**STUCK "BLE."**

The oil well which was put down as a test well is now down 1000 feet—the depth originally agreed upon by the projectors of the enterprise. The well is flowing salt water and oil and it is now proposed to cease off the salt water and pump the well. A meeting of stockholders was held last night for the purpose of making a new contract with the operator to pump the well by the day. It is believed that the production will average ten barrels a day now and it is thought when the well is cased and torpedoed that it will increase maybe to a hundred barrel well.—[Nelsonville News.]

**At the Front.**

This panorama given by Joseph & Worthington at the Opera House, for the benefit of the G. A. R. Post, Monday evening, drew a crowded house and gave general satisfaction. These gentlemen gave an instructive and enjoyable entertainment, and the only criticism we could offer, was a seeming failure to always handle their lights with the greatest effect.—This objection will be removed as they become more familiar with their instrument and does not detract from the merits of the show. We cheerfully recommend Messrs Joseph & Worthington to the public.

**Report of Grand Jury.**

To the Honorable John S. Friesner, Judge of the Court Common Pleas, Hocking county, Ohio:

The Grand Jury of the Court of Common Pleas of Hocking county, Ohio, for the year 1887, beg leave to report that they have been in session 57 days, and herewith return to the Court the indictments presented by said jury: We have carefully examined into all such cases as have legitimately come to our notice, having examined over 150 witnesses, covering 44 cases and presented 19 bills and ignored 25 cases considered by us. The business has been transacted in an expeditious manner as possible. Some delay was unavoidably occasioned by the sickness of two of the jurors.

During our session we have visited the county Jail and made a complete examination thereof, and find that the rates prescribed by the Court for the care thereof and for the government of its inmates, have been carried out and properly enforced and found the Jail in as good a condition as the nature of the building would permit.

Respectfully submitted,

DANIEL L. DAVIS, Foreman.

**TEACHERS' MEETING.**

The next meeting of the Falls Township Teachers' Association will be held in the Logan School House, Saturday, December 11th. All are invited.

W. D. BRANDT, Pres.

**Farmer Floyd is engaged in husking his corn.** He says he can beat the champion husker of Pickaway, who in ten hours husked 125 bushels. Farmer Floyd is not a George Washington of a fellow in the husking business and the telling about it.

**Every one should subscribe for the Sentinel.** Only \$1.50.

Mr. R. W. Taylor has our thanks for a Thanksgiving turkey.

The growing radiance of our street lamps is a matter of general remark.

Miss Ruth Foster, of Lancaster, is the guest of Miss Maggie Wellman, in this city.

The Governor of the gas pressure is evidently not feeling well this week. The gas is escaping him, and getting into the burners.

**Col. Lemert, President of the Findlay Natural Gas Co.** says he can pipe the gas one hundred miles and furnish gas for illuminating and manufacturing purposes at 50 cents per thousand. We pay \$2.50. The franchise of the streets of Logan would be denied to Col. Lemert, because, as our able Council argue, there might be a speculation in it.—There is, of course, no speculation in the Logan Gas Co.

**WILL FRASH.**

**Home Again.**

About two weeks ago John Hansel, accompanied by his little grand-daughter, a daughter of Charles Brandt, and Frank McClintock, started for Tennessee. On Saturday evening last he returned home, and on Monday, being in this place, was cornered by a Sentinel reporter and made to divulge.

"You see," he said, "we got down safe and sound and found the members of the Ohio Camp well and prospering. There is now at Newcomb or in that immediate vicinity the following Hocking county people: T. H. Rhoadhaver, John Rhoadhaver, Eph Hansel, Wm. Hansel, Isaac Trowbridge, Wm. Pullen, Frank McClintock, and Will Ferguson. Wm. Conners and family reside at Jellico, four miles north of Newcomb. All well, excepting Mr. Conners, who is afflicted with rheumatism. The other persons, as many of your readers know, are identified with the lumber interests of that region.

Newcomb is situated in the Elk River Valley and less than a hundred miles north of Knoxville. It is in the midst of a great coal territory and for that reason is fast becoming a place of importance. Hall Rhoadhaver's factory, much the same as the Logan Manufacturing Co.'s place, though not so large, is located at this place and crowded to its utmost capacity. Mr. Rhoadhaver also runs a corn cracker burr in the factory, and is visited by mountaineers from eight to ten miles around. It frequently occurs that the demands on the burr are so pressing that it is run night and day.

I think the people from this region are well located and are bound to be successful.

The timber supply is unlimited. The country is of course, rough, but the land that is tillable is first class. The climate is delightful and the water unsurpassed.

During my stay at Newcomb my little grand-daughter was taken seriously ill, and was in charge of Dr. Newman, a successful and most excellent young physician located at that place. I am grateful for the care and attention given the child.

A visit to the Ohio Camp in Tennessee can only be experienced, not described. The latching is always out and good cheer within."

Just at this point there was a lull in the conversation and John, carefully looking the reporter over, ventured to ask for Lew-Lew is the Mikado and the Mikado is the chief of our staff. Mr. Hansel was informed that the chief was away from home.—Again there was a lull in the talk.

Presently there appeared a flask of "moonshine," real genuine "moonshine," as could be told by the smell.

Then there was necessarily an other lull, and long after Mr. Hansel had started home, the reporter pondered on the fitness of "moonshine." It was an article of merchandise that had cost the government lots of money—and as the reporter pondered, he involuntarily pledged himself to John Hansel of Ohio, and that band of good fellows seeking a fortune in the land of "moonshine." As Judge S. H. Wright would say, the gentlemen among the vine invested peaks of Tennessee are held in grateful remembrance. The reporter scooped the boys on this occasion and the Parson is sad.

We are disposed to say in this connection, that we care nothing more for gas while the "moonshine" holds out.
