

THE SPIRIT OF DEMOCRACY.

HENRY R. WEST, EDITOR AND PROPRIETOR.

TUESDAY, NOVEMBER 17, 1886.

Prohibition won in Dakota. Look out for counterfeit silver dollars.

The English troops have invaded Burma and are marching rapidly toward Measilly, the Capital.

The steamer Gigawest went down in a storm on the 9th inst. of Isle Royal. The lost numbered 45 and the saved only 14.

Madame announces that he intends, after his term in the Senate expires, to attend to his business interests. The people of Virginia have aided him to reach that conclusion.

No true Democrat can afford to defend, or even advance an excuse for election frauds. A fair, square vote is an honest count is the only platform that can, or ought to receive the support of either party.

Mrs. Walker, acquitted of poisoning her husband, is, it is alleged, going to Cincinnati to exhibit herself in a dime museum. She is reported to be a very beautiful woman.

A fire broke out in Galveston, Texas, the morning of the 13th inst., which burnt over 100 acres, comprising 400 blocks of 400 houses. One thousand families were rendered homeless. The loss is estimated at \$2,000,000. Many of the finest residences in the city were destroyed.

In 1870 the Democratic position was that there was fraud in the election. It was perfectly legitimate to go behind the return and ascertain what the fraud was and who perpetrated it. That is where the Democratic Party, aside from the rascals within its ranks, stands in this year of our Lord, 1886.

Is Democracy guilty of the election frauds in Columbus and Cincinnati, they should be hunted down and punished. It is Republicanism that should be hunted down and punished. "Let no guilty man escape."

The attention of Republicans who persist in hanging to the tail of the "bloody shirt" is invited to the following paragraph from one of GARFIELD'S speeches: "THE MAN WHO ATTEMPTS TO GET UP A POLITICAL EXCITEMENT IN THIS COUNTRY ON THE OLD SELECTION ISSUE WILL FIND HIMSELF WITHOUT A PARTY AND WITHOUT GEORGE."

Civil Service Reform. Mr. CORNAN B. EASON has been reappointed a member of the Civil Service Commission. The new members are Mr. A. P. ENDORSTON, of Indiana, and Mr. WILLIAM L. TREBHOUL, of South Carolina. The President recently said: "This civil service reform is something intended to do practical good and is not a mere sentiment invented for the purpose of affording opportunity to ventilate high-sounding notions and fine phrases."

The New York Times says of the system: "It has simply demonstrated the soundness of the principles on which it was based, and has shown that these principles can be practically applied. The system in no wise regulates, extends, or affects the tenure of office, and does not forbid or limit the power of even arbitrary dismissal for political reasons. * * * If they (the Commissioners) are true to its principles, as we believe they will be, impartial and businesslike administration will be enormously advanced and the best portion of the Democratic Party will be firmly attached to the reform."

The Democratic gains in the States that have voted this fall are about as follows: New York, Dem. gain, 11,000; Virginia, 20,000; Pennsylvania, 34,000; Iowa, 15,000; Maryland, 5,000; Massachusetts, 5,000; Nebraska, 6,000; Colorado, 6,000; Ohio, 16,000.

Total, 118,000. That is a good showing, and tells the story that the people are not dissatisfied with the Democratic control.—Cleveland Plain Dealer.

Within the past few days have jumped up from \$2-50 to \$4 per keg in P.sburg.

The Marquis de Bute's new castle will cost as much as the Capitol at Washington—\$15,000,000.

It is reported from Paris that Pasteur has succeeded in curing a boy in the advanced stages of hydrophobia.

THE INDIAN QUESTION.

The Committee to Investigate the Subject Wait Upon President Cleveland.

WASHINGTON, Nov. 10.—The President gave an audience to-day to the committee appointed at the recent conference at Lake Mohawk to present to him the results of their deliberations on the Indian question. General F. H. Johnson, the delegation and presented the members to the President. Hon. E. A. Steiwer, of New York, read a statement embodying the views of the Conference as to the best method of improving the condition of the Indians. Remarks touching the question were also made by Rev. Lyman Abbott, Mr. M. E. Gates and G. N. Fisk, each of whom advocated the abolition of the present system of Indian reservations and favored the adoption of a policy in regard to them similar to that so successfully employed in the case of the colored population. The President listened attentively to the speakers and assured them of the deep interest he had in the Indian question. He reviewed briefly the many difficulties encountered in dealing with the question, which he acknowledged was an important one, and that the great trouble to his mind was as to the first practical step to be taken in improving the condition of the Indian. Shall we give them more schools and churches and agricultural implements for use on their reservations, or shall we devote them largely to agriculture and leave them to their own resources? One trouble he found was to get rid of the influence of the old chiefs. Then again if we leave the Indians to themselves and one becomes hungry, a loud cry goes up all over the country that we are starting to Indianize. How are we to get rid of the influence of the whites? We certainly cannot drive them off their reservation. It will be to keep them under to enslave where they are, or could their civilization be better accomplished in some other way? The question is surrounded with difficulties, continued the President, and the most important consideration to be applied at present is this, what is the most useful thing to be done? He said that while it might not be well for the cause to disturb the Indians in their present homes he believed that the reservation would ultimately be given to them in severity and the Indians thrown on their own resources. The President reminded the committee that the case which they advocated would require years to consummate, but intimated that he hoped to be able to make a beginning in the right direction during the remaining years of his administration.

Dr. Seiden Brings a Novel Suit in Court.

Wash. Cor. Columbus Dispatch. A rather novel trial will take place here Friday afternoon next. It is a suit brought by Dr. S. S. Crowe, a noted rectorian, against the Medical Department of the Georgetown College, to secure payment for a subject which Crowe claims to have delivered to the College on the order of the Demonstrator. He charges \$15 for the body, though heretofore the price has been higher. The answer on the part of the department is that the body is not property and that it was stolen from a cemetery. It is understood that Crowe makes no concealment of the fact that the body was stolen, but he declines to state from which cemetery it was taken. Dr. Crowe, it will be remembered, was arrested in connection with stealing the body of A. T. Stewart, of New York. He has figured extensively in other and similar affairs.

A Young Man Pronounced Dead, Buried, Stolen By Ghosts and Resuscitated.

PORTLAND, Me., Nov. 10.—About fourteen months ago, Joseph Dyer, aged twenty years, of Cape Elizabeth, was thrown from a wagon and was picked up, as supposed, the body in an iced-over Evergreen Cemetery. A strange thing was seen by the doctor who found him alive and well, and would soon be home. The coffin was exhumed, and when it was about being opened at the Dyer residence, young Dyer walked into the house and said, when he saw who was being done, "don't open it, for I am in." His appearance was that of a man who had been buried for some time. It is supposed that medical students dug up the body for dissection found Dyer alive and treated him until he thoroughly recovered. The young man remembers nothing of what took place while in the doctors hands.

War Declared by the English Government Against Burma.

NEW YORK, November 10.—A London cable to the Commercial Advertiser says a Cabinet council was held at the official residence of the First Lord of the Treasury to-day. The subject was the Treaty to England's ultimatum having been read, the Cabinet declared war against Burma and a formal declaration of war with the Queen's sanction has been issued to the French government of Paris has been notified. All foreign subjects remaining in the British Empire are required to come into the British Isles.

The British army of invasion is advanced 15,000 strong, the greater portion being on steamers. The first military operations will be the bombardment by iron-clad flotilla, of the Minah forts.

Costly Carpets. London Times. The silk covering for the Kaaba, which the Sultan sent this year to Mecca, has been valued at \$77,000, and that sent by the Khedive for the same purpose at \$58,000. Both are black, most richly embroidered in gold, and so large that each of them covers entirely the whole Kaaba. On the first day of the Kurban-Bairam festival the new covers were laid on the holy stone in the place of the old covers, one of which was sent to the Sultan and the other to the Khedive, as presents from the scribe of the mosque.

How the United States Senate Stands.

The United States Senate stands politically, in the present Congress, Republicans 40, counting the two Mahoneites from Virginia as Republicans, which they are; Democrats 39. Republican majority 4. Mahone's term expires March 3, 1887. The result in Virginia, this month, will place a Democrat in the place of Mahone, which will reduce the Republican majority to 2. The change made in Virginia is the only one resulting from the elections of 1886.

These are Solid Facts. The best blood purifier and system regulator ever placed within reach of suffering humanity, is the Electric Bitters. Inactivity of the Liver, Bilelessness, Jaundice, Constipation, Weak Kidneys, or any disease of the urinary organs, or whoever requires an appetizer, tonic or mild stimulant, will always find Electric Bitters the best and only certain cure known. They act surely and quickly, every bottle guaranteed to give entire satisfaction or money refunded. Sold at fifty cents a bottle by R. W. Pope.

\$200,000,000 to Found a Great University. SAN FRANCISCO, Nov. 10.—The details of Senator Stanford's scheme for the establishment in California of a great university were to-day made public for the first time. His range is Palo Alto, near Menlo Park, about thirty miles from San Francisco, has been selected as the site. The several buildings comprising the university will be on the general plan of a parallelogram, and will be constructed so as to permit additions being made as the necessities of the institution may require. Senator Stanford will donate to the university his Palo Alto, Gridley, and Vina properties, worth \$5,300,000. To this he will add a money donation, so as to make the total endowment of the university \$20,000,000.

The Germans have nearly stamped out small-pox. In the years 1870-1874 the number of deaths from the disease per 100,000 inhabitants in London, Paris, Vienna, Prague and St. Petersburg was 101.05. In Berlin, Breslau, Hamburg, Munich, and Dresden during the same period it was but 1.44.

The Way of the Old Traveler.

Bob Burdette.

When we reached Toledo I looked at my watch and found it only ten minutes past six. I had no time to get across to the Union depot and catch the Canadian Southern train. It looked like an impossibility; but to an old traveler there is no such word as impossible. I tossed my boy into the nearest carriage, hurried my sister in after me, and took the platform like a madman, tore the check from my baggage (I always call my trunk my apartment, and check on my trunk, my checks and my family physician, my physicians; there is so much euphemism and euphemism in a plural) dragged my trunk to the carriage myself, and shouted to the attendant to get my trunk on the baggage car. "If we catch the Canada Southern!" How that man did drive. Rackety swat over the pavements of Toledo, over a telegraph messenger boy on the corner, and within an inch of going over a wheelbarrow was a crossing, but the wheelbarrow was an angry-looking fellow in the messenger box, and so got out of the way. Over the bridge like an arrow, in spite of local prohibition, down to the Island House, and here we are. I thrust the huckster's pay and extra fee into the honest palm that the trunk of the baggage master had put on my baggage and whirled it off to the baggage room. "Trot!" I yelled. "Lively now—huckster in a minute." Away I flew to the ticket office, knocking people right and left, followed by cheering and pleasant remarks of the multitude. "Trot," I shouted to the agent, "hatched up my money, and without my trunk, my trunk found my trunk checked. I seized it by the remaining handle, yanked it off the truck, and hauling my own frightened family along with the other hand, I flew toward the track where the Canada Southern should be standing. But a rat on an angry-looking fellow with a railway uniform stopped me.

"Where are you going?" he said quietly. "Detroit!" I yelled. "G'out of my way, 'r I'll ride you down."

"But your train is not ready," he said patiently; "it doesn't start for nearly an hour. You should not have cited the baggage master will take care of that trunk, and I will call you when the train is ready. The waiting room is just at that farther end of the station."

Any man's watch is liable to run down, but that is not the case here. The people who loiter about the railroad stations should be foot's there. There is too much broad, glaring publicity about our American railroad stations. There should be more privacy, more existences. At every railroad station where people of the upper classes are liable to be met, let us see the standard of the quality of the watches and that be led into somewhat extravagant action, there should be a long, deep, dark hole, about fifteen miles long, extending under the nearest range of mountains for the citizens of the upper classes to retire until the coming of the vulgar crowd should have expended itself.

Another Garden of Eden. Mexico Letter. It is a tradition devoutly believed in Mexico that this great State of Vera Cruz covers the site of the veritable Garden of Eden, and that the portion of it now occupied by Jalapa was the scene of the apple tragedy. To make good the tradition a tree grows hereabouts and the fruit is called "forbidden fruit," from the danger of eating too much of it. Such are the superstitious qualities of the man, moth, trumpet-shaped blossom, which hang from every limb that to sleep under them is said to be sure death. The fruit is white, like the flowers is a delightful perfume troubled with insomnia, are advised to place a stem in their apartment—aking care to remove them before the hour of retiring or their deadly fragrance may produce an endless slumber.

The magney (also) is also indigenous to this locality and is believed to be the real "In-lin fig tree" to which our first parents resorted when dress making became necessary; for in this kind Nature provided all the material—is strong there producing both cloth and thread, and the sharp point of the thread (the chin) is used for sewing. The thread is called "forbidden fruit," from the danger of eating too much of it. Such are the superstitious qualities of the man, moth, trumpet-shaped blossom, which hang from every limb that to sleep under them is said to be sure death. The fruit is white, like the flowers is a delightful perfume troubled with insomnia, are advised to place a stem in their apartment—aking care to remove them before the hour of retiring or their deadly fragrance may produce an endless slumber.

An epitome of everything that is attractive and desirable in juvenile literature.—Boston Herald.

A week's feast of good things to the boys and girls in every family which it visits.—Brooklyn News.

It is wonderful in its wealth of pictures, information and interest.—Christian Advocate, N. Y.
