**ONLY A DOG**  
 But He Spent Three Days in a 45-Foot Vault.

(Augusta Chronicle.)  
 Several days ago Finley Henderson, the tobacco man, missed his fine bird dog, and notwithstanding the fact that he made diligent inquiry he could find no trace of him. After the dog had been gone several days a dog was heard whining in a vault, back of Mrs. S. P. Conley's home, on Elizabeth street; and investigation being made the missing dog was discovered. The vault, which had recently been cleaned out, is about 45 feet deep; at a depth of about 30 feet a board projected, on which the animal alighted if its descent, and on which it clung until found, at least three or four days. "Dock" Preston, the handy man, played cowboy and lassoed the dog after several attempts, and he was turned over to his master as good as ever, excepting that he was unusually lank after his long fast.

## UNITED STATES

Passes 100,000,000 Population—Quadrupling of People and Vast Growth of Wealth in 50 Years Told Officially—Savings Four Billions.

The population of the United States today is more than 100,000,000 and the money in circulation totals \$3,419,000,000, while 11,000,000 of the thrifty inhabitants have \$4,375,000,000 in the savings banks.

Such is the announcement made here recently by the Bureau of Foreign and Domestic Commerce in the Department of Commerce. The pamphlet issued by the Bureau is entitled "Statistical Record of Progress of the United States, 1850-1914." It gives a "clear perspective" of the nation's quadrupling of population and multiplying a hundred-fold of industrial values.

"Since 1850 the population, then 25,000,000, has more than quadrupled," says the bulletin. Commerce has grown from \$318,000,000 to \$4,259,000,000, and the per capita value of exports from \$16.96 to \$23.27.

National wealth has increased from \$7,000,000,000 in 1870 to \$140,000,000,000. For the entire country bank clearings have grown from \$62,000,000,000 in 1887 to \$174,000,000,000 in 1913.

Improved social conditions among the people are shown in that 19,000,000 children are enrolled in public schools and 200,000 students in college. The total expenditure on education approximates \$500,000,000 a year.

More than 22,000 newspapers and periodicals are printed.

In 1850 there were 251,000 depositors in savings banks. There are now 11,000,000 with deposits aggregating more than 100 times as much as at the middle of the last century.

The value of farms and farm property increased during the last half century from \$4,000,000,000 to \$41,000,000,000; value of manufactures from \$1,000,000,000 to over \$20,000,000,000; and the number of miles of rail road in operation from 9,921 in 1850 to 258,033 in 1912.

In the last twenty-five years the number of passengers carried has increased from 492,000,000 to 1,064,000,000, and the volume of freight handled each year from 632,000,000 to 1,845,000,000 tons.

Nearly 20,000,000,000 pieces of outgoing mail matter were handled annually by the Postoffice Department, which disbursed last year \$262,000,000, or \$2.70 per capita.

## IDIOTICALS. BY ONE.

The way some poor, tride women keep at-tolling you'd think they were trying to earn enough salt to keep the Atlantic ocean supplied.

Among the other hold-up men might be mentioned the fellow who invented horse supporters.

About the only difference between a rattlesnake and some policemen is that the rattlesnake's butens aren't brass.

Some love uses up a lot more cream and sugar than others.

Too many of us, when we see the handwriting on the wall try to make ourselves believe it's a circus poster put up for our amusement.

**Resembled Them.**  
 "Woman, your extravagance is awful! Do you think I'm a millionaire?"  
 "No. But you are stingy enough to be one!"

Why not let the Prince of Wales and the German Crown Prince settle it with a game of dominoes?

Like some other questions, the Vistula appears to have two sides, and every time a German or a Russian gets on one side he wants to cross over to the other.

But in spite of the foot and mouth disease, we'd rather have a cattle ranch than a ride range.

Some folks are like a rabbit—they're always in a hurry.

## GEORGE ALEXANDER

Trial of High Rolling Paris Banker Resulted in Hung Jury.

At Paris Friday in the trial of George Alexander, the alleged bank wrecker, resulted in a hung jury, and another trial will follow. The jury was reported to stand 10 for conviction and 2 for acquittal.

The Paris Democrat said of the banker:

Mr. Alexander has been married three times. First, to Miss Kate Spears, of this city, by whom he has two daughters, Miss Kate Alexander of Paris, and Mrs. Edith Bronston of Lexington. His second marriage was to Mrs. Evalina Plater Kenner of Nashville, Tenn., and just one year from the day she came to Paris a bride, her body was taken back to Nashville for burial.

Miss Mary Buford of Covington was the third wife, and by this union there are two daughters, Misses Marian and Elizabeth Clay Alexander.

As a business man and elegant gentleman no man in the state stood higher than Mr. Alexander until the crash came last May and the affairs of the bank were exposed.

It seems strange that a man of Mr. Alexander's standing and advantages could have "fallen from grace," and be placed in the position he now finds himself.

He had an elegant home, plenty of money to live an easy life, a family that any man should be proud of.

He had befriended many men in dire need, both among the rich and among the poor, in fact every one for whom he had a personal liking, and as a consequence had gained many friends. On the other hand his manner rendered him unapproachable and made him unpopular with the people as a whole.

## HUMORS OF LAW.

We laugh at old Wouter van Twiller. Whose mode of deciding a case Was to go by the looks and the weight of the books Which the lawyers brought into his place.

At his manner of judging Because it is queer in our eyes, And the erndite way of our jurists today Show up as decidedly wise For now they determine on justice.

By means that are noble to see, By a comma misplaced in a proofreader's haste Or a failure at crossing a "t," And having thus climbed to perfection, To justice sans error or flaw, Our laughter rings shriller at Wouter van Twiller And his way of deciding the law. —The Docket.

## KENTUCKY WILL SEND WHEAT TO EUROPE.

The United States has approximately 500,000,000 bushels of wheat on hand this year for export and practically all of it will probably be sold to the warring countries of Europe. According to a report issued today by the United States Department of Agriculture the wheat production of the United States this year will be around 892,000,000 bushels and only 601,000,000 bushels will be needed for food consumption and seed purposes at home.

The per capita wheat consumption of Kentucky for food is 4.5 bushels, and the total annual requirement for seed and food purposes in this state is 11,600,000 bushels, leaving a surplus of production this year of approximately 692,000 bushels.

## THE HORSE'S BOARD BILL.

Washington, D. C., November 30.—The United States Department of Agriculture has just completed figuring the board bill of the American horse and finds that he consumes \$16.67 worth of corn, \$7.77 of oats, 65 cents of barley and \$14.30 worth of hay annually. He eats 29 bushels of corn, 21 of oats, one bushel of barley and one and one-fifth tons of hay each year. There are about 25,000,000 horses and mules on the farms of the United States and their annual feed bill is \$984,684,000. The total amount of corn fed per year is 731,000,000 bushels, 525,000,000 bushels of oats, 27,000,000 bushels of barley and 29,797,000 tons of hay.

## THE PATRIOTIC DOLLAR

CONGRESS DECREES DOLLARS INDULGING IN LUXURIES MUST FIRST SALUTE THE FLAG.

War Revenue Tax of \$105,000,000 Levied—Beer Bears Brunt of Burden.

Congress has levied a war tax of \$105,000,000 to offset a similar amount of loss on import revenue due to the European disturbances and of this amount beer is the heaviest contributor, having been assessed approximately \$50,000,000; a stamp tax on negotiable instruments, it is estimated, will yield \$31,000,000; a tax on the capital stock of banks of \$4,300,000 and a tax on tobacco, perfumes, theater tickets, etc., makes the remainder.

Congress has decreed that the brewer, the banker and the investor must shoulder the musket and march to the front; that midday who would add to her beauty must first tip Uncle Sam, and a dollar that seeks pleasure must first salute the flag; that Pleasure and Profit—the twin heroes of many wars—shall fight the nation's battles and by an ingeniously arranged schedule of taxation congress has shifted the war budget from the shoulders of Necessity to those of Choice and Gain, touching in its various ramifications almost every line of business.

All hail the dollar that bleeds for its country; that bares its breast to the fortunes of war and risks its life to preserve the stability and integrity of the nation's credit.

The market place has always been a favorite stand for war revenue collectors. The trader is a great financial patriot. His dollar is the first to rally around the star-spangled banner and the last to hear the coo of the dove of peace. He is called upon to buy munitions to feed and clothe the boys in blue and each month cheer their hearts with the coin of the realm. Men can neither be free nor brave without food and ammunition, and money is as important a factor in war as blood. Many monuments have been erected in honor of heroes slain in battles, poems have been written eulogizing their noble deeds and the nation honors its soldiers while they live and places a monument upon their graves when they die, but very little has been said of the dollar that bears the burdens of war.

## Honor to the Dollar that Bears the Burdens of War.

All honor to the dollar that answers the call to arms and, when the battle is over, bandages the wounds of stricken soldiers, lays a wreath upon the graves of fallen heroes and cares for the widows and orphans.

All honor to the industries that bend their backs under the burdens of war; lift the weight from the shoulders of the poor and build a bulwark around the nation's credit.

All honor to those who contribute to the necessities and administer to the comforts of the boys who are marching; cool the fever of afflicted soldiers and kneel with the cross beside dying heroes.

A dollar may fight its competitor in business, industries may struggle for supremacy in trade and occupations may vie each other with envy or emulation, but when the bugle calls they bury strife and rally around the flag, companions and friends, mess mates and chums, all fighting for one flag, one cause and one country.

The luxuries in life have always been the great burden-bearers in government. We will mention a few of them giving the annual contributions to the nation's treasury: Liquor, \$250,000,000; tobacco, \$103,000,000; sugar, \$54,000,000; silks, \$15,500,000; diamonds, \$5,837,000; millinery, \$2,479,000; furs, \$2,024,000 and automobiles, \$370,000. We collect \$665,000,000 of internal and custom revenue annually and \$450,000,000 of this amount classifies as luxuries, and to this amount we should add the \$100,000,000 war tax now levied.

The war tax is immediately effective. Tramp! Tramp! Tramp! The industries are marching \$100,000,000 strong and beneath the starry flag they will fill the treasury again while they shout, "Hurrah for Uncle Sam!"
