

SEELY REPUBLICAN—DAILY PUBLIC LEDGER—1914

When nature passed the golden hair Most of us failed to get our share; She passed us by. But when the feet were passed, you bet, Most of us were on hand to get — A large supply. When good complexions went around Few of us were upon the ground To share the same. But most of us got large supplies Of marked-down teeth and remnant eyes. Ain't that a shame?

S. Straus was a visitor in Cincinnati yesterday. Mr. Charles Allen was a visitor in Cincinnati yesterday.

Col. R. B. Lovel was a business visitor in Cincinnati yesterday.

Farmers, Look!

The important feature of any transplanter is the valve mechanism. Examining the Improved Tiger. The valve on this transplanter has a flat rubber cut-off and 1 1/4 hose that insures plenty of water. The Tiger makes the farmer absolutely independent of the weather. He sets his tobacco when he gets his ground ready and it makes no difference whether the soil is dry or moist. This machine was designed primarily for the purpose of enabling the farmer to transplant, irrespective of reasonable conditions. At the same time, it is constructed to make planting more rapid and accurate. You can't go wrong in buying a Tiger. They will "deliver the goods." If you are too busy to come in, phone us and we will give you the names of some of your neighbors who are delighted Tiger owners.

MIKE BROWN, THE SQUARE DEAL MAN.
