BOARD OF HEALTH

Meets With Citizens To Discuss Sewer Troubles.

Thursday night that City Board of Health, with Mr. Frank Clarke presiding, met with City Attorney Calhoun, several members of Council and a number of residents from the Fifth and Sixth Wards, who had been summoned by the Board, and discussed the advisability of abandoning some of the sewers in the East End.

Quite a bit of information regarding private and city sewers was brought out during the evening, but nothing definite was done, looking toward the elimination of certain obnoxious sewers that come too close to the Water Works.

This was left up to the Board of Health, who will again go over the entire sewerage question, and take action in the matter. They will most likely order the residents living along East Second street to tap into the large city sewer that runs in this street. At present there are not more than four or five who have tapped this sewer, yet it cost the city \$3,000. The Board of Health can be depended upon to do the right thing.

Col. I. N. Foster, Councilman from the Fourth Ward, returned home Thursday afternoon from Baltimore, somewhat improved in health.

Mr. H. J. Santan, of Paris, Ky., is visiting friends here.

Mr. Thomas Roland, of Vanceburg, is in town today.

MARVIN DUNN ESCAPES SERIOUS INJURY.

This morning, while Marvin Dunn, the young son of Captain and Mrs. James Dunn, of East Third street, was playing on and about a large pile of lumber and heavy timber at the L. & N. railroad station, the lumber toppled over and several of the heavy timbers fell upon the little fellow, inflicting painful bruises about the legs.

Mr. William Watkins, who lives just across the street, was on his porch watching the little fellow at play and saw the lumber fall. He rushed to his assistance, and realizing the danger of other timbers falling, worked frantically to raise those which pinned the boy's legs. The little fellow was released and returned to his parents with painful bruises, but it is thought that he escaped serious injury. Mr. Watkins does not understand just how he released young Dunn, for in doing so he raised timbers of a size and weight that he would not attempt even to move when not under the stress of excitement. That the boy had a narrow escape is beyond question, and we join with their many friends in congratulating his parents on their good fortune.
