The little children of Miss Noonan's school made up a lot of nice presents this week for the Orphans at the Home. The gifts were candies, fruits and playthings. This act of the little school children should be a wholesome lesson to us all, to open our hearts in charity, and not forget the orphans.

On last Saturday fourteen of the children of the Orphan's Home set a lot of polk root plowed up in a field close by the Home and all got deathly sick. Dr. Mansfield was called and gave the proper antidotes, and the children are recovering. Parents should advise their children of the danger not only of polk root, but of the many weeds and plants of a poisonous nature, which children thoughtlessly and ignorantly are apt to eat.

The Sons of Veterans will give a Grand Ball at Slicer's Hall this evening. The Managers are Dr. C. W. Cable, W. P. Price and C. E. Bowen, Jr. We bespeak for the Sons a pleasant social evening, and assure them they have the hearty encouragement of the Home Guard Fathers.

The Sunday Evening Storm.

The fearful storm of last Sunday evening which raved in destructiveness the most disastrous cyclones of the west, particularly of which are published elsewhere, visited in a mild and modified form parts of our county. In Laurel township a heavy hail and wind storm prevailed, and in Marion, near Dr. McCune's, a regular whirlwind prevailed, tearing down light buildings, scattering fences, and destroying timber in a path one hundred and fifty feet wide. No lives were lost, although several narrow escapes are told of. Andy Vorris' buggy was wrecked from his horse just as he had it partly unhitched, and carried considerable distance by the wind. The roar of the storm and the blinding lightning are said by those who witnessed it from a short distance beyond its path, to have been awful and terrifying. On both sides of the whirlwind heavy hail fell. At Gore the storm moved a number of houses on their foundations, and destroyed the light outbuildings. No rain fell in Logan, although the roar of the storm was quite audible.

Defective Land Titles.

Half a century ago lands in the wilderness of Hocking county were not very valuable, and but little attention was paid to guarding the legality of titles.

This negligence of the early day is likely to result in expensive and embarrassing law suits, unless the present owners resort to such legal protection as the Law affords them.

A case just now attracting attention will illustrate the situation.

In 1831 a man named Lozier owned a large tract of land in Green township. Fifty years ago the lands were sold for taxes, Dr. Culver being the purchaser, at about \$50.

Culver sold the property to a man in Marietta, who subsequently sold it in tracts to various parties, the valuable parts finally coming into possession of W. N. England and Wm. Wolf who sold to Crafts.

Crafts' Furnace and Greendale stand upon the Lozier land sold for taxes.

About two weeks ago an attorney from New York representing the Lozier heirs, who, finding their ancient patrimony becoming valuable, came to Logan and employed J. B. Butin, who is the most experienced abstractor of titles in our county, to look up the title.

The present owners hold under a tax title, and that kind of a title is said to be good, only as long as it is not attacked.

About three-fourths of the lands of Hocking county rest upon such insecure titles.

The law presents a ready and cheap method of quieting titles, but it is certainly will save much embarrassment and costly law suits if land owners would at once procure abstracts, and in the event of any defect existing, go into court and have the titles made legal and certain.

Mrs. C. M. Gould and Mrs. J. L. Collins were called to Pittsburg, Pa., on Monday last to attend the funeral of their uncle, Mr. John Rippey, who died Sunday morning, in the 83rd year of his age.

The deceased was the oldest brother of our former citizen, William Rippey, and was the last surviving member of the family.

Phil Slicer's opening of his new establishment on Main St., opposite the City Building, was celebrated on last Thursday night by one of the most agreeable social parties Logan has ever witnessed.

About fifty couple were present and dedicated the New Hall in the good old fashioned way.

"They danced all night till broad day, and went home with the girls in the morning."

Prof. Orton of the Columbus Agricultural College, was in our city on last Friday evening, and took away the strange bone found by Mr. Turner.

The Professor will subject the bone to scientific investigation and promises to send the result of his examination to the Sentinel.

We are indebted to Father Cady for the notice of the "oldest paper," appearing on the first page. The Rev. gentleman translated the article from a Latin work, and set up the type. Revs. Cady and Rambo are both practical printers, having worked each about five years at the case.

Attention is called to the advertisement of Mr. J. E. Fritch. The Logan Woolen Mills have an established reputation at home and abroad, and our readers will be profited by paying attention to the advertisement which appears elsewhere.

John Frisch will sell you more goods for \$1.00 than any other house in Logan.

A Miniature Cyclone.

On last Tuesday afternoon a miniature cyclone organized on Mr. Gompf's vegetable garden. The sun was shining bright and the air quiet. In a moment a whirl wind started in the garden, lifting up a number of sash from the hot house and dashing them to pieces. His bed of pie plant was ruined, the plants being torn up and twisted from the roots.

The whirlwind seemed to dissipate in a moment, disappearing as rapidly as it organized.

It looks as though the weather clerk was trying his hand experimenting in localities heretofore strangers to storm.

Wants Cheap Teachers.

Mr. Edmore—Business is rather dull in our Village at present. There seems to be considerable activity among the teachers in looking up their schools for the summer and winter. We think the teachers are asking too much for their services. We think teachers should teach for the same price paid other hands.

They do not work more than half their time, and the work is not near so hard as that performed by the ordinary laborer. We think the local directors should see to this matter of wages. Seventy five cents a day is good wages for the summer, and one dollar for the winter. The directors can get teachers for these figures, if they manage the thing properly.

Let them call their meetings and resolve that they will fix their own prices for teaching, and they will be crowded with applicants ready and anxious to teach their scholars. We understand our directors have employed a teacher for the summer for seventeen dollars per month, which we think is still too high, but is a step in the right direction, and we hope other directors will follow their example. The teacher who will teach the most reasonable should have the best grade of certificate.

All teachers who will teach for one dollar a day next winter, should have a five years certificate, renewable forever. Of course some of our teachers will kick on this matter, but just let them kick.

A FARMER.

On last Thursday night a horse belonging to Mr. Bright, living on Ruble's place in Marion twp., broke out of the stable where it had been tied, and wandering around, fell into Geo. Warick's cistern, at north end of Mulberry street. The animal was got out by digging a ditch from the cistern.

Mr. Jacob Schwarz, the old reliable Hardware merchant, will present his compliments to the readers of the Sentinel in an interesting advertisement next week. He invites the public to call and see him.

Mr. Henry Lutz and Mr. A. Magoon went to Columbus on Tuesday at the invitation of Col. Rempel, to examine the condition of the Water Works machinery at the Penitentiary, and make suggestions relative to proposed changes and improvement in the various systems of machinery. No more practicable or considerable men than Lutz & Magoon could be found in the State, and such suggestions as they may make will be valuable.

Married—At the Presbyterian Parsonage on a evening of the 23d inst, by Rev. C. C. Hart, Mr. W. P. Mathias with Miss Ida Shotwell.

Mr. Vic Tuschler's new advertisement appears this week, and will be interesting reading to the people who contemplate buying new furniture this spring.

Mr. Tuschler is an enterprising young man, and he proposes to give bargains to the people of this county in all kinds of furniture. He defies competition in prices, and guarantees his goods as equal to the best.

The friends of Mr. and Mrs. Wm. Stewart, of Furnacecove, gave them a pleasant surprise party on last Tuesday evening, the occasion being their 30th wedding anniversary. The company was heartily welcomed and pleasantly entertained, and an enjoyable evening spent by all.

Last week H. L. Wright completed a purchase of Ed. Westenhaver of his share, 125 1/2 acres of the old Westenhaver farm.

This together with what Mr. Wright had formerly bought, gives him 250 acres which includes a large part of the old farm of the ancestors of Judge Biddle, of Indiana.
