VOLUME 43.

LOGAN, OHIO, THURSDAY, OCTOBER 2 1884.

PIERRE,

Dakota. The city of Pierre is the county seat of of Hughes county, Dakota, and is located on the east bank of the Missouri river, in he geographical center of the proposed new State of South Dakota, and is opposite the center of the great Sioux reservation. It is the present terminus of the Dakota Central through trunk line of the Chicago & Northwestern Railway; i- distant 781 miles from Chicago, and through daily trains with-

out change of cars run between the two cities in 32 hours. The city is mainly built upon the large and broad terraces overlooking the river with its wooded banks and islands, and as the slope of each tereity is perfectly drained and is free from the dangers resulting from floods or imgerfect sewarage.

PIERRE.

POPULATION OF PIERRE

IS 2,500. It has an excellent municipal government. The Presbyterian College of Southern Dakota, now in operation, and numerous ward schools, offer superior educational advantages. There is one first class hotel, the Wells House, and ten second class hotels open; two daily and four weekly newspapers, four banks and numerous wholesale and reail houses in various branches of trade. THE SURROUNDING COUNTRY

is thickly settled by farmers and com-prises the finest farming land in Dakota. Quarter sections or farms of 60 acres. every foot of which can be cutivated, can be bought from \$600 to \$1200 depending upon their distance from the city. Government land can be taken up within ten miles from the city. The country west of the river and included in the great Sioux reservation [which it is expected will be thrown open to set-thement this Spring] is the best wheat growing land in Dakota.

Dakota.

Shipping Point.

Pierre is a shipping point for all and conveyancing. Also real estate agency. Office in the Gazette office.

July 1, 78—tf. Chicago & Northwestern and Chicago Milwaukie & St. Paul Railways. Ship ments via the latter line to its Missour river terminus at Chamberlain are sent up the river to Pierre for trans-shipment to the Hills. The traffic between Pierre and Deadwood is immense. In the transportation of freight there are 10 000 oxen and mules and 2,000 men constantly employed, the tonnage amounting to about 70,000,000 pounds per sunum, and the money annually paid for freighting amounting to over \$600,000 is expended in Pierre.

Pierre is the head-quarters for Military and Ranch Supplies, forwarded by river to the various forts and military posts and to various points along the "Big Muddy," where small settlements have spruig up. Pierre has the trade, altogether of not less than 50,-Off people, including Indians. U.S. A. Quartermaster's office, government store houses, and offices of a Collector f Customs, and Internal Revenue Colector are located here. In the river traffic there are twenty-five steamers engaged during the season, plying be-

tween Pierre and the points above and below. Building Activity. During the past season there we a brick court-house; three brick business blocks, and over 300 liture of over \$1,500,000. There is now in process of erection the Park Hotel, a bricd structure 100x120, four stories high, and everything indicates that there will be a great increase in building during the year 1884, and there will be an active demand for building material and mechanics in all branches

The first industry established Pierre was brick making of which there was manufactured last season over, 1,-008,000 of superior quality, and orrangements have now been completed to manufacture more than 3,000,000 the coming season. There is a great demand here for iron work, and a foundry and machine shop which could make and machine shop which could make FIRST BANK OF LOGAN cast pieces for buildings, breaking FIRST BANK OF LOGAN work on implements and steam-boats would do a very profitable business.

PIERRE

A Manufacturing Business can only be established at Pierre, owing to the low freight rates obtained, competition between river and railroad transportation, the abundance of wood, which is now selling at \$4 per cord, and the immense quantity of coal and other raw material in the adjacent reservation west of the river. A Jobbing Trade

has already been developed by Pierre merchants with the Black Hills and the country up and down the river, and with a lower rate of freight than can be obtained at Watertown or Huron, or any other point in South Central Dakots, and being the only railroad point on the boundary of the reservation soon to be opened, Pierre is destined to become a great jobbing center. ACTIVITY IN REAL ESTATE began last year and more sales were of the city's growth, and there has been a healthful gradual advance in the price of city property, and every one has made money by operating in real estate. The indications point to an early husiness and an ac

Opportunities for Business. Opportunities for Business.

Pierre is an excellent city to engage in any kind of mercantile pursuits, wholesale or retail, because its rates of freight are low; it is the center of a factor of the supply and the supply supply sup fertile farming country and the supply point of numerous cities and villages located on the banks of the Missouri. This is a good point to engage in manufacturing business of any kind, and liberal aid will be given to any manufacturing industry. There is a mills, and for beer manufacturing, real estate which will produce handsome returns, and money used in the erection of buildings has and will pay 25 per cent. If you desire to avail yourself of the opportunities presented in a new country and a rapid growing city, and wish any reliable information n reterence to Pierre, it will be gladly urnishep by addressing

National Democratic Platform.

NEW ISSUES BORN—OLD ONES PERISH.

The Democratic party of the Union, through its representatives in National Convention assembled, recognizes that, as the nation grows older, new issues are born of time and progress, and old issues perish. But the fundamental princi deep of the Democracy approved by the united voice of the people, remain, and will ever remain as the best and only security for the continuance of free Government. The preservation of personal rights; the equality of all citizens before the law; the reserved rights of the States, and the supremacy of the Federal Government within the limits of the Constitution, will ever form the true basis of our liberties, and can neve be surrendered without destroying that balance of rights and powers which enables a continent to develop in peace, and social order to be maintained by means of local self-government. But it is indispensible for the peacie fundamental principles that the Government should cheap the decision of the people of the United States and American policy. Under Democratic rule an policy our merchants and sailors, flying the stars and stripes in every port, successfully active of American industry. Under a durater of a century of Republican rule and policy, despite our manifest advantage over other nations, high paid labor, favorable climate and teening soils; despite foremost races of men, an annual immigration of the general welfare, becomes an instrumentality for imposing heavy bordens on the many who are governed for the benefit of the few who govern. Public as now the condition of the country.

This is now the condition of the country. NEW ISSUES BORN-OLD ONES PERISH.

A CHANGE DENAMBED W. G. WILLIAMS,

Ilomæpathic Physician

LOGAN, OHIO.

Office in the New Building, first declared in th clent to have called for reform within the Republican party; yet those in authority, made reckless by the long possession of power, have succumbed to its corrupting influence, and have placed in nomination a ticket against which the independent portion of the party are in open revolt.—
Therefore a change is demanded. Such a change was alike necessary in 1876, t ut the will of the people was then defeated by a fraud which can never be forgotten nor condoned. Again, in 1880, the change demanded by the people was defeated by the lavish use of money centributed by unscrupulous contractors and shameless jobbers who had bargained for unlawful profits or for high office. The Republican party, during its legal, its stolen and its bought tenures of power, has steadly decayed in moral character and political can pacty. Its platform promises are now a

pacity. Its platform promises are now a list of past failures. It demands the restoration of our navy.

It has squandered hundreds of millions to create a navy that does not exist. It calls upon Congress to remove the burdens under which American shipping has been depressed. It imposed and has continued these burdens.

It professes the policy of reserving the public lands for small holdings by actual settlers. It has given away the people's heritage till now a few railroads and non-residents aliens, individual and corporate, possess a larger area than that of all our farms between the two seas.

It professes a preference for free institu-

It professes a desire to elevate labor. It

contract labor.

It professes gratitude to all who were disabled or died in the war, leaving widows and orphans. It left to a Democratic House of Representatives the first effort to equalize both bounties and pensions.

It professes a pledge te correct the irregularities of our tariff. It created and has continued them. Its own tariff commission confessed the need of more than 29 per cent. reduction. Its Congress gave a reduction of less than 4 per cent.

It professes the protection of American manufacturers. It has subjected them to an increaseing flood of manufactured goods and a hopeless competition with manufacturing nations, not one of which taxes raw materials.

It professes to protect all American in-dustries. It has impoverished many to subsidize a few. It professes the protection of American It professes the equality of men before the law. Attempting to fix the status of colored citizens, the acts of its Congress were ovened by the decisions of its courts, it "accepts anew the duty of leading in the work of progress and reform." Its caught orininals are permitted to escape through contrived delays or actual cennivance in the prosecution. Honey-combed with corruption, outbreaking exposures no longer shock its moral sense. Its honest members, its independent journals, no longer melinain a successful context for authority in its counsels or a veto upon bad nominations. That change is necessiry is proved by an existing surplus of more than \$123,000,000 which has yearly been collected from a suffering people.

TAXATION, THE TARIFF AND REVENUE Unnecessary taxation is unjust taxation We denounce the Republican party for having fulled to relieve the people from trushing war taxes which have paralyzed business, rippied inudustry, and deprived labor of employment and of just reward. The Beanocracy piedges itself to purify the admin, tration from corruption, to restore economy, to revive respect for law, and to reduce taxation to the lowest limit consistent with due regard to the preservation

the expenses of he Federal Government, economically administered, including pensions, the interest and principal of the public debt, can be got, under our present system of taxation, from custom house taxes or from imported articles, bearing heaviest on articles of luxury, and bearing lightest on articles of necessity. We, therefore, denounce the abuses of the existing tariff; and, subject to the preceding limitations, we demand that Federal taxation shall be exclusively for public purposes, and shall not exceed the needs of the Government economically administered. The system of direct taxation known as the "international revenues," is

SERVILE RACES.

reduce taxation to the lowest limit con-sistent with due regard to the preservation of the faith of the nation to its creditors and pensioners. Knowing full well how-ever, that legislation affecting the occupa-tions of the people should be corteous and conservative in method, not in advance of public opinion, but responsive to its de-riands, the Democratic party is pledged to revise the tariff in a spirit of fairness to all interests. revise the tariff in a spirit of fairness to all interests.

But in making reduction in taxes, it is not proposed to injure any domestic industries, but rather to promote their healthy growth. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislation for the successful continuance, so that any change of the law must be at everystep regarded full of the labor and the capital thus involved. The process of reform must be subject in the execution to this plain dictate of justice. All taxation shall be limited to the requirements of economical government. The necessary reduction in taxation can and must be effected without depriving American labor of the ability to compete successfully with foreign labor, and without imposing lower rates of duty than will be ample to cover any increased cost of production which may exist in consequence of the higher rates of wages prevailing in this country. Sufficient revenue to pay all the expenses of he Federal Government, economically administered, including pensions, the interest and principal of the

In reaffirming the declaration of the In realiming the declaration of the Democratic Platform of 1856, that "The liberal principles embodied by Jefferson in the Declaration of Independence and sanctioned in the Constitution, which makes ours the land of liberty and the asylum of of the oppressed of every nation, have been cardinel principles in the Democratic faith," we nevertheless do not sanction the importation of foreign labor or the admission of servile races, unfitted by habits, training, religion, or kindred, for absorption into the great body of our people, or for the citizenship which our laws confer. American civilization demands that against the immigration or importation of Mongolians to these shores our gates be

CUSTOM WORK. The best Shoe makers of Logan are em-

ducts of American industry. Under a quarter of a century of Republican rule and policy, despite our manifest advantage over other nations, high paid labor, favorable climate and teeming soils; despite freedom of trade among these United States; despite their population by the foremost races of men, an annual immigration of the young, thrifty and adventurous of all nations; despite our freedom here from the inherited burdens of life and industry in Old World monarchies—their costly war, navies, their vast tax-consuming, non-producing standing armies; despite twenty years of peace—that Republican rule and policy have managed to surrender to Great Britain along with our commerce, the markets of the world. Instead of the Republican party's British policy, we demand in behalf of the American Democracy an American policy. Instead of the Republican party's discredited scheme and false pretense of friendship for American labor, expressed by imposing taxes, we demand on behalf of the Democracy freedom from American labor by reducing taxes to the end that these United States may compete with unhindered powers for the primacy among nations in all the arts of peace and fruits of liberty.

With profound regret we have been apprised by the venerable statesman through whose person was struck that blow at the vital principle of republics (acquiescence in the will of the majority), that he cannot permit us again to place in his hands the leadership of the Democratic hosts for the reason that the achievement of reform in the administration of the Federal Government is an undertaking how too heavy for his age and failing strength. Rejoicing that his life has been prolonged until the general judgement of our fellow countrymen is united in the wish that the wrong were righted in his person for the Democ-
