SOME BEAN

Three of Them Large Enough For a Good-Sized Meal For Any Family.

Of course you won't believe it, because you never saw it and don't believe anyone else saw such a whopper.

But this is no bean lie and goes to show what can be done by us Hicksons in Maysville when we get a good start.

Last night there was shown the writer the only real bean he ever saw, one of those splendid variety that would make a whole regiment of Uncle Sam's soldiers green with envy.

This master bean when uncollected measured 2 feet 8 inches, and the Hickson that had it said that in breaking it off the vine he left an inch there.

Now let the "oldest inhabitant" come forward with one of his '46 bean stories, as this one is of the '17 variety and places the cultivator in a position to be drafted into the army to be Chief Bean Producer for Uncle Sam's soldier boys.

There are several other beans on the same vine that will be sold to the dry goods stores to be used for yard measurements when they get ripe.

26 MORE EXAMINED

BY MASON COUNTY DRAFT BOARD YESTERDAY—FOUR REJECTED AND FIFTEEN OF REMAINING TWENTY-TWO CLAIM EXEMPTION.

Board Warns All To Be Careful About Signing Affidavits—Patriotic Duty of Every American To Report Those Making False Claims.

Registration Figures to Date
Examined—126.
Rejected—38.
Accepted (claimed exemption)—67.
Accepted (claimed no exemption)—21.
Not reporting—11.

Of the thirty men who were supposed to report for examination before the County Exemption Board yesterday four did not report, one of them being William Sherman Griffith, who committed suicide near Aberdeen Sunday night. From the twenty-six examined four were rejected and fifteen of the remaining twenty-two claimed exemption.

The Board wishes to emphasize the fact that all persons should be very careful about affixing their names to affidavits as there is a severe penalty attached to making false claims.

It is the patriotic duty of all Americans to report any case that they know of where a man seeks exemption on some false claim. The Board will treat all information strictly confidential.

Word was received by the Board yesterday afternoon from Provost Marshal General Crowder new rulings on physical examinations and especially on the teeth of registered men. Quite a few men who have been rejected on account of bad teeth will be recalled for another examination at once.

The Board has announced that after the first 240 men are examined no more examinations will be made until all the exemption claims are disposed of. Then if it is found that more men are needed another list of names will be posted and cards will be sent to the men notifying them on what day to appear for examination.

ENTIRE NEW ARMY

To Be in Camps in a Few Weeks—First Thirty Percent of Each District's Quota Will Leave on September 5.

Washington, August 13—The entire 687,000 men composing the first increment of the army draft forces will be under training early in October. Under orders issued today the first 30 per cent of the quota of each district will begin entrainment for thirty per cent September 30. The remaining 70 per cent will be mobilized as soon after that date as possible.

The plan to assemble the new forces in three increments distributes the task of furnishing supplies and equipment through September. It will also prevent serious shortage in any camp and will give the new officers from the training camps time to familiarize themselves with their duties gradually before responsibility for a great body of men falls on them.

The order issued today means that about 12,000 men will reach each of the sixteen cantonments soon after September 5. They will first be examined physically by army doctors and finally accepted or rejected. This will take some time and the men will have to be furnished with temporary quarters and rationed while awaiting examination. If the full quota were assembled at one time, great confusion would result.

Presumably the first increment will have been organized into skeleton companies, battalions or regiments before the second arrives.

The newcomers can be quickly absorbed by a going concern in that case, and the third lot can be taken into the war machinery with even less disturbance when it reports fifteen days later.

In farming communities local boards now will arrange the lists of those to fill the first increment with local crop conditions in mind. Harvesting is in progress in many sections. Drafted men engaged in that work and who otherwise would go with the first third of the district quota will be passed over the second or third as may be necessary.

That conscientious objectors to war are not to be excused entirely from serving the country has made clear in a ruling by the provost marshal, holding that such persons should be sent to the mobilization camps along with others drafted, to be assigned later to non-combatant branches of the service. It is presumed they will serve in the quartermaster's corps, the medical corps or other units not employed in actual combat.

SALAZER, FORMER CHIEF OF STAFF TO FRANCISCO VILLA, IS KILLED IN FIGHT WITH HOME GUARDS

Juarez, Mexico, August 13—Jose Ynzen Salazer, a revolutionary leader and former chief of staff to Francisco Villa, was shot and killed at the Nogales ranch, a short distance from Ascension Thursday. Americans arriving here today from Casas Grandes said Salazer had been killed by a small band of home guards who were organized to protect the Casas Grandes-Ascension district.

The story told by the Americans was that three of Salazer's men were mistaken for raiders by guards at the Nogales ranch and killed and that when the leader went to see why his men were detained a like fate befell him. His body was recovered and will be brought here for burial.
