ATTEMPTED FORGERY.

Charles Wright, aged 20, of the county, was arrested by local officers Monday afternoon on the charge of forgery. Wright, it is said, attempted to pass a check with the name of Mr. Lucian Maltby signed to it, on W. H. Farwick, a Market street saloonist. When the check was presented at the bank it was turned down as a rank attempt to forge the signature of Mr. Maltby.

Wright, after presenting the check, disappeared, and was not seen for several days. Monday afternoon it was learned that he was at the home of relatives in the East End, and the police went to the house and arrested him.

It is also said that Wright attempted to pass a check on Mr. Fred Wells, giving the signature of a man named Brown on the bit of paper. This attempt, however, was not successful, as Wells investigated before giving money on the paper.

ARMLESS. BUT A JUDGE

David Moylan, councilman, attorney and municipal judge elect of Cleveland, O., was a railroad switchman 18 years ago. An accident deprived him of his right arm. Moylan is not a man to be easily discouraged and was not long before he was back at the same old stand. Seven years later another accident cost him his left arm. It was then that Moylan turned his attention to law and worked with all his might and brain until he mastered the subject. At the law examination he answered the questions with pen between his teeth. He practiced a while as a lawyer, and four years ago was elected to the city council. He made good and was returned two years ago by one of the biggest votes. In the recent election he ran for municipal judge and was elected by a good plurality. The photograph shows how Judge Moylan will sign his decisions.

THE NEW COUNCIL

Worse Mix Up Than Old Council—City Will Suffer Thereby.

From all eulogistic reports the new City Council is in a worse mix-up than the old Council—and all over the election of the city officers, especially the Chief of Police.

This condition of affairs is deplorable and it now looks to an outsider that Maysville's progress is to be again retarded for another two years to satisfy the whims of some who want to put their personal friends in office.

The task of a Councilman is no easy job, and during the next two years will require him to be wide awake and alert in order to get everything that is coming to Maysville, especially since we have organized a Chamber of Commerce. He should lay aside all petty differences of opinion as to who is his best friend for office and get down to business.

Maysville has in its new Council some of the best business men in the city and they are qualified and capable in every way to give the city one of the best administrations we have had in years, but THEY MUST GET TOGETHER to do this, and the people who elected them have a right to expect this action upon their part.

The cause of all this foolheaded business could have been averted had the old Council not played politics and given the people the right to elect their own city officers. Then there would be no cause for discussion as to who was going to get this or that office by members of the Council, and the people would have settled that question for them.

The Ledger has always advocated the election of the city officers by the people and the present scramble for the new Council demonstrates very clearly the wisdom of this sentiment. If they want the Council to give them good service.

Come, gentlemen of the new Council, GET TOGETHER RIGHT NOW and stop this wrangling. Let the people elect the city officers and you will have all you can do not look after the city's interests. You owe this to those who elected you as their representatives.

HOW TO USE THE RED CROSS SEALS.

Red Cross seals, should, in accordance with Order No. 5929 of the Post-office Department, "be affixed to the reverse side of domestic mail matter" and not on the address side of any letters or packages that are going through the mails. They may be placed anywhere on matter going by express. As many seals may be used on the back of a letter or package as may be desired. Care should be exercised in sending merchandise through the mails not to place seals over the strings with which the package is tied, since this closes the package against inspection and subjects it to first class postage rates. Users of Red Cross seals are cautioned against indiscriminate use on foreign mail. Red Cross seals in normal times may be used on the reverse side of mail matter sent to Austria, Germany, Great Britain and most of the British colonies, except India and Australia, Guatemala, Uruguay and Portugal refuse to admit mail bearing non-postage stamps. Certain European countries will return to the sender any mail bearing Red Cross seals on the address side. Mail addressed to any of the belligerent countries in Europe should not bear Red Cross seals on the address side. Red Cross seals may be used on the face of checks, bills, on legal documents and on any commercial paper. The Christmas seals are not good for postage. They will not carry any mail matter, but any kind of mail matter will carry them.

According to the members of the French Commercial and Industrial Mission, of which Maurice Damour is at the head, France is to spend \$1,000,000 in the United States on machinery to reconstruct her industries, destroyed or crippled by the war. The commission arrived aboard the new liner Lafayette. None of the money, said M. Damour, who posed especially for this photograph about the vessel, will be spent on ammunition. All will be spent for agricultural, industrial and commercial materials. While the mission will not do any purchasing, it will make arrangements for the purchases so that shipments may be started as soon as there is definite indication of approaching peace. M. Damour is well known in New Orleans, where he was the former French consul general. He is secretary of the committee of appropriations of the French chamber of deputies.
