During his stay in Logan he made many friends who with the Sentinel hope for his speedy recovery and returning to his position on the Sentinel.

Writing School Awards. The Writing School Committee, viz: S. H. Bright, Geo. Gage, J. B. Riason and Prof. Rayman, made the following awards: 1st Jesse Kern; 2nd Geo. Stallsmith; 3rd Mrs. Drew.

A Patent Fire Lighter. Mr. Henry Lutz is not only one of the most accomplished mechanics of the country, but an inventor of the highest rank of genius. His latest invention is a fire lighter. The fire in the grate or stove being laid, the lighter is charged with a match and placed under the kindling. A string attached to the lighter leads to an alarm clock or to the bedside. A slight pull the fire is lit, and the household gets up in a warm room. The price of the lighter is about 50 cents.

Burglary of Work's Tin Store. On last Saturday night the safe in Work's tin store was blown open and about \$35 in money taken. A hole was drilled in the outer door of the safe, an explosive introduced into the cavity of the second door. The doors were blown off and hurled to some distance from the safe. Frank McBride was passing about 2 o'clock in the morning and hearing the explosion, found night watchman Broney and together they went to the store, but could not get in, the front and back doors both being secured from the inside. One of the men went to arouse Work the other to get the assistance of the sheriff. On returning the bar holding the back door had been removed, the door stood open no burglar or burglars could be seen. A careful examination of the building gives no evidence of a forcible entry being made. It is the opinion that the burglar had secreted himself up stairs sometime during the day and when all was quiet on the streets accomplished his work, and when the coast was clear opened the back door and fled. The officers are making every endeavor to find the burglars but up to this writing no clue has been obtained.

Assaulting the Marshal. On last Saturday evening at the depot returning from the Lancaster fair, a young man named Proctor from Winona, became very boisterous, wanting to fight, cursing and swearing. He was kindly admonished by Marshal Deishley to behave. He gave no heed to the officer and was placed under arrest. As the officer was taking the young man to the calabose, the boy's father picked up a large cinder and hit the marshal a terrible blow on the shoulder cracking the bones and knocking him down. The doctor says that if the cinder had struck the head death would most certainly have followed. The 3d man attempted to escape but was soon captured by the excited crowd and lodged in jail. The boy was taken to the calabose, and on a charge of disturbing the peace was fined by the mayor, penalty and costs amounting to \$16, which he paid and was released. The old man was bound over to court on a charge of assaulting with intent to kill. He gave bail in the sum of \$350. He is said to be a well behaved man, and the assault upon the officer was made in the mistaken notion that a gang was about to attack his son and do him great bodily harm. The case is an unfortunate one and was caused by too much bad Lancaster whiskey.

Death of a Good Old Mocher. Grandmother Susannah Kepler of near Webb's Summit, died at her home on Sept. 22d, aged 83 years. Mrs. Kepler was well known and universally esteemed by the wide circle of her acquaintances. Her remains were interred at the Webb's Summit cemetery. Rev. Moore of Logan conducting the services. The family have the sympathy of the public in their bereavement.

Notice. Ringing at doors, ringing door bells without proper occasion is prohibited. It is unlawful for any person to disturb or annoy the occupants of any house, building, store or other place by knocking or rattling at the door, window, or upon the wall thereof or in any manner to disturb or annoy in any manner any person. I desire to be distinctly understood that this ordinance will be enforced to its fullest extent; and during halloween, or at any time. I hope all offenders will be promptly reported to me by officials and citizens.

Proposed Amendment to the Constitution of Ohio, Taxation.

Section 1. Be it resolved by the General Assembly of the State of Ohio, That a proposition shall be submitted to the electors of this state on the first Tuesday after the first Monday in November, 1891, to amend Section 2, of Article XII, of the Constitution of the State of Ohio, so that it shall read as follows: ARTICLE XI. Sec. 2. Laws may be passed which shall be by a uniform rule all moneys, credits, investments in bonds, stock, joint-stock companies, or otherwise; and all real and personal property according to their true value assessed in money. In addition thereto, laws may be passed taxing rights, privileges, franchises, and such other subject matters as the legislature may direct but taxing grounds, public school houses, houses used exclusively for public worship, institutions of purely public charity, public property used exclusively for any public purpose, and other property, may, by general laws, be exempted from taxation; and the value of all property so exempted shall, from time to time, be ascertained and published as may be directed by law. Sec. 3. At such election, those electors desiring to vote for such amendment may have placed upon their ballots the words "Taxation Amendment--Yes," and those opposed to such amendment may have placed on their ballots the words "Taxation Amendment--No". Sec. 4. This amendment shall take effect on the first day of January 1892.

I. P. THOMAS & SON CO.

For the same reason you don't tie up your horse to an empty manger for months at a time, you don't want to put in your wheat this fall without an ample quantity of food--enough to grow a full crop of wheat and succeeding grass

To supply this plant-food in the proper shape is our business. We say proper shape because anybody can mix a little South Carolina Rock and Kainit together and call it a fertilizer; but twenty-three years experience at the business, with our complete facilities, has enabled us to make fertilizers that will produce the desired results. There isn't any question about it. You will say so too, if you have used our goods, and if you haven't, you can get them and all desired information from our agents. The Thomas' Phosphates are standard and thoroughly guaranteed.
