

Plant Seed Potatoes, \$1.25 a Bushel

United States Food Administration License No. G-01042

Down Goes the Price as Long as They Last. Triumphs, Ohio and Early Rose. Less Than Cost.

DO YOU KNOW WHY --- So Many Folks Don't Appreciate Art?

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surface of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 50c. Hall's Family Pills for constipation.

"PIG-DOGS" OR LIBERTY BONDS

Do you, Mr. American Citizen, consider yourself a PIG-DOG or a SWILL-HOUND? Probably not; but do you realize that there is a nation of people, trained for war as no people ever have been trained for war, who have been taught to think of you and your as pigs and dogs, fit only to serve their superior wills?

The forces of that "superior nation" have already slaughtered and enslaved millions of the "PIG-DOG" people of other countries, — men, yes, and women and children. These people were "PIG-DOGS" to that nation, and therefore not fit to live except in subjection to their conquerors.

The brutal rulers of that powerful country have been able to slay so far a few thousand American PIG-DOGS, and the first of these victims were American women and children. Otto H. Kahn, a native of that land and one of its people; but now a free citizen of America, has said that these people, in the past thirty years, have been MADE MAD by false teaching, and that the difference now between the conscienceless German outocracy, and that the difference now between the German people is "the difference between the man who, acting under the influence of a poisonous drug, runs amuck in mad frenzy, and the unspeakable malefactor who administered that drug, well knowing and fully intending the ghastly consequences which were bound to follow."

The only way we can prove to that people now running amuck that we are not PIG-DOGS and deserve PIG-DOG treatment, is to whip this idea out of their heads through the defeat of their rulers. This is the one way all other peoples who do not belong to that nation and government can make this world safe for any of us to live in.

That so-called "superior nation" has in three years overrun and ruined the peoples of Belgium, Serbia, Roumania, Poland, Finland, Armenia and Russia. They use as serfs or slaves the peoples of Austria, Bulgaria and Turkey, with all their many races. Yesterday they were on the point of seizing Italy, and tomorrow they eagerly hope to swallow up the peoples of Greece, Holland, Denmark, Sweden and Norway. They hope to bleed France white, bring England to her knees, and then to make Amer-

ican PIG-DOGS pay the bill that all Europe and Asia can not pay. Those "supermen" planned it all years ago, and in their madness they wrote down and proclaimed what they would do. Those of us who heard them thought these boastings were the foolish ravings of a harmless lunatic rather than the threats of powerful maniacs armed to the teeth and prepared to kill.

Is America going to be forced to pay for all this war as the victim of the hate of these SUPERMEN? Or are we going to contribute willingly our share to free ourselves and the entire world of this monstrous menace this evil thing of brute terrorism?

To all Americans,—men, women and children, not now "over there"—the LIBERTY LOAN offers "FREEDOM FOR ALL FOREVER." If Americans support the Liberty Loan they will prove two things: that those mad people can not force their will on the world, and that we are not the "PIG-DOGS" they call us. In the language which that people use, SCHWEIN-HUNDE is the term they apply to others not of their race. There are Belgian SCHWEIN-HUNDE, French SCHWEIN-HUNDE, Italian SCHWEIN-HUNDE, English PIG-DOGS and AMERICAN PIG-DOGS.

The larger our subscription to the Liberty Loan "over here" the better it will be for the men "over there" where the fight is now on; and the greater the return to us—in earlier peace and safety. The soldier "over there" offers life and limb. Neither can be returned to him. We, over here, offer our dollars and service, and we are not only guaranteed the return of our money, but a sure and steady income besides—the surest in all the world today. Let each one of us make our LIBERTY LOAN as large as we can. The contract will be sealed in the blood of American soldiers—and the larger the subscription by all the people the smaller the seal of American blood.

And remember, Mr. American Citizen, that those mad people, or so-called "SUPERMEN" have not yet been able to beat anyone but small peoples, like those of Belgium or Serbia, or a great nation distracted by treason, or by dreamers, like Russia. For a while, these "supermen" were triumphant over the armies of other peoples, fitted out in a few days against their own war preparation of forty years. But if those super-prepared "SUPERME..." could not wholly defeat the half-prepared French, and the far less than half-prepared British, and Italians, what will they do against these peace-loving peoples when their armies are properly prepared, and when they are supported by the American soldiers whom we are now fitting out by means of the LIBERTY LOANS for the great and final trial?

Let us unite with our Allies to prove to those people, misled by the most monstrous doctrine the world has ever known, that they are wickedly wrong in thinking of all other peoples as PIG-HOGS and SWILL-HOUNDS, fit only for kicks and killing of what they call FULTUR, in order to make a brutal Prussian autocrat and his insolent sons the masters of the world.

Washington, April 16—A bill appropriating \$50,000,000 for constructing concrete ships was introduced today, by Senator McCumber of North Dakota. The measure, which is understood to have the approval of President Wilson, was requested by Chairman Hurley of the Shipping board.

Considering how unbecomly his shoes are, it is strange that a man is so fond of sitting with his feet propped up where he has to look at them.

As a general thing, the lady who qualifies as a highbrow and the one qualified for a high skirt are two separate and distinct people.

KENTUCKIANS WARNED

Of Serious Food Shortage and an Appeal to all Patriotic People to Conserve is Made.

We are warned from Washington there is a serious food crisis ahead, for our own people, unless food production is promptly and greatly increased. There is already an acute food crisis in Italy and France. The dire needs of their people must be relieved by your Government if they are to support their brave men in the trenches. If they fail, we fall; if their lines are broken, hundreds of thousands of our boys "over there" will be slaughtered. No starved army, no starved nation can fight.

We are assured that the people of the towns of America can easily raise enough food, in yards and outlying lots to release for our hardpressed Allies all they need. Will we do it? The answer to that question is up to the people of every American town; up to every citizen in it; up to your town and you.

There would have been a far more serious shortage in food supplies the past winter but for the increased home garden last year. But this year, they must be multiplied many times

to avert suffering here and ruin abroad.

No family of limited means can afford this year to be without a garden. Food will be hard to get in many places, at any price for railroads and shipping will be strained as never before, to meet war needs and foods from a distance cannot be depended on. Fortunately garden production is quick.

There are many thousands of villages, towns, and cities in this country. In and about nearly every one of them there are idle lands that can be gardened and men women, boys and girls who have the strength and can take the time to do it. In practically every one of them there are people who understand how to do it and can direct those who do not and teams, implements manures and other needed things. Shall these vast human, land and other productive means, in and about our thousands of towns, be wasted, when the fate of our Allies, the fate of our own brave soldiers and the fate of this nation depend on their being used to produce food? That question, Mr. Hoover tells us, depends on the American people, upon us and you! If the people of American towns have not got men and women intelligent enough to realize the need for action and patriotic enough to organize, on their own

account, and get action and results, we may expect disaster. Shall our children and our children's children say we threw away the liberty our ancestors won for us and them?

This Committee, serving under our able, strenuous and patriotic Food Administrator, Mr. Hoover, is working without pay or funds. We have accomplished much, but can do little more than endeavor to arouse the people to the need of the hour. The patriotic townspeople of Kentucky will heed our appeal.

United States Food Administrator's War Garden Committee for Kentucky—Charles G. Strater, Chairman, Temple Bodley, B. H. Parsley, Bethel Veech, Geo. M. Eady, Wm. B. Dixon, Mrs. Pierce Butler, Miss Mildred Anderson, Mrs. George H. Webb, Thos. B. Crutcher.

FRED M. SACKETT, Federal Food Administrator for Kentucky.

NOTICE TO PASTORS AND CHURCH CLERKS.

All announced intended for our church column must be in this office on Friday by 12 o'clock to insure insertion. All announcements received after this time will be omitted.

Busy Telephone Lines

"MEANS" LOST ORDERS If a druggist finds that customers leave his store without buying, because his clerks are too busy to wait on them—he should get more clerks.

If customers complain frequently that they cannot get his store by telephone, because "The Line is Always Busy" he should have more telephones.

"Busy Lines" means loss of profitable business and dissatisfied customers. Another main line telephone will prevent this.
