## "THE RANCH WITH A HUNCH"

Mr. John Fleming Pogue, Former Maysvillian, Now in California, Writes Poem About His Ranch.

The Ramona Sentinel published at Ramona, San Diego county, California, contains the following:

Mr. John Fleming Pogue, the recent purchaser of the big Montecito Ranch, comes out in this issue with a poem of optimistic tone, and he starts out by saying "We're bound to beat it out with the bunch," and closes with the sentiment, "Put your paw right there." Mr. Pogue and his estimable family came here from Cincinnati, Ohio, in which city they are known among the heavy merchandising class. Since coming to Ramona the Pogue family have rapidly become a part of our community, and have endeared themselves to us through their courtesy as well as through their kindly attitude toward our matters of a public nature. They are showing their disposition to do things worth while, for besides farming their own big ranch they have under lease five hundred acres of the Santa Maria Rancho, and the vast acreage will be plowed with a big tractor which has been purchased by Mr. Pogue. Their vim and energy and effort to help us do things all look mighty good. Sure, there.

Following is the Poem:  
**The Ranch With a Hunch**  
"Perhaps it may turn out a sang, perhaps turn out a sermon"—Burns.  
Say stranger, have you heard of the Montecito Ranch,  
Which the same it is the ranch with a hunch?  
While we started rather late, yet we're growing, root and branch,

And we're bound to beat it out with the bunch.

O, we only mean it all in the fairest part, old pard—  
For we didn't come out here to have a fight—  
Still we sure are going some, and the going's rather hard;  
But we're doing what we do with our might.

For you see the way to win is to will it strong, b'gosh!  
To go for everything there is in sight—  
To put it like a shot; put the others on the ki-boosh;  
Which you know gener-ally means a fight.

Well, we're here to win, we say—by all the means that's fair;  
Then here's our hand before the game begins;  
Sure! We mean it as a friend,—so put your paw right there;  
God's blessing on whosoever wins!

'Tis just a bit of greeting, to our neighbors far and near,  
Just to show our heart is on the left hand side;  
Come and see us if you can—don't you ever have a fear  
But you'll find the door is open very wide.

O! the world is weary, with its bickering and strife;—  
Say—we never started out to preach a sermon—  
Still the sermon sure creeps in, for such we find is life;  
And the ranch with a hunch may pass as one.

JOHN FLEMING POGUE.

## ARGENTINA WILL NOT BREAK WITH GERMANY

Washington, October 1—All expectations that Argentina might follow the lead of her neighbors and break with Germany have been dispelled here with the news that President Irooygen is determined not to heed the action of the Argentine Congress and popular demand for action and will continue a neutral course. His suggestion that all South America determine her war course by a joint conference is not expected to bear fruit, because a similar proposal was rejected by all the other more important Governments some time ago.

## VINOL MAKES WEAK WOMEN STRONG

**Positive—Convincing Proof**  
We publish the formula of Vinol to prove convincingly that it has the power to create strength.  
It is God Liver and Beef Peptone, Iron and Manganese Peptone, Iron and Ammonium Citrate, Limes and Soda Glycophosphate, Cocaine.  
Any woman who buys a bottle of Vinol for a weak, run-down, nervous condition and finds after giving it a fair trial it did not help her, will have her money returned.  
You see, there is no guess work about Vinol. Its formula proves there is nothing like it for all weak, run-down, overworked, nervous men and women and for feeble old people and delicate children. Try it once and be convinced.

## DUST AND VISITORS

Were Features of the Day at Camp Taylor, Louisville, Sunday.

Louisville, September 30—Swirling clouds of dust and thousands of pedestrians were competitive visitors at Camp Taylor today. The pedestrians, however, outstayed the former, and were rewarded with a pleasant afternoon with friends, acquaintances and relatives.  
Only brief routine was followed today, including for the first time general muster, regiment by regiment. Afterward more than half the soldiers on the ground were excused from duty and several thousand came into Louisville for an after visit.  
Religious services were held at the camp this morning, mass being held at the Knights of Columbus building and Bible services at the Y. M. C. A. One hundred and seventy new buildings will rise at the camp this week on additional acreage just acquired. One thousand additional men will be put on the work tomorrow morning.

## NEGRO MEN TO BE MOBILIZED OCTOBER 3

Washington, October 1—With plenty of room available at the national army cantonments, due to the large number of men to be withdrawn to fill up the national guard and other branches, the War Department has again modified its plan for training negro troops for the national army forces. It is now the purpose, Secretary Baker said today, to train a complete unit of negroes at each of the sixteen cantonments, instead of training them only at cantonments to which a considerable number report. The size of the units will depend upon the number of negro drafted men from the divisional areas which supplies each cantonment, but where there is a large surplus men will be sent to the posts with small numbers for consolidation with the units there.

## WANT WICKETS DOWN AT PITTSBURG

Pittsburg, Penn., October 1—A request has been received by the local United States engineers to let the wickets down on the dams in the upper Ohio Valley, so as to give a stage deep enough to transport about 1,000,000 bushels of coal from the Kanawha River to points between Gallipolis and Cincinnati. The matter will likely be decided today, although there appears to be a belief among river men that the wickets at the Beaver and Davis Dams would not be lowered for the present.

The river men report a big fleet of loaded Kanawha coal barges at Point Pleasant, W. Va., and Huntington, W. Va., awaiting a rise in the Upper Ohio River to float to Cincinnati and other points between Huntington and Cincinnati.

## GOOD BACKS FOR BAD

**Maysville Residents Are Learning How to Exchange the Old Back For a Stronger One.**  
Does your back ache, feel weak and painful?  
Do you suffer headaches, languor and depression?  
The kidneys may be calling for help.  
Weak kidneys cannot do their work. Give them the help they need.  
To cure a kidney backache you must cure the kidneys.  
Use a tested and proven kidney remedy.  
Doan's Kidney Pills have stood the test.  
Convincing proof of merit in Maysville endorsement:  
Mrs. M. Holliday, 221 W. Second St., Maysville, says: "At times, my back has ached across my kidneys. My kidneys have been irregular in action and I have had dizzy spells and headaches. I have always used Doan's Kidney Pills, getting them at Wood & Son's Drug Store, and they have never failed to relieve these complaints."  
Mrs. Holliday is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Holliday had—the remedy backed by home testimony. 60c all stores. # FRED ARN

The Workingman's Candidate For CITY CLERK

SAYS: The workmen of Maysville should be represented in the City Government at all times. If the taxpayers of Maysville will honor me with their support, I promise to faithfully perform my duties at all times and to make an itemized record of every penny of their money that is paid out. The MISCELLANEOUS accounts paid out of the Treasury for the month of September is something like \$140.00. This is no reflection against anyone, but business is business.

HOW ABOUT IT, MR. TAXPAYERS?

## THE DAILY REMINDER

### In The Day's News

Virgil G. Hinshaw, the leading spirit in a conference called to meet in Chicago today with the object, it is said, of bringing about a political working agreement among the Prohibitionists, Progressives, Socialists, Single Taxers and union labor, is the chairman of the national committee of the Prohibition party. Mr. Hinshaw is a native of Iowa and was graduated from Penn College in 1900. For four years he traveled in the interest of the Intercollegiate Prohibition Association. From 1906 to 1908 he studied law at the University of Minnesota. Then he became president of the Intercollegiate Prohibition Association and traveled for two years promoting its interests. Later he set up a law office in Portland, Ore., where he was making his mark when summoned to the position of chairman of the national committee. In this office he has been singularly successful in raising funds for the party.

## SHIPPING TOBACCO FROM OHIO AND KENTUCKY BY ALL WATER TO EUROPE

In reply to an inquiry about shipping tobacco down the river to New Orleans for France, Mr. J. M. Buckner of Louisville writes the Manufacturers Record:  
I am in possession of your esteemed favor of August 30, which would have been answered sooner, but I have been away for five weeks.

## Protection from Contagion

Owing to its antiseptic properties, 20 Mule Team Powdered Boric cannot be too highly recommended for liberal use in the care of the person whenever and wherever exposed to any contagious disease. It may be applied as a powder or with water as a solution.  
It may be used with absolute freedom and safety in all the natural cavities of the body; physicians almost always prescribe it as an eye water, mouth wash, etc., and wherever introduced the antiseptic action is certain, but there is no danger from its use as there is with some other disinfectants. Insist upon having the original package of 20 Mule Team Powdered Boric and then you know that you have the real article full strength. All leading druggists.

ers and as the French Government needed the tobacco in order to keep their factories going in France, I was compelled to get the tobacco to New Orleans to catch these steamers; so I arranged with the Inland Navigation Co., at St. Louis, which has steel barges propelled by gasoline engines, each barge taking from 600 to 900 hhds., to take this tobacco to New Orleans. When the tobacco arrived in New Orleans in some instances it went along side of the steamer and was loaded from barge to steamer, that is, if the steamer was ready to receive the cargo, and when this was not done the cargo was taken off the barges and loaded on the docks pending the arrival of the steamer.  
I ship large amounts of tobacco all over the world and am working to try to assist the river traffic and not be compelled to depend on the railroads. This steel barge left Paducah on Friday morning and arrived at New Orleans the following Monday, being only four days; in fact, it made better time than a freight train, and the great advantage was that all the cargo arrived at one time and could be checked by the shipping clerks much easier when it was loaded on the vessels than it could have been checked if it had been shipped by railroads, as the cars arrive at different times.

I see no reason why the river traffic should not be encouraged on the Ohio and Mississippi Rivers, in fact, it looks like to me the Government is not on the job and the railroads are holding up the shippers.

I expect to handle large amounts of tobacco next year for various governments, as I will probably represent France and Sweden and sell considerable amounts to Denmark and Norway, and it is my intention to have factories located on the river front where I can have the barge stop in front of the factories and load the tobacco from the factories direct into the barges.
