**MUSES MILLS**

"Squire J. H. Muse is improving. H. P. Humphrey is still low with asthma. Merchant J. S. Muse is still improving from his auto accident. Jesse S. Wilson of this place is visiting relatives in Manchester, Ohio. John N. Humphrey of Sabetha, Kan., came in last Friday to visit his parents here. Charles H. Compton of this place is now teaching the public school at Ryan this session. Rev. Billie Brammer of Sabetha, Kan., is visiting relatives and friends in this community. Merchant G. A. Muse and wife of this place attended the Mt. Hope Camp meeting near Goddard last week-end. Dr. J. P. Huff of Plummer's Landing still continues very poorly with typhoid fever and his recovery is doubtful. He is under the care of Drs. Jesse of that place and Garr of Flemingsburg. Quite a furor was created in this village last Sunday afternoon when a large rabid dog suddenly appeared, acting queerly. Several shots were fired at him and he was badly wounded before he escaped into the hills. John R. Brammer, aged 65, a respected citizen of this place is now lying at the point of death by cancer of the eye that has set up a lung affection. Dr. Garr of Flemingsburg was hurriedly called here late Sunday and after an examination his right side was tapped and about a quart of matter drawn from his right lung. He left no hopes of his

recovery and his death is hourly expected. Generally speaking, an old-fashioned man is one who refers to them as "the ladies." Diana was an exceptional woman in the respect that she hunted game in stead of men. Talk confidentially with the man who "hates to get into evening clothes" and you will find he hasn't any. **MEDICINE IN FOOD.** (Nautilus.) The garden is a great medicine chest. Be your own doctor and look to your own slight ailments. If you are wakeful eat lettuce. For affections of the skin and for yellow skin eat onions. Onions are also good for colds, coughs, scrofula. For a torpid liver eat freely of asparagus. If the bowels are diseased try blackberries. For malaria and general breakdown eat cranberries. If nervous and irritable eat plenty of celery. For constipation eat fruits, ripe and healthy fruits. Fresh fruits are good; so are figs and dates. Raisins are beneficial. When the body is in good condition keep it in good condition by denying the appetite what has once injured the body. One can do everything for himself by eating the right thing and not too much of it, and by leaving alone the wrong thing and all of it. He can do more than doctors can do for him when he is flat on his back in bed.

Said Ned to Tom, " 'Tis cheap to wed, For two are one, when people marry." "I know," said Tom; "but look here, Ned, There may be one or more to carry!" —Boston Record.

**MAN TEACHER ONLY**  
In Fifteen Years—Says Children Should Work Out of Doors.

Washington.—Mantought pupils will be the leading feature of the schools of this county in the year 1930, according to Dr. Philander P. Claxton, United States Commissioner of Education. He is a strong advocate of many radical changes in the public school systems of our great cities and rural communities. Looking forward a quarter of a century, here are some of the changes he predicts: In the place of girls, "just out of their teens," men of experience will be employed to do the teaching. It will be their duty not only to act as teachers, but also to act as leaders in their communities. Teachers will be provided with a suitable home or "teachery," just as clergymen are given parsonages, and they will conduct a model farm, keeping in touch with all the agencies devoted to improving rural conditions and life. Instead of students in the city schools changing teachers every year, half year or quarter, teachers will accompany their pupils from the lowest to the sixth grade, or where department work begins. In this manner teachers will understand their pupils better and can perform far better service than at present in the capacity of guides and moral mentors. Six-year elementary schools will replace the eight-year institutions of today. The high school of the future will have a course covering a period of at least six years. At present the seventh and eighth grades of the elementary schools, for the most part, are "marking time," or the pupils in them are receiving instructions in high school subjects from instructors unqualified for that particular work. Many so-called "colleges" throughout the country, now endeavoring with very little success to give college courses, will become preparatory schools of junior colleges in which students will be prepared for their freshman work. This will mean a materially lower "mortality rate." Sixty per cent of present college entrants "die" before completing the junior year. Under the new arrangement, it is thought, at least 75 per cent would be successful. These junior colleges will employ only men of the highest ability and finest personality. Children will be made to do work preferably gardening or other work that will keep them out of doors. Tending on the topic, Dr. Claxton said: "The children ought not to be grounded in the shop or the mill, but should work with their feet in the soil, their heads in the sunshine and breathe good air. They will go home tired and with health for their old age. By this means many children could stay in the school longer than at present." Great cities will have a number of "half-and-half" schools. In these institutions boys and girls who are compelled to work will go to school one week and work in a store or factory the next week. Recent bulletins issued by the United States Bureau of Education contains the following items of general interest: Telling the people through the news papers and in other ways of the 160 or more species of birds to be found in their home town is one of the tasks the Sioux City Bird Club has set for its members. Five in every ten children observed outside of school hours in the average city are loafing—doing nothing at all because, as they say: "There is nothing to do." By substituting plenty of attractive social opportunities at the school and meeting the pupils half way, the school authorities succeeded in inducing the students at the West Chester, (Pa.) High School to give up voluntarily the secret societies in the school.

**BRILLIANT, STARTLING, BEAUTIFUL, SENSATIONAL HIPPODROME SHOW**  
Stupendous Six-Act Show Will Be Given Each Night In the One Hundred Thousand Dollar Live Stock Pavilion at the 12th Annual Kentucky State Fair

As the name implies, the Hippodrome show, to be given nightly in the \$100,000 live stock pavilion, at the twelfth annual Kentucky State Fair, September 14-19, will be a big one and the best, according to advance reports, that the fair management has ever secured. All of the half-dozen spectacles are headliners and a sensation in the show world. The list includes the wonderful and picturesque polar bear exhibition, in which a half-dozen of these monster animals are put through an amazing series of turns by the world's greatest bear trainer, Herr Albers, of Germany. At the top of the great pavilion may be seen the Flying Thompsons, billed as "birds of the air." They are circus stars, who whirl themselves through space from trapeze to trapeze in a manner which causes the nerves of on-lookers to tingle with excitement and wonder. A novelty is offered in the Eight Arabian Sons of the Desert, who juggle with their native weapons, do whirlwinds and tumbling and track acrobatics, sensational and amusing in the extreme. They appear in native garb and are a picturesque and pleasing feature. The Rescue Troupe are called "demons on the wire," and prove their title by eke walking, dining, jumping the rope and other dare-devil feats while balanced high in the air on a slender strand. The Rescuers are a foreign aggregation and appear for the first time in America at the Kentucky State Fair. Straight from the London Hippodrome will come the Bellclair Brothers, sensational acrobats, who will introduce the most sensational feat ever witnessed in their line of acrobats, a 15-foot flying hand stand catch. And, prettiest of all, will be the Ballet Troupe of charming feminine artists and a musical accompaniment to the graceful feats they perform, and end their act with a charming novelty called "The Butterfly Scene." Spectacular illuminations and dazzling costumes distinguish their turn. The free acts which will provide constant entertainment for Fair patron: on the ground will include the "thriller of the twentieth century," the death defying leap of "Dare-devil Hurley" and Mile. La Belle, who rides down at an incline of 60 feet in a machine which leaps 25 feet through space and throws her hurtling toward a trapeze from which Hurley swings to catch her in full flight. The Kiltie Band of forty wonderful novelty musicians will be another spectacular adjunct to the Fair. This is rated as one of the greatest Scotch Highlander aggregations in existence and will be by far the most stupendous and enjoyable musical feature the Fair has ever boasted. Other bands engaged are Day and Scally, of Louisville, and the Rice & Dore Marine Band, which will take prominent part in fair and street parades. There will be two or three other musical organizations on the pay roll.

**ALMOST CRAZY**  
With Itching—Cured by Saxo Salve  
Endicott, N. Y.,—"I suffered from a severe skin affection so I could not sleep. I was almost crazy with itching. I would scratch and almost tear myself to pieces. I tried a great many remedies without relief, but one tube of Saxo Salve cured me. I recommend it wherever I go."  
—A. L. MORGAN, Endicott, N. Y.  
If we can't cure your skin trouble with our Saxo Salve and Saxo Soap we will buy back the empty tube.  
John C. Pecor, Druggist, Maysville, Ky.

**STRAIGHTFORWARD TESTIMONY**  
Many Maysville Citizens Have Profited By It.  
If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments — are endorsed by over 30,000 people. Your neighbors recommend this remedy — have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.  
Henry Gallenstein, blacksmith, Popular St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equaled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."  
Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches — if your kidneys bother you — ask distinctly for Doan's Kidney Pills, the name that Mr. Gallenstein had — the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is lame—Remember the Name."

**THE VALUE OF SOLITUDE**  
"The average American," says Geo. Brandes, the Danish critic, "does not seem to have the slightest idea of how necessary solitude is to the formation of an opinion."  
Haven't you, as you've talked with farmers, been impressed with the "softness" of their opinions? There are stubborn city men, of course; but the mixture of life in a city tends to a certain versatility in thinking—you might almost say tends to substitute impressions and emotions for thinking. The farmer, on the other hand, working for the most part alone and quietly, has ample time to assemble and digest his thoughts and to arrange them into definite philosophy. Hence what sometimes seems like stubbornness in him is, instead, merely the confidence with which he holds to an opinion upon which he has done a careful and, so far as he was able, a thorough job of thinking. The great works of literature have mostly been written in the country. For that matter, most of the world's big men have been country born. In the arms of nature and amidst her silences they have wrestled with life's problems and wrought out guiding ideals and visions. Much as we regret to have to admit it, we believe Brandes is right.—Cincinnati Post.

**POINTS ABOUT SCHOOL ELECTION**  
Laws For Women Using the School Suffrage in Rural Districts  
WHEN AND WHERE TO VOTE  
The next school elections in which the women of the rural districts will have the privilege of voting will be held the first Saturday afternoon in August, from one to five o'clock, at the school house in each school sub-district, in which the term of the trustee expires this year. The officers of election are chosen by the voters at the opening of the polls. (This does not apply to graded common school districts.)  
THOSE WHO MAY VOTE  
All women over twenty-one years of age who are able to read and write and who have resided in a school sub-district for sixty days, may vote at such elections. These elections are by vivi voce vote.  
THOSE ELIGIBLE TO THE OFFICE OF SCHOOL TRUSTEE  
Any woman who is over twenty-one years of age and has been a resident of the district for sixty days is eligible to the office of school trustee, provided she is able to read and write, as shown by a certificate of five responsible citizens of the sub-district.  
THE QUESTION OF LOCAL TAXATION  
On the first Saturday in August, also, many sub-districts will vote on the question whether or not a special local tax is to be levied. Such a question cannot be voted on unless fifteen days' notice has been given by written or printed handbills posted up in at least five of the most public places in the sub-district. Women in rural districts do not register. County Superintendents are not elected until November, 1917.

**LOW? INTERMEDIATE? HIGH?**  
What Speed Are You Hitting?  
Some satisfaction in High Speed. You feel right on edge—go at your work with a snap—life is worth while. Your stomach and bowels must be right and appetite good. In fact, your digestive apparatus is the real secret. So is the Flour made in the most sanitary mill in the world—

**THE EXPRESS IS IN THIS TOWN AND IN TO STAY**  
FOR seventy-five years—three-quarters of a century the express has been the right hand of the shippers of commercial America. The express came to Maysville, Ky., in 1860 and it came to stay. For fifty-four years it has been the right-hand of commercial Maysville, Ky. It is here to stay. The other day when reports went out that the express companies might retire from business a protest went up. From whom this protest—the express companies? No! The merchants of the country—shippers everywhere—petitioned Congress that no action be taken that might have the effect of forcing the express companies to retire. Commercial organizations all over the land have joined in this appeal to Washington. For 75 years in the past and for a good many more years in the future Express Service will mean PERSONAL SERVICE—FULL RESPONSIBILITY
