October 28-17.

Republic's Paragon. The Republic-Gazette of last week with accustomed indelicacy, "gave away," so to speak, a well laid plan for the benefit of its indigent manifold.

Bro. Pursell, who is editing manifold papers, has for every issue times been dead beating his beer and tobacco, and ten cent smiles from acquaintance. A plan was conceived to lift the pressure.

Last week he gave the scheme partly away. He says the wonderful picture framed by Rebers and on exhibition at their store, particularly to be a scene in the office, St. Paul, in the handwriting of Green. That Green is an artist and that this picture is his latest and best. Green denies nothing.

Of course Green painted that picture. But now that the secret is out the truth of history, as exact as it may be, requires that the old facts in full be given to the public.

The despatching of tobacco and ten cent smiles had reached a limit. Riding from Charleston to Logan on a free pass twice a week was not paying. So it was thought, on the cool dog theory, to give Pursell a panorama and let him travel and lecture in the hope he would by this make his beer money and his expenses for smiles. So in the night Green painted for him the wonderful picture "framed by Rebers and on exhibition at their store." A word now of explanation of the panorama picture for our indigent cotemporary's benefit.

It will be noticed that the artist is profuse with rocks. This is an inspiration drawn from seeing the profusion of our town council, when this body attacked the stone quarry, and dumps the rocks on our streets.

The sunshine, which is always a difficult element with artists, has been seen in this picture with a wild, western heroism. The sunlight is made to shine on the side of the clouds and on the other side of the rocks. In other words, the sun is made to shine from two different points at the same time, a feat in art no picture painter has ever accomplished before. Col. Pursell, in his lecture will develop a theory on this feature.

No living creatures, appear, as is usual, in this landscape. This is the explanation: The dog is over on the other side of the hill or behind the house dealing with the bone question. He is not visible only to the eye of the lecturer. The cow, always to be seen in familiar pictures standing in the water, is in the pond and until 30 cents is advanced to pay Bro. Pursell, can not be in a picture nor anywhere else except in the pond.

The man belonging in the picture, bought a copy of the Republic-Gazette and after he read it, the state Jake scoured on his stomach and he got sick, went into the house and went to bed, refusing to see anybody. It is not the fault of the artist he is not to be seen.

The yellow color of the water is original. The lecturer can explain this if he can.

Those curious looking things that look like nothing anybody ever saw are swamp cabbages. They were put in for the reason that it is proposed to associate Senator Coble with Col. Pursell in presenting this panorama on Salt River, and the audience goes to sleep listening to Pursell's windmills. The Senator will wake them up with an expatiation on the merits of swamp cabbage salad.

Other features of this remarkable work might be mentioned but lack of space prevents.

Col. Pursell will start with the panorama next week. He can represent it as a scene in Scotland, Green's former home, the Republic-Gazette office after Willard had dined 17 times in an hour, or very properly as the Republican headquarters the day after the election.

At any rate it is the hope of many who have carried Pursell's tobacco for years and who have given him smiles, dimples in count, and countless in dime, that the panorama will be a success. In the meantime Willard will edit the paper with his well worn shears, and Cattie Davidson, when off duty ushering the Salvationists, will copy enough logs from the Sentinel to keep our Annex alive.

COUNCIL MEETING.

Tuesday Evening, October 23, 1886.

The Council met in regular session with the following members present: A. Steinman, President; G. G. Gage, Clerk, and Messrs. Krig, Price, Wright, Cress, Schlegel, Rochester and Bradlock.

Minutes of last regular and special meeting read and approved.

The estimate of the work being done on the Myers and Pryor property, corner of Hunter and Mulberry streets, was put at \$50.00. The same amount was named for the Curtis lot on West Main street, and belonging to the heirs of Mrs. Catherine Rippey. Andy Holl, City Treasurer, reported \$1017.71 in the Street Improvement Fund.

The ordinance to regulate ale and porter houses, etc., was read second time. Mr. Bradlock moved that the rules be suspended and the ordinance pass to its third reading. Motion lost and ordinance referred back to committee.

The ordinance to regulate billiard halls was read second time. Referred back to committee. The ordinance granting C. E. Bowen & Co. the right to use the streets and alleys for laying pipes for lighting and heating purposes was brought up for third reading. Mr. Price, the chairman of the ordinance committee, did not like the reading of the ordinance and for that reason could not recommend its passage. Mr. Bradlock moved that the ordinance be referred back to the gentleman praying its passage, with the instruction that whenever they get ready to go to work, the ordinance would be passed. The finance committee recommended and approved the payment of the following bills:

G. G. Gage	\$20.83
L. D. Vickers	25.00
Chas. D. Lawyer	18.25
Port Alexander	18.00
Fred Myers	12.50
M. Myers	17.25
Joseph Ucker	39.76
John F. White	16.25
H. S. Dewees	11.40
Jacob Myers	8.12
F. C. Davey	35.75
James Martin	1.00
John Rectionwalt	2.50
A. Steinman	33.24
J. B. Steadon	38.75
Geo. Deishley	41.67

Bills approved. W. P. Price and John Hansen appeared before the Council in behalf of the Gallagher heirs, praying that there be a suspension of the order to grade and pave in front of their property on Gallagher Avenue, until adequate measures be adopted to carry away the water, that by means of this improvement would be thrown upon the property of said heirs. After a full discussion of the question, it was, on motion, of Wright, referred to the Drainage committee.

Mr. Starr, agent of the American Road Machine Co., was introduced to the Council and spoke upon the merits of the road scraper that has been on exhibition here for several days. The question of purchase, on motion of Mr. Rochester, was referred to Street committee.

Chas. Monroe was before the Council asking what was to be done with Spring st. He said that if something was not done before bad weather came on, he could not do it, would be impossible. He explained that though just outside of the corporation, he would be willing to be taken in if it would insure good streets for them. There seems to have been some misunderstanding between the Council and Mr. Pond about the amount of work that was to be done on this street, and from the present outlook, the people that seek the hill tops by that route can fix up their stiffs for a winter's riding. On motion of Councilman Cressop the Public Property committee was instructed to put in a floor and flue at the Work House.

On motion adjourned.

What is the Matter with the Gas Company?

The Gas Company in this place, has openly violated its contract with the corporation on hundreds of occasions. Friday night last the street lamps were put out before 11 o'clock and the moon raised about 2 1/2 o'clock the next morning. This amounts to 3 1/2 hours consumption of gas for seventy five lamp posts, which the town will have to pay for while the Gas Co. will not be out a cent, because there was a failure to deliver the goods contracted for.

On Saturday, Sunday and Monday nights, there was a repetition of this thing, and after 11 o'clock, the town was wrapped in darkness.

We suppose the town officials are looking after this matter, and will make the proper corrections when the Gas Co. brings its bills before the Council for payment.

We do not believe there is any question that needs more thorough overhauling, by the Council, than the existing contracts between the Gas Co. and the corporation. It is agreed that certain candle power shall be given and it is very evident that it is not done. The tax payers have to pay all the same, and if the Company's factory is not adequate to the demand, let them enlarge the works, or cancel the contract.

Again there have been weeks at a time, in the past year, when a dozen, at least, of lamps were not lighted, and we can not find that there was any reduction made by the Company in the bills presented for payment. We think the interest of the tax payers demand that the Gas Co. be regulated. We hope to resume this subject at early day.

The town Council refuses to give a franchise, a right to the streets and public grounds of Logan, for the purpose of laying mains and pipes for natural gas. The gentlemen proposing to invest in the experiment of determining whether or not there is natural gas under Logan, have no money to fool away in an enterprise that may at any moment be strangled by the Council.

The Gas company of Logan has an ordinance granting a franchise, a monopoly for ten years. So had the Ennska company, which failed to do anything. Logan men with money to put in this venture, are denied the courtesy, granted by every town in Ohio.

There will be an election next spring. The curbstone talk of councilmen, saying, "go ahead, get gas and give you a franchise," is all baby talk, or a bid for boodle. The grant of a franchise to a company costs the corporation nothing. The grant may be made to a dozen companies for that matter, and the grant can be withdrawn at anytime.

It does look though as if the Gas company has exclusive control of the illumination of our town, and any other enterprise looking to the development of our resources, like our town lights are to be shut off, say at 11 o'clock, whether the moon is up or not.

Trittsch & Stiers, we learn, will soon erect a new store building on South Mulberry Street. There will be four rooms in the new building, while the rooms they now occupy will be used for grocery and queensware departments alone. Ben Trittsch and Al Stiers are both young men, full of push and energy and carry one of the largest and most complete stocks of goods of any firm in this section of the State. Their increasing trades makes it absolutely necessary that they should have more room. In connection with this, let us add, these are good old Democratic times.

REBER & CO., DRUGGISTS

Main Street, Next Door to First Bank, Logan, Ohio.

We desire that every reader of the Sentinel, when in from the country, to call at our store and see what we have and learn the prices at which we sell our goods. Probate Court—MARRIAGE LICENSES.

P. W. Hankinson and E. L. Bainter, Frank P. Dennis and Elizabeth Stiers.

INQUEST LUNACY.

Francis K. Salko was adjudged insane Oct 19th and sent to the Athens asylum Oct 23, '86. Mr. Salko lived in Laurel township.

SETTLEMENT.

John A. Shaw executor of the will of Adam Graham, filed his third partial account Oct 26, '86.

John A. Shaw executor of the will of David Dalton, filed his third partial account Oct 26, '86.

John A. Shaw executor of the will of G. L. Nelson, has filed first and final account.

Sale of Bell's Foundry.

A representative of the Sentinel yesterday met Mr. Raymond Bell and in answer to his inquiry said, that he had sold his foundry to Zischel & McLean for \$15,000. The senior member of the firm holding from Indianapolis, Ind., and the junior from Warren, Penn. The firm will make a specialty of "Band Saws," though besides this they will sell all the work that comes into a first class machine shop.

Mr. McLean is here now overhauling the machinery and putting things in shape for a start.

It will be prepared to work, though possibly not before spring, from twenty-five to thirty feet. This will be a valuable acquisition to the town, and we feel sure that the new firm will be accorded a hearty welcome by the population of town.

Mr. Bell, the former owner of these works, has been a resident of Logan for over forty years. In 1845 he started the foundry on the present site. In 1874 was destroyed by fire and the present buildings put up.

Mr. Bell was not only an excellent business man, but was the peer of the best mechanics of the State, and the foundry and shops just sold, have been his care and fancy for years. The shops are equipped with modern machinery, the buildings are solid and substantial and it was all in all one of the most desirable properties in this section of the State. We are sincere in our hopes that Messrs Zischel & McLean will be successful at their new enterprise.

Mr. Roland Schwarz, of our town, and the popular mail route agent on the Hocking Valley, was married on Thursday, Oct. 15, at the residence of Mrs. John H. Schwarz, at their home on East evening, which was largely attended by friends and his many friends, we hope he may have a long and happy life.

Johnny Kirstein has recently opened up and furnished in good style, a suit of rooms in connection with his bar, where fresh oysters will be served at all hours, and at reasonable rates. John is to be commended on his enterprise. A good oyster saloon is needed in the West end. This is a quiet, orderly place, and the public will be well entertained.

Circuit Court.

Court opened Oct. 22, 1886, with Judges Cherrington, Bradbury and Clark on the bench. The case of Alexander Harper et al. vs James Betts et al, dismissed for want of jurisdiction at cost of plaintiffs. Mandate from Supreme Court.

Jeremiah Patton vs Richard Wooly. Dismissed with out prejudice at cost of plaintiff. An appeal.

Henry B. Sweneger vs T. P. Johnson. Deft. demanded jury, de-

WELDY & PRICE, Attorneys - at - Law.
