to Manchester; have them located here, if possible, or if not at least advertise the city as a site for manufacturing plants. Messrs. Barrett and Pettit, with Gary and Daffron, the latter two being from the Business Men's Association, were the enthusiastic over the idea and quite a lengthy talk was made by Mr. Barrett, the originator of the movement in the Council towards letting Manchester's inducements be known to the commercial world.

In a talk he advocated the advertising in the Northern journals and the advertising in the Southern journals, and the advertising over here. He reviewed the business of those who had located in Manchester, taking their wonderful growth as an evidence that the city was the place for such enterprises.

A committee of three was appointed to further promote the idea launched by the work of Alderman Barrett. They are Mr. Barrett, from the Board; Mr. Pettit, from the Assembly, and Mr. Daffron, from the business men.

REPUBLICANS STIRRED. In a circular letter issued to the Republican members of the Richmond, by the factious opposing the nomination of Mr. Edwards for Congress, and advocating the name of Mr. Talley for the position, Mr. W. O. Savory, of Manchester, is mentioned as favoring the plan, together with the names of the members of the congressional committee from the city committee. Mr. Savory denies that he is in favor of any such nomination, being solely for Edwards and his name has been used without his knowledge.

Warm developments are expected in this instance, the names of gentlemen who are for them by the other side in an endeavor to get votes. Superintendent Davis' salary will remain the same. MR. POLLOCK'S MOTION. A feature of the meeting last night was the manner in which Councilman Gilbert K. Pollock's ideas met with the approval of his fellow committeemen, nearly every motion of importance offered by him being accepted by an almost unanimous vote.

Another and important feature of the meeting was the speech of thanks which was extended to the committee after they had decided to recommend the increase in their daily stipend. John Dollard, one of the street cleaners, expressed in a few choice remarks his thanks of the 106 who will be benefited by the action of the body.

Unforeseen circumstances defeated an attempt to increase the salary of Henry Cohn, superintendent of the Street Cleaning Department. There is now pending before the Health Committee a resolution creating the office of assistant superintendent of the Street Cleaning Department and still another resolution, which will increase the duties of the office to a marked degree. Until these have been finally acted upon Henry Cohn's salary will remain at \$75 per month.

Present at the meeting last night were Gilbert K. Pollock, chairman; Messrs. Bottom, Crenshaw, Hall, Spence, Dollard, Beck and Adams. In the room were fully fifty interested attaches of the city government, nearly all of whom were present in the matters up for consideration. Immediately after the meeting was called to order the clerk read a communication from Superintendent Bollings, of the Water Department, in which he made known to the committee the duties of the municipal government over which he is ruler. Commencing at himself, the superintendent in his communication, described at length the work which he devolves upon almost every individual in the Water Department for increase, but owing to the pardonable tardiness of Mr. Bollings, it was decided to take up the Health Department. In a few minutes the water works superintendent put in his appearance.

In the meanwhile a letter from Dr. Oppenheimer, president of the Board of Health, was read, in which he, too, set forth the duties of the employees of that branch of the city government over which he has control. In addition, the three districts were read, and not one of them failed to bring forward the volume of the work they are called upon to do in accordance with the requirements of their office. They received \$300 per year.

MAY GET NOTHING. It was at the conclusion of the reading of all these communications that Mr. John B. Minor moved that, inasmuch as Drs. Hope and Garcia were of the opinion that the city physicians were worth more than \$100 per annum or nothing, it be recommended that the latter amount (?) be paid them. This was adopted after a short debate.

Just at this juncture the petition of the water works employees for an increase in salary from \$1,000 a year to \$1,500 was read by the clerk. Owing to the absence of Dr. Oppenheimer the matter was laid on the table until the next meeting, at which time it will be discussed. It seemed to be the sense of the committee to grant at least a portion of the amount asked.

MUST PAY A FORFEIT. At this stage of the game the committee was divided on its salary matters for the time being by a motion to require all delinquents in the settlement of water bills to pay into the water office the sum of ten cents each time the water is turned on, and if the bill is not paid, the amount of the bill. This recommendation will be forwarded to the Council.

Following this action Superintendent Bollings was called upon to read a report in regard to the duties of the different employees of his department. He responded in a strong talk, showing clearly that he is familiar with every detail of the city water works. He favored several recommendations.

Superintendent Davis was permitted to make a statement in regard to his application for increase, as was Clerk A. J. Gary, after which the committee decided to let them remain as they now are, but not to exceed the \$300 per month. Mr. Davis' pay will be cut in the sum of \$300 per year. The salary of John Gresham, meter clerk, petitioning for an increase from \$90 per month to \$85, received serious consideration at the hands of the committee, resulting in a recommendation that an increase of \$10 be made. In addition, the messengers in the water office will be paid \$2.50 per day, instead of \$2 and \$2.25 as has heretofore been the custom. Only three men are affected by this.

After some debate it was decided to increase the salary of the foreman of the pipe-layers' pay from \$3.25 to \$3.50 per day. At the heel of the session an effort was made to increase the salary of Henry Cohn, superintendent of the Street Cleaning Department, from \$75 per month to \$150. Mr. Pollock offering the motion, it was amended by Mr. Pollock so as to fix the yearly stipend at \$120. This was accepted by Mr. Beck.

Much debate was precipitated by this amendment and motion, finally resulting in the matter of the street sweeper. It is probable that Superintendent Cohn will receive an increase. The long session was brought to a close by the appointment of a subcommittee, consisting of Messrs. Pollock, Minor and Crenshaw, whose duty it shall be to report to the City Attorney, and have suitable ordinances prepared to cover the action of the committee. These will be presented to the Common Council at their next meeting for ratification.

FIGHT HIGH LICENSE Liquor Dealers Will Go Before Finance Committee. At the regular meeting of the Liquor Dealers' Association held last night at Murphy's Hotel, a special committee was named to appear before the Finance Committee to-night at 8 o'clock and enter a protest against the measure recently introduced by Comptroller W. A. Crenshaw, which, if passed, will increase the liquor dealer's license to \$1,000 per year.

The Finance Committee meets to consider this matter, and will doubt hear the liquor dealers' representatives. The meeting at Murphy's last night was largely attended by the saloon-keepers of the city, who are deeply interested in bringing about the defeat of this move for some time. The meeting was held in closed doors. The membership of the association was increased last night by a goodly number, who joined to strengthen the opposition to the high license measure.

HIS SKULL CRUSHED BY BURSTING WHEEL. (Continued from First Page.) at once had the wounded man taken to the hospital, with a view of performing an operation to save his life, but upon arrival at the place it was deemed unnecessary. It was seen that the injury was fatal and nothing could save the life of the wounded man. His wound was dressed, however, and the physicians and family waited for the funeral to be held at 1 o'clock, the young wife standing by the bed, leaning on the younger brother of the dead man.

Undertaker Billups removed the remains from the hospital last night, taking them to the residence of the family at 4th Street. Strange as it may seem, there were few in Manchester who knew of the terrible accident until late last night. Then they knew only a few of the particulars. NON-UNION BILL POSTERS CAUSE CHICAGO RIOT (By Associated Press.) CHICAGO, ILL., Oct. 27.—In a riot to-day caused by the American Post Office Service attempting to post bills on the streets by the use of non-union labor, seven men were severely injured, street car service was suspended, and riot call was sent in. When the police arrived, the non-union men had surrendered their wagons and escaped from the shower of stones, bricks and other missiles. The crowd dispersed upon the appearance of the police, and the riot was made.

A bill of injunction was issued by Judge Chytrus to-day, on behalf of the American Post Office Service, against the Bill Posters and Billers' Union, No. 1, restraining the union from maintaining pickets, from interfering with men who are working on the board of the company, and from inducing the members of the Teamsters' Union to help them by blocking wagons.

CUBA OBJECTS TO PROPOSED TREATY (By Associated Press.) HAVANA, October 27.—The representative of the Associated Press has learned from official sources that the proposed treaty between the United States and Cuba was returned to Washington by mail last Saturday. With the treaty was a counter speech at Monticarlo on the part of the Cuban government, in opposition to that of the United States, the nature of which is not known, but it is understood that President Palma in a letter sent with the treaty says that the acceptance of the proposition made by the United States would be ruinous to Cuba, as it would result in a large return of a customs revenue.
