LOCATION OF NEW SCHOOL TO BE FIXED NEXT FRIDAY

Special Meeting of County Board of Education Called For Friday to Locate New School.

The biggest job in connection with the new Lewisburg Consolidated School which was assured Saturday by the election which voted a special thirty cent tax on the taxpayers of that section, is to be handled by the County Board of Education.

This biggest job is the actual location of the new school building which must be done by the Board of Education. There are several sites offered the board but it appears that the whole matter has stammered down to three sections. One in the town of Lewisburg, one on the west side of the village, and one on the east side. The promoters of the school, as in every case, are divided as to where they think the school building should be placed.

It was reported Tuesday that all but two thousand dollars of the stock of the Lewisburg Improvement Company has been sold and the company expects to begin work on the erection of the building immediately.

BOTH TOBACCO AND WHEAT SHOW A DECIDED INCREASE

State and Federal Crop Report Indicates That This Year's Crop of Both Tobacco and Wheat Will Be Larger Than Last.

Estimates placing Kentucky's 1922 total acreage of tobacco of all types at approximately 558,000 acres compared to 385,000 acres last year, (or 45 per cent. increase) and the Kentucky wheat crop at 7,553,000 bushels compared to a prospect June 1 for 8,644,000 bushels and 6,340,000 bushels produced last year, are the features of the July crop report for Kentucky, issued Saturday by the United States Department of Agriculture, in co-operation with State Commissioner of Agriculture W. C. Hanna. This is a decrease of 1,091,000 bushels from June 1 prospects for the Kentucky wheat crop due chiefly to poor filling of heads, even though the acreage was 2 1/2 per cent. more than in 1921. This month's estimate of the acreage and condition of corn in Kentucky indicates a crop of about 94,378,000 bushels compared to 82,150,000 bushels produced last year.

A full normal production of tobacco this fall from the 558,000 acres which farmers' reports indicate has been set, would produce about 529,502,000 pounds, as compared to 325,710,000 pounds from the reduced acreage last year, and an average production of 445,022,000 pounds for the last five years. These tobacco and corn estimates are the first of this season, and such estimates will be subject to revision either downward or upward as the season progresses, depending on favorable or unfavorable weather or other conditions hereafter.

Oats are estimated at only 5,429,000 bushels compared to 5,567,000 bushels last year. Oats in many parts of the state were severely damaged by rust and some were so short they had to be mowed, or pastured. Rye for grain is estimated at 214,000 bushels compared to 189,000 bushels last year; barley 162,000 bushels compared to 144,000 bushels last year; Irish potatoes 4,699,000 bushels compared to 3,770,000 bushels last year; and sweet potatoes 1,798,000 bushels compared to 1,872,000 bushels last year. All these 1922 estimates are subject to revision either downward or upward as the season progresses.

Hay has been a good crop in most counties, though short in some places due to local drouths, and much clover milled heavily before being cut. Fruit is very irregular, but generally a good crop. Apples are about 73 per cent. of a normal crop, peaches 80, grapes 76, and pears 60 per cent. Acreage of sorghum for sirup is about 5 per cent less than last year. The blue grass seed crop was very large in both Kentucky and Missouri district, and is reported of fine quality. Kentucky production is estimated at 700,000 bushels, and the Missouri district possibly as much as 400,000 bushels, rough cured seed. On the other hand there has been an exceedingly small carry-over of blue grass seed, probably the smallest carry-over since 1911. Condition of crops in Mason county is given as follows: Corn 95 per cent, Potatoes 80 per cent, tobacco 94 per cent, wheat 84 per cent, oats 76 per cent, apples 95 per cent, and hay 94 per cent.

BAND LEAVES EARLY BY AUTO FOR MT. STERLING

Kentucky Cardinals in Splendid Condition for Their First Fair Contract at Montgomery County Fair

Members of the Kentucky Cardinal Band leave at 4 o'clock Wednesday morning by automobiles for Mt. Sterling where on Wednesday they will open the Montgomery County Fair with a big street parade. They will make music for the entire fair meeting, being the only band aside from a band carried by the Carnival Company which will furnish the midway attractions.

The Cardinals are in splendid condition for this, their first fair contract of this year. They have had their vacation and have been working hard at practice on a splendid repertoire of high class fair music. Aside from the latest and most popular numbers, the band has mastered quite a number of grand opera numbers which will be used.

The band will be taken to Mt. Sterling in two large auto trucks and five large touring cars.

THREE MORE ARRESTED IN CONNECTION WITH BIG STILL

Federal Prohibition Agent and Deputy U. S. Marshal Arrest Three in Connection With Capture of Still.

Earl Bramble, Jess Bramble and George Arthur were arrested Tuesday in the Orangeburg neighborhood by Deputy United States Marshal Emmett Orr and Federal Prohibition Agent Harry A. Ort. These men were arrested in connection with the capture recently of an 80-gallon moonshine still being hauled from the Bramble farm in the Orangeburg neighborhood by Capt. Ort and the local sheriffs.

When the still was captured James Arthur, Omar Hensley and George Hall were arrested with it but at that time officials said that there were others implicated in the operation of the big still which the officers had trailed from several farms in that immediate neighborhood but were unable to run upon until the night these three men were caught moving it.

Officials are of the opinion that this large still was furnishing the most of the moonshine liquor which was being sold in Maysville.

The men arrested Tuesday will be taken before the Federal Court at Covington.

TWO ASSASSINS OF RATH. ENAC COMMIT SUICIDE.

Berlin, July 18. — Hermann Fischer and Edwin Kern, who for many days have been pursued by the German police as the assassins of Foreign Minister Rathenau, committed suicide today, according to a dispatch from Halle. The two men shot themselves, the dispatch says, as they were about to be captured in the turret of Snaelck castle near Bad Kosen, whither they had been traced by the police.

BRACKEN BOY SHOT MAN WHO DROVE HIM FROM HIS HOME

Lewis McClanahan Is Fatally Wounded With Shot Gun By Leslie Hall At His Farm in Bracken County.

Augusta, Ky., July 18. — Lewis McClanahan, 50 years old, who was indicted several weeks ago on a charge of being friendly with Mrs. Jane Hall, of near Berlin, this county, was shot and probably fatally wounded Monday morning by Leslie Hall, the woman's 20-year-old son.

According to statements made to Bracken county officers immediately following the shooting, McClanahan had driven young hall and his father, Barney Hall, away from their home. Young Hall stated that he was returning for his personal belongings when he met McClanahan coming toward the house. McClanahan wanted to shake hands with him and Hall refused.

McClanahan then began cursing Hall, according to his statements to the officers, and started toward him with an open knife. Hall then raised the shotgun, which he was taking away from home and fired, the charge striking McClanahan in the abdomen. Physicians say that McClanahan cannot live.

Hall then went to Brooksville, where he surrendered to county officers. He claims that he shot in self-defense.

PROTECTION OF THE FLAG AND TROOPS ASSURED OPERATORS

President Harding Asks Coal Mine Operators to Resume Operation and Assure Them of the Nation's Protection.

Washington, July 18. — Bituminous coal mine operators were "invited" by President Harding at the White House Monday "to return to your mine properties and resume operations," after they had replied to the President's tender of arbitration for settling the national coal strike with a collective offer to put their properties and their services at the disposal of the Government "in this crisis."

Speaking as Chairman of the group of operators after the White House conference, Alfred M. Ogle, Terre Haute, Ind., said the employers would make an attempt to resume operations. Meanwhile, the miners' union, through an adjournment sine die of its controlling policy committee, made certain its refusal to accept the arbitration proposal, and many of its officials immediately left Washington.

The bituminous operators were likewise not a unit in accepting the Government arbitration proposals, but the President said that "a large majority" of them, by unqualified acceptance, had given to him occasion to "express my own and public gratitude."

There were intimations in official circles that all implications of the decision to ask that the mines be opened had been considered fully by the Government and that there was a possibility of protection of troops and the American flag would be supplied in districts where men were willing to work, failing sufficient local safeguarding.

Employers generally held the view that coal production would result in union fields in Pennsylvania and Ohio, if nowhere else, although executives of nonunion mines south of the Ohio River reported today that output was being cut off sharply through lack of transportation, due to the railroad strike.
