Last week, Judge Friener closed his official career on the bench. In his ten years of service he has won the distinction of being one of the ablest jurists in our State. The Republican organs are doing their full duty in working up a case for Mrs. J. Ellen Foster, of Iowa, who bolted from the W. C. T. U. at Chicago because it stood by its prohibition guns. Mrs. Foster was in Quay's pay last year to disorganize the Pro hibitionists, and did some very nice work in that line, raising a rumpus in every gathering to which she got admission. After the inauguration she got a snug office for her husband, and alto gether must be a very handy person to have in a family, but rather a disturbing element in Prohibition councils. She seems to like the Republican way of managing the temperance ques tion—with prohibition on one shoulder and rum on the other. Mrs. Foster's platform is, first, office, then Republicanism, and then, where it doesn't hurt, prohibition! She is a very useful person for the Republican poli ticians.
