### WHO PROFITS BY FREE SUGAR?

That the Democratic National Committee was hooked up with the sugar porters in the matter of the sugar tariff is amply proven by the testimony of Frank C. Low, an agent of the Federal Sugar Refining Company, testimony before the Senate Finance Committee of the Senate. Low admitted that he had on the agitation for free sugar under the guise of a man that had no real existence; he had prepared free sugar which was circulated by the Democratic National Committee. In a scheme, he said, was the sugar refiners' money set into to hoodwink the people into believing that free sugar meant cheaper sugar. There are two main reasons under the protection of the industry has the production of sugar can soil, particularly in the sugar beet industry. This is done out ready for the sugar factories and sells with the sugar of the very pound of sugar American flag means of foreign grown sugar. The refiners can collect in that the sugar of raw sugar is interested in getting as cheaply as possible; according to the Democratic Congressional control, the refining of the country, and with the way out of the way under they will be able to put or pockets the \$50,000,000 went to the government. The attitude of the American farmer sugar was well expressed by Helke, former secretary trust, before the House of Representatives. In a question, "Now if the moved absolutely on see either case, and you asked. ### STORK BUSY IN OHIO.

Near 100,000 Babies Born in Buckeye State in 1914.

Columbus, O., October 13.—If there is any likelihood of the United States being involved in war the good old stork, which brought 98,898 babies to Ohio during 1914, is not yet "wise" to the fact.

The males numbered 50,442 and the females 48,256. It has long been a firm belief that war always was preceded and followed by a heavy increase in the number of male children. The 1914 figures are normal. There were 1,929 negroes, two Chinese, five Japanese and two Indians.

### EXECUTIVE DEPARTMENTS RESPONSIBLE FOR EXTRAVAGANCE.

A well known newspaper defender of the Wilson administration says that "the expenditures allowed by the last Congress, in view of the declaration of the Baltimore convention in regard to economy, were a disgrace. No preceding Republican Congress had gone the length of a Democratic Congress elected on a platform of economy. The last one made a record for extravagance. It embarrassed the President and brought down ridicule upon his administration."
