He reports business improving in his locality. Mrs. Greer and daughter, of Lancaster, visited her sister, Mrs. C. M. Gould, on last Saturday. Mrs. Henry Crampton left next week for Nebraska, which she intends to make her future home. Mr. Sam Mowry, one of the prominent young farmers of Green, made us a pleasant call last Saturday. The marriage of Mr. Jacob Shrader and Miss Maggie Miller were published at St. John's Church last Sunday. A very excellently written article on the Cary sisters by one of our most accomplished Logan ladies, appears on the outside of this issue. At a meeting of the Board of Education Monday evening, Mr. Sam Bright was elected President, and Gus Culver Treasurer. No Secretary has yet been chosen. Mrs. Matilda Meiser, of Marion township, who has been visiting her daughter, Mrs. Elza More, of Columbus, returned home and was much pleased with her visit. Mrs. Phil Thompson has been offered, and refused, \$75.00 cash for a three months old Jersey calf. Mr. T. proposes to keep it and will not even let Phil see it on an election. On last Tuesday night the Nelsonville Machine Shop was broken into, a lot of very valuable machinery was thrown in the canal. The miscreants have not yet been discovered. Uncle Billie Craig, living near Gore is lying in a very critical condition. He suffered a stroke of paralysis some days ago. Dr. De Steiger of this place is the attending physician. Col. Constable of Athens, was in the city yesterday. He favors us with an article upon the Scotch Law decisions that will be of interest to our readers generally as well as to the legal profession. Saturday morning last the managers of the People's rink gave a bon-bon party to the young folks of the town. There was a great turnout and every pair of skates was in use. A company of young folks surprised Mr. and Mrs. Dan. Brown of Fernacott on last Saturday evening, and were delighted by their agreeable host and hostess, taking up the carpet and abetting the young folks a dance. The ball at the People's Rink last night, though not so largely attended as expected, was one of the most pleasant events of the season. Dancing was kept up until a late hour. Geitz orchestra furnished the music and of course it was first class. Mr. Jacob Shively and Miss Clara Keitel were married by Father Cady at St. John's Church Tuesday morning. A large company of friends were present to witness the ceremony. The young couple have our congratulations and thanks for kind remembrance. Mr. Howard Barton is the owner of the general purpose horse Victor, which has taken the 1st premium at the Hocking County Fair for the past two years. The attention of the farmers is called to the bills, giving particulars. Mr. John Amerine, of Somerset, the efficient and Democratic Infirmary Director of Perry, was in the city yesterday and made a pleasant call at the Sentinel office. Mr. Amerine is doing a profitable furniture and undertaking business and his many friends in Hocking will be glad to learn of his success. We received a very pleasant call from Mother Cronin, of Union Furnace, Tuesday last. Mrs. Cronin is one of the most estimable ladies of the county and though we feel slighted because Parson received the most attention, hope she will not make it her last visit. Now that Doc Frienser has left town and Ed Havenport takes it so much to heart, we suppose that if Chris Hill should go away, he would commit suicide or possibly get the "shakes." A jug full of roots saturated with a little whiskey is good for either disease. We were driven to the above conclusion Saturday night last. In the language of the rink editor we would advise Edward to rinker down, rinker down, rinker down. Mr. Roland Searz, one of the most worthy and deserving young Democrats, was tendered by our Congressman, Mr. Outwaite, an appointment as mail route agent, on the line between Pittsburgh and St. Louis. This is the most important railroad mail line in the country. Mr. Searz, with a commendable modesty, and a high appreciation of the necessity of efficient work in the public service, declined the appointment. He did not fear the work, nor did he fear he would fail, but he felt that perhaps an older and more experienced man could do better service. Roland is a young man of sense, and his course in this matter is to his credit and will be to his advantage. Mr. Outwaite will have the hearty thanks of our Hocking democracy for this compliment paid us in the courtesy shown one of our most deserving young Democrats. Arbor Day. Friday, April 24th, being the day set apart by the Gov. of Ohio as "Arbor Day," will be appropriately observed by the Logan Public Schools. Exercises will begin promptly at one o'clock p. m. All are invited to attend.

The colored folks of this place gave a dance at Slisher's Hall, Monday night. Archie was there dressed in a white vest and pink shirt and was envied by all the coons and admired by the fair sex. Professor Ramsey and Warwick furnished the music and in the parlance of one who was there, they had a "steam" time. There are not many darkies in town, but they are awful on noise, and on all great occasions make things howl. Phil Slicher is a hustler in the Grocery business. His stock is always complete, and prices hustled down to rock bottom. He hustles off immense quantities of groceries, provisions, fresh bread and cakes, the best of candies, fruits, oranges, &c., because he sells them so cheap. His Bar is supplied with the best of beer, wines and liquors, presided over by Mr. Geo. Bright, a most accomplished clerk. Hustle into his place of business with the crowds that are hustling around to find the best market at-fords. On last Sunday Rev. C. C. Hart tendered his resignation as minister of the Presbyterian church in Logan. Action will be taken by the congregation on the matter next Sunday. In the event Mr. Hart retires from the pastorate of his church, we hope he and his estimable family will continue to reside among us. Mr. Hart is one of the most ardent, earnest, untiring ministers of the church. He has given a vigorous, industrious life in the ministry of religion. No follower of the Master could be more gentle and comforting to the sorrowing and sick than he has been, no minister more dutiful to the dead. He is a man of strong, positive traits of character, not afraid to assert himself, not timid in advancing his views. He has been largely a leader in our community in campaigns in which as a citizen, or Christian, he has identified himself. We fight him, and like him, and whether or not he is right or wrong, he is always in earnest, and always at the front. He is a devoted Christian, a good citizen, an intelligent useful man and we hope he will remain among us. Rink Notes. The boys at the People's Rink are trying very hard to get the champion trick and fancy skater of the world to give an exhibition in this place Monday night. If they succeed tonight will hereafter be given of the event. The exhibition given by Pete Montgomery the four year old boy, at the People's Rink, Saturday night was one of the most notable events of the season. That boy skates like he was of age. Mack Montgomery's lunch room next door to the rink is now completed. It has been furnished in elegant style and looks home like. We return thanks to the managers of the Nelsonville Rink for a kind invitation to be present at the opening of their new rink Tuesday night. A large crowd of young people from this place were down and report a very enjoyable time. We wish the boys success. The Little Wonder Washer. Mr. G. E. Wood, of Athens, agent for the above named washing machine, was in town this week and gave a practical test for several of our citizens, of the workings of his machine. The Little Wonder, is veritably a wonder in the work it performs. It consists of two tin tubes, fluted at the base and attached to a horizontal bar. The machine does not weigh five pounds. The process is an application of air or water pressure, forcing the water through the clothes. The clothes escape the wear of rubbing by a wash board. The cleansing is accomplished with but slight labor and in a very short time. Mr. Woods did the washing of a family of nine in less than thirty minutes, and did the work as well as an expert washerman generally occupied six hours in doing. This machine is certainly a marvel of mechanical skill and scientific knowledge, and we cheerfully recommend it to the public. Mr. Wood will be in Logan next week and may be found at the Rempel, or on inquiry at this office. He will give a practical test of his machine, or on inquiry at this office. He has territory for sale and will give bargains to any active man desiring township, county or State rights. ICE! ICE! We have got the best quality of ice ever put up in this place, and are ready to deliver to persons wishing ICE at the same price as last year. Leave orders with driver, or at H. WHITES, apr 23-24 ws. EIGHT YOKES OF CATTLE FOR SALE. I have for sale Eight Yoke of good Work Oxen. The oldest yoke is 7 years old, 1 yoke 6 years and 5 yoke 4 years old. Will sell cheap. Inquire of GEORGE SHINGLER at Gore Furnace. Corn Land for Rent. Mrs. A. McCarthy has for rent, Forty Acres of good corn land. For particulars inquire at the farm or of T. F. McCarthy.

THE ASSESSOR TO THE FRONT.

HE STRIKES THE DOLLAR. While Crime Strikes the Police.

TAXES vs. CRIME.

Now that the assessor is on the warpath, and agreeing that the avocation is lawful there are a few things pertaining to the duties of the office, that always call to mind some-headed reforms that might be consummated by this class of citizens. There is nothing too sacred in a man's private business affairs for an assessor to pass by. There is not even a pebble left unturned, when one of them gets through with a man. One question after another is asked and answered, and when at last the rigid program is finished, an oath, as remorseless as the catechism, just gone through with, is administered. The requirements of the law and minon have been fulfilled. Now while the business men and property owners are pestered and de-veiled by the assessors, sit back and laugh at the proceedings, that are necessitated to a great extent by the crimes that are promulgated by the Godless and unskilled crew. The cold nose of the bound is not more unerring than the licensed agent of the law that runs down and sets the seal of scrutiny on the last penny of the business man may have. If then, they are successful in this line, why would it not be wise and prudent to garb them with the authority of the police-officer, make them a permanent institution and see if they cannot locate the thousands of social crooks that invest the day with heroic emells. Year after year the assessor goes down a little deeper into the affairs of the tax payer. He is asked to carry just a little heavier load; it takes just a little more for the infirmity, it takes a little more to support the State institutions; it takes a little more to support the police force of our towns, a little more to pay doctor bills, and all because there seems to be no legitimate way to get rid of crime. There is a successful way of getting money out of men to bear expenses incurred through the workings of crime, but there seems no checking the manifold evils that are year after year increasing the burdens of the tax-payer. Let the assessor, therefore, while he is clothed with authority to hound the respectable portion of society, also be instructed to waste some of his time and talent on that great class that is always ready to raise h— if they can force decent people into it to take the part of devil.

from supper, and delaying him from going home until 7 o'clock. But with commendable zeal for the Sentinel he made long trips to remote places, hunting after men and matters having no existence only in the plan to keep him from home. Finally he broke loose from restraint and toil and the meshes woven around him and went home. He was dazed with the splendor of his establishment: His house was illuminated from "turret to dome." He thought an election had occurred in Texas, Kentucky or Hocking county and the family were celebrating. His parlors were crowded with company dressed in Sunday clothes. A supper prepared to the queen's taste and fit for a Democratic President was temptingly awaiting him. It is needless to remark that Charley Gould was surprised. He gracefully accepted the situation, and pleasantly acknowledged the shower of congratulations from the company present. The Sentinel and its thousands of readers join in tender of good wishes and good will, and hope he may live long and be happy and have many more "surprises" as completely successful, and as many more birthdays as pleasant as the one just past.
