DOLL SHOW

A Unique Success—Over Hundred Dolls In Contest.

All the little girls who had dolls on display at the DeNuzie in the contest for the prettiest, best dressed, the largest, smallest and many other kinds of dolls, gathered at the Washington Theater Saturday afternoon and received their prizes. Those who received prizes were Misses Helen Bonn Dinger, Jessie Owens, Martha Hall Wood, Adelia Davidson, Anna Fred Harbeson, Katherine Pee and Alice Knight. All the young ladies who entered the contest were treated to ice cream cones and thus ended the gala week at the Washington.

A MAYSVILLE BAND

An effort is being made by Mr. Ernest Perry and Mr. J. Randolph, two local musicians to interest other musicians of the city in organizing a Maysville band.

Mr. Perry is now director of the Aberdeen band and has succeeded in making of that aggregation a very good musical organization, but in Maysville there is much better talent if only they can be interested.

It is the purpose of these gentlemen to interest the musicians of the city in the proposition and if they are given the right kind of encouragement Maysville will have another band like the one of olden times which is remembered with much pride.

Be a booster for the new Maysville Band.

Attorney Robert Wilson of Vanceburg was a business visitor in the city Saturday.

Miss Margaret Coughlin, of Germantown, was a visitor in Maysville Saturday.

The World's Lowest Priced Knight Motored Car

THIS announces the greatest achievement in the history of the automobile business. Practically every royal and titled family in Europe owns one or more Knight motored cars. The Willys-Knight has the same advantages and is just as efficient as those costly European Knight cars.

The Knight is the automobile motor that revolutionized the entire motor car industry of Europe. As we build more cars in a single week than most European manufacturers build in a whole year, we are able to utilize every modern manufacturing economy.

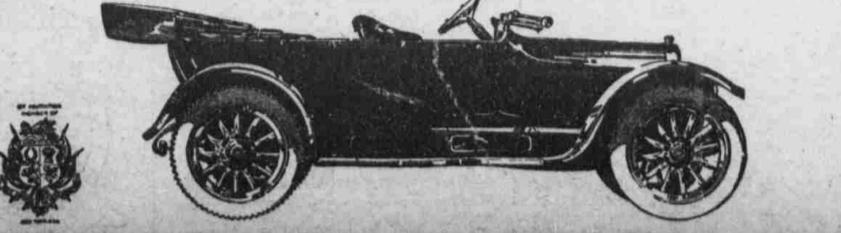

The Daimler of England, the Panhard of France, the Mercedes of Germany, the Minerva of Belgium—in fact practically all of the costly European cars—are equipped with the famous Knight type motor. That is why our price is so much less.

It has no noisy poppet valves; no noisy cams; no uncertain valve springs; no troublesome valves to grind; practically no wearing parts. The Willys-Knight, in our opinion, has the least vibration and is the smoothest, quietest and most economical car made. Have your demonstration at once. Immediate deliveries.

And these are the motor cars that cost from \$4,000 to \$8,000 each!

Specifications:
40-horsepower Knight motor; cylinder cast on block, 4 1/2" x 4 1/2"; high torque magneto ignition; 114-inch wheelbase; full-floating rear axle; underling rear springs; 24" x 16" tires, non-skid tread; Dismountable rim; one extra; Color: Royal blue with ivory strip; gray wheels; nickel and polished aluminum trimmings; Vacuum tank gasoline system; Electric starting and lighting system; Central buttons on steering column; Headlight dimmers; One-man overhead top; Rain-vision, ventilating type wind shield; Magnetic speedometer.
