WISTAR'S BALSAM OF WILD CHERRY!

ALWAYS TRIUMPHANT!

Cure Follows Cure!

In its onward & Victorious Course!!

Dayton, Feb. 25, 1844.

Mr. J. W. Whitmore:
Dear Sir—As you are the regular authorized agent in Dayton, for the sale of "Dr. Wistar's Balsam of Wild Cherry," I take this method of making a statement of facts to you (which I hope may be published to the world) in reference to an almost miraculous cure, wrought in my case by means of the above invaluable Balsam. Language fails to describe the salutary effects it produced, and the great benefit derived from it.

The citizens of Dayton and vicinity well recollect that on the 8th of August last, I received serious injury by the explosion of a cannon. A portion of its contents entered my right side and breast, and in all probability some fragments or splinters of the ramrod passed through the "pleura," and pierced the lungs.

After the lapse of about six weeks, I was attacked with distressing cough and violent pain in my right side. Some ten days after this, when in a paroxysm of coughing, suddenly an ulcer broke, and a large quantity of very offensive matter mixed with blood, most of which found passage through the opening of the wound. During all this time my sufferings were most intolerable.

My physicians, meanwhile, paid the strictest attention to me, and did all in their power for my recovery. But with all their skill, they could not reach the seat of disease. I was visited during this time by at least twenty Physicians.

It was now reduced to a certainty, that inflammation of the Lungs was rapidly taking place; and that this would terminate my life in a very short time, was in the highest degree probable. At this critical stage a messenger was despatched to Cincinnati, and a celebrated physician of that place was consulted. When he was made acquainted with my situation, he remarked, that nothing could be done by medical aid, if the constitution itself was not sufficient to throw off the disease.

My friends now despaired of my recovery, and I had no earthly ground of hope to survive many days. Fortunately at this juncture, I saw one of Dr. Wistar's pamphlets, entitled "Family Medical Guide," or "Treatise on consumption of the Lungs." As I had often heard of dying men "catching at straws," I felt like doing so myself. By the content of my physician, I sent you for a bottle of the medicine described viz: "Wistar's Balsam of Wild Cherry," which relieved me almost immediately. After I had used some five or six bottles, I had so far recovered as to be up and about. My cough ceased, and my lungs were restored to a healthy state—all from the healing and balmic influence, and powerful medicinal virtues of Wistar's Balsam.

Were it not for the external injury I received in my shoulder and arm by the explosion, I feel confident that I might have been working at my trade, (which is blacksmithing,) but this has prevented.

By exposure, I have since taken several severe colds; my only remedy has been the "Balsam." And I now most cordially recommend the genuine Wistar's Balsam to all who are afflicted with colds, coughs or Lung complaints. I consider it an invaluable medicine—a real blessing to the world. Any person desiring further information may call on me at any time.

Yours, truly,
CHRISTOPHER R. SMITH.
