

EXPORTATION OF WOOL.—There have been shipments of wool to England lately to the extent of 100,000 lbs., and there are further orders in market. The reason of these shipments is that wool can nowhere else be bought so cheap as in this country. This is the high price which was promised to the farmers as the effect of the tariff, and to reward them for paying double price for manufactured goods. Henceforth American wools are to be the cheapest in the world, and our exports are to increase rapidly from year to year, until they reach a value which no man can now foresee. The price of wool is never again to rise much above its present range. The days of a dollar a pound have passed away, never to return. Nothing keeps the price of wool where it is now, and certainly nothing will prevent it from falling to half its present rates, but the policy of England, which admits it free of duty.—*N. Y. Journal of Com.*

IMMIGRATION.—We learn by the Detroit Free Press, that an unusual number of new settlers are landing at that port, destined for Michigan. These settlers are sensible people if they locate themselves near the Eastern markets of the peninsula, where there is plenty of good, cheap land. It gives us pleasure to say, that we, of the Maumee country, so long neglected, are also beginning to participate in the new tide upon the shores of Lake Erie. The rage for the prairie countries which prevails periodically, has nearly spent itself. It again seems probable, that our splendid forests were made for man's use, and that they are not mere cumberers of the ground. Ohio, Indiana and Michigan will before long claim and receive that consideration, which their superior advantages, natural and artificial, richly entitle them. All experience proves the advantages to farmers as well as manufacturers and merchants, of living in close proximity to each other and to the other great departments of industry.—*Toledo Blade.*

THOSE ARE THE "RIGHT SORT" OF GIRLS.—It is stated that the young ladies of New York have resolved to marry no man who does not take a newspaper; and, furthermore, they won't allow a fellow to look at them who owes the printer for more than one year's subscription.

SHORT CROP IN EUROPE.—The Emperor of Russia has ordered the ports on the Baltic to be thrown open for the admission of grain free of duty during the present year.

LONG SERMONS.—A sermon should never, except under peculiar circumstances, exceed thirty minutes in the delivery. When longer than this, it begets weariness very unfavorable to the spiritual advancement of the hearer. It has been said that Demosthenes never spoke more than half an hour in his noblest efforts. It is very doubtful whether he would have produced as great results had he doubled his words. Wordiness is a fault of modern times. There is a delicacy in speaking to a minister of the Gospel on this subject, and unless his own discrimination points out to him the just limit, he may unconsciously become painfully prolix.

STATE BANK OF INDIANA.—The Money articles (says the American Union) of several of the ablest papers in New York, whisper suspicions of a "burst up" of the Indiana banks. Whispers are also afloat in Cincinnati. It appears to be almost generally conceded that the time is almost at hand for a failure of the institution. That it will soon send misery broadcast over that State, and materially affect other communities, its expanded state is ample evidence. We say to all owners of Indiana paper dollars. Like the new issues of our own rag mills, they will prove in due time Dead Sea Fruit; tempting to the eye; but turning to ashes on the lips.

WE CLIP FROM THE NEW ALBANY (Pa.) Democrat the annexed paragraph:
"Some of our readers are laboring under the false impression that the Indiana Banks are in a safe and sound condition. This is a great mistake. We would be willing to wager our claims to the spirit of prophecy, that the State Bank could not pay 50 cents on a dollar of her liabilities, if she were compelled to wind up at once. And most of her branches are in a much worse predicament. The Indiana Banks are in a rotten condition, and sooner or later they must explode! Mark our prediction."

RIGHT.—Gov. Ford, and all the leading democrats of Springfield, Illinois, have signed a circular declaring that they are opposed to the re-chartering of the old State banks, and also to creating any new ones. This is right. Who wants them? Besides, what right has any set of men to violate the Constitution of the United States by creating paper money machines?—*American Union.*

CUT BOX?—What good has ever resulted from the success of whiggery in regard to State or national affairs? Point out, if you can, the one single permanent benefit that the country, in any period of its history, or any branch of its varied interests, has received or is likely to receive, from the establishment of whig measures. Efforts to do this would be vain. No good from that source can be obtained. It is a notable fact, that wherever whiggery has established its principles, as the basis of governmental action, the people soon rise, in their indignation, and put down measures founded upon principles so false, with overwhelming celerity and effect. Where is there a statute of one year's age that is the offspring of purely Whig legislation? Do any such exist? None. They cannot stand the sober, keen scrutiny of the people.—*Hardin Democrat.*

"You bachelors ought to be taxed," said Miss Lackford to a resolute evader of the new matrimonial. "I agree with you perfectly, Ma'am," was the reply, "for bachelors certainly is a luxury."

The Whigs of the District composed of Lucas, Wood, Hancock and Ottawa counties have nominated Lyman Pacher as a Candidate for Representative. We guess he'll be a badly parched coon by the time the heat of the contest is over. The convention which nominated him showed of what stuff whig patriotism is made in passing the following resolution: An excellent dependence whig leaders would prove in the event of war:

Resolved, That the annexation of Texas to the U. S. was a measure conceived in sin and brought forth in iniquity. That it is unconstitutional, a non-republican, and subversive of our dearest democratic rights—that it has brought us to the verge of a war with a hitherto friendly Republic, at a probable cost of thousands of lives and millions of dollars—that it tends to a perpetuation of the worst features of slavery—that it is unholy, tyrannical and unjust, and merits the condemnation of every lover of his country.

The new paper mill of this place has commenced issuing "red dogs." Its fate may be told thus: To-day in full tide of its glory—expansion; to-morrow, the tide will ebb—contraction. Final result: dry land—hard money banished to foreign countries; paper nearly all drawn in—leaving neither specie nor rag money for currency. Result of all this: a huge cry of the bankers and their satellites that we have HARD MONEY times, when in fact their paper has driven out our hard money first, and then the contraction, in the second place, leaves us without even rag money—and finally no money at all.—Then comes the "trading" and "order" system. Oh, the glories of the paper system.—*American Union.*

SPIRIT OF THE PRESS.

EDGERTON AND KNAPP.—We are always pleased to see our friends get along well in the world; but particularly so when those friends belong to our fraternity. The nomination of the above named gentlemen gives us, therefore, additional pleasure because they are both practical printers; who have, by their integrity and talent, raised themselves from poor ink roller boys, to a standing among the people of the North-west, but especially its glorious democracy, which any man might be proud of. What encouragement do we see here for poor boys. Under our glorious system of democratic government every boy, no matter how humble in life he may be, can, by integrity and talent, reach the highest office within the gift of the people.—*Defiance Dem.*

A TRUE DEMOCRACY.—The Democrats of what is called the "North-western District," have in Convention nominated for the State Legislature, H. S. Knapp, formerly editor of the Kalida Venture. Mr. Knapp is a young man of vigorous intellect, firmly grounded democracy and indomitable firmness.—*Cin. Enquirer.*

H. S. KNAPP, Esq., late editor of the Kalida Venture, has been nominated as a candidate for Representative to the Ohio Legislature. A better selection could not have been made. He is a stern inflexible Democrat, and will never flinch from a faithful discharge of his duty. Would to God, that the Legislature could be composed of just such true hearted, honest, upright and honorable men.—*Pikeonian.*

GOOD NOMINATIONS.—Col. Dowty Utter has been nominated for the Senate from Clermont; and H. S. Knapp for Representative from the Putnam district. It is really gratifying to find that the democrats, in nearly every section of the State are making such excellent nominations. Such soldiers as the two just named will do honor to the State in the Legislature. Their election, we think, is a "fixed fact."—*American Union.*

THE SENATORIAL CONVENTION.—The proceedings of the nominating convention for this Senatorial district will be found in this paper, from which it will be seen that A. P. EDGERTON, was the successful candidate. He is a sound democrat, active, energetic, and talented, fully capable of representing the democracy of this district in the State Senate with honor to himself, and to the entire satisfaction of his constituents.—*St. Mary's Sentinel.*

We feel considerably "oh-be-joyful" to learn that H. S. KNAPP, Esq., that noble and sound Democrat of Putnam, has been nominated for Representative by the Democracy of Putnam, Paulding, Henry, Allen, Williams and Defiance. He's a full team, and of the right stripe for the next Legislature. He's death on Red dogs and wild cats, they say.—*People's Forum.*

H. S. KNAPP, Esq., late editor of the Kalida Venture, has been nominated in his district, Putnam &c., for the house of representatives. Mr. Knapp has talents and boldness, and if we must have one of his politics from that district we will even hail the choice of the unaffiliated democracy with pleasure.—*Toledo Blade.*

DOWTY UTTER is nominated for the Senate by the democracy of Clermont and Brown counties, and will be elected. Mr. Utter is an old soldier in the cause—tried, and never been found wanting. He has been termed the "wheelhorse" of democracy in the Legislature, and has never been known to balk.—We are glad to see such men sent to represent the laboring people of the State. In Mr. Utter they have a reliable advocate of their rights.—*Ohio Statesman.*

Floods of counterfeit notes on nearly all the various banks of the Union are afloat.—There appears to be nearly as many rogues outside of the banks as there within. Look out, or you will be cheated on all sides.—*Am. Union.*

The election for Congressmen, in the 9th Congressional district of Massachusetts, has again resulted in no choice. This last has been the fifth trial. How many more trials there will be time alone can divulge.

A geologist, in one of his lectures, states that the Mississippi river within the last two hundred years, has advanced thirty miles into the Gulf of Mexico.

DEMOCRATIC PRINCIPLES.—The people the only source of legitimate power; the representative to obey the instructions of his constituents; the union, a confederacy; it must be preserved; the freedom, sovereignty, and independence of the respective states; the constitution a special grant of powers limited and definite; election and suffrage universal; no taxation beyond the public wants; tax levied in that mode which will best admit of public scrutiny; no national debt; no national or state banks; or monopolies of any kind; no distribution of the public lands among the states, but low prices, permanent prospective liberal pre-emption laws; freedom of trade and commerce; equal laws and equal rights; progress and improvement.—These are a few of the leading principles which democracy aims to make the rules of government.

Independent Nomination.

To the Electors of the Counties of Putnam, Paulding, Defiance, Williams and Henry, composing together one Representative District.

The undersigned presents himself before you as an independent candidate for Representative. Believing that the true interests of this district have been long neglected, he now proposes to call your attention to them. Among these interests he regards the Miami Extension Canal Lands and the Walsh and Erie Canal Lands as the most prominent; and that an early occupation of these lands by actual settlers would be of immense benefit to you. We therefore will advocate a surrender of those lands to actual settlers, in quantities of 40 or 80 acres to each settler, upon the condition only that such settlers shall actually occupy the same for a term of not less than five years, and at the end of that time to receive a deed for the same. Should the Electors see fit to elect the undersigned as their Representative, he will devote his best efforts to the attainment of this object. In the meantime he will address the Electors in support of these measures, and set forth his views in relation to it, at the following times and places, to wit:

At Napoleon, Henry County, Tuesday, Sept. 23, at 7 P. M.
At Bryan, Williams County, Thursday, Sept. 25, at 1 P. M.
At Defiance, Defiance County, Friday, Sept. 26, at 1 P. M.
At Charles, Paulding County, Saturday, Sept. 27, at 1 P. M.
And in the County of Putnam, at Gilboa, Saturday, October 4, at 7 P. M.
And in the County of Putnam, at Kalida, Monday, October 6, at 7 P. M.

Mr. Knapp, the democratic candidate, will attend at these meetings time and opportunity will be afforded him to address the Electors.

Great Reduction of Price!

PROSPECTUS OF THE DEMOCRATIC REVIEW.

THE price of the DEMOCRATIC REVIEW has heretofore been too high—not for its size cost, and character, but for the means of tens of thousands of readers who would be glad to receive it, and among whom it is highly desirable that it should circulate. For the purpose, therefore, of largely widening the range of its usefulness; and of multiplying the numbers of those to whom it may be accessible, it has been determined, simultaneously with the great reduction in the expenses of the postage, to reduce its subscription price, also, from Five to only Three dollars; and when several unite in subscription to as low as 2.50, or even 2.30 per annum.

This very large reduction in the receipts (accompanied with but a comparatively small diminution of its expenses) involves, of course, an entire sacrifice of profit upon it, unless compensated by a vast multiplication of subscribers. There will be at the outset only a small reduction in its number of pages; soon to be restored to its old number, without increase of price, when the anticipated success of the experiment shall justify it.

THE PORTRAITS OF DISTINGUISHED DEMOCRATS will be continued—engraved in better and more costly style than heretofore.

THE POSTAGE will hereafter, for any distance, be only five and a half cents; it has heretofore been, for over 100 miles, eighteen cents.

We look for an extension of circulation to be reckoned by tens of thousands, as the result and compensation of this great reduction of price. Every friend of the work, and of the Democratic principles and cause, is confidently appealed to, to exert himself with an active interest to procure it subscribers; both to extend its usefulness, and to carry it successfully through the crisis of this great reduction of its receipts.

Those who have paid in advance for the coming year, will receive it, at the reduced rate, for a year and a half.

TERMS HEREOFORWARD.

(Invariably in advance.)

Single copy, \$3.00 Eight copies, \$20.00

Four copies, 11.00 Thirteen " 30.00

It will thus be seen that when thirteen copies are ordered at once; the price is brought down to about \$2.30 each. For six months, half these rates.

These rates afford high inducements to agents and others to interest themselves to procure subscribers.

The cash system and payment in advance must be uncompromisingly adhered to. The past relaxation of it has caused an accumulation of no far from \$40,000 of debts due to the work. Hereafter this must be wholly reformed; nor must either eminent political friends, or the most intimate personal ones, be displeased on experiencing its application, in the stoppage of their numbers, if they neglect this rule, the vital necessity of which, at the present reduced rates, must be obvious to all.

No communications will be taken from the Post Office unless free of postage. All communications, both on editorial and publishing business, must be addressed henceforward to the undersigned. Those relating to the settlement of past debts due the work will be still addressed to Mr. H. G. LANGLEY, 8 Astor House, the past arrangements with whom, as publisher, have reached their termination.

LAST LIKENESS OF GEN. JACKSON.

The admirable Daguerotypes of General Jackson, taken by Anthony, Edwards & Co. a few weeks before his death, has been purchased for the use of the Democratic Review. It is in the hands of the artist, and will be engraved in the finest style of mezzotint of extra size. It is a most beautiful and interesting work declared by Mr. Van Buren and others to give a more perfect idea of the good and great old man than any other likeness; and ought to be possessed and framed by every friend who loves or reveres his memory. Those who subscribe early will receive it as one of the regular series of Portraits.
