Teachers' Reading Circle held at Jobs, today, was well attended, considering the extremely bad weather and was highly enjoyable and profitable throughout. All persons on the program were present except one and each one's part was creditably performed. Papers were read by Jennie McCullough, Olive Lane, Tunis Nunemaker, P. C. McCormick and J. P. Nunemaker. These papers and the discussions which followed them showed that the Reading Circle work in this town ship is being done with commendable thoroughness. After the rendering of the program the Circle was further organized and Mr. P. C. McCormick was chosen chairman and Miss Blanche Acker secretary for the next meeting which will be held Dec. 21st. OBITUARY. Henry William Heigst was born Jan. 11, 1874 and departed this life Nov. 19, 1895 at the age of 21 years, 10 months and 8 days. He was baptized in infancy by Rev. Henkle, in the faith of the Evangelical Lutheran church and was confirmed in the same faith, Oct. 26, 1890, by Rev. L. F. Mittler, of which church he remained a faithful and devoted member. His death was the result of a complication of diseases which baffled the efforts of his friends and the skill of the best local physicians and surgeons. Though his last hours were attended with inexpressible and untold suffering yet he bore all with christian fortitude and gave himself into the hands of the Great Physician the healer of suffering. His mother, four sisters and four brothers are left to mourn their loss, his father and a sister having preceded him in death. He was his mother's friend, doing at all times for her welfare and giving up that young men generally call pleasure to help her. During his sickness he was given books to read by his friends thinking that he would forget his misery but he replied that they were not the books for him to read but he wanted to read the Bible. When on his dying bed he had his friends to read the 46th and 72nd Psalms and pray for him. About fifteen minutes before he expired he said to his mother: "I can't be with you any longer," and bid her and each of his brothers and sisters "goodby," and expressed the hope of meeting them all in heaven. E. G. S. Guthrie and Company are making some very low prices while closing their massive stock of mens ready made shirts for ten (10) cents, just think of it.

MURRY CITY, OHIO. The beau-ideal man, Ab. Goldstein, of Murry City attended the K of P Ball on last Thursday evening. He duded himself up in a splinter new suit of clothes and combed his hair so slick that a fly could not light thereon lest it slip off and break its cervical vertebrae. He adorned himself in royal purple and costly gems and appeared in the midst of the audience with much pomp and accompanied by the belle of Murry City as if he had come to the conjugal altar to make his eternal vow. Al is the champion dancer of the 19 century and on that memorable night with Miss Dodd he danced before the gods until the whole audience were ashamed to even hold a light while his agile feet played, sang and danced all at one time. His beauty and fascination with his over production of cheek will make him master of all he surveys in any crowd. His songs and dancing were highly prized in antiquity and they retain their celebrity to these modern times. The newest thing in our hamlet, Hugh Jones's horse. The tiniest thing in town, Tom Bell's moustache. Tom is big, ugly and fat but he makes his big broad pedals go pit a pat. A. J. Bennet has been very ill as to his feelings over the late election news. He was scarcely able to perform the duties assigned him at the K of P Hall on last Thursday evening. He has called daily at Dr. T. J. Dillinger's office for medicine since he heard the stampele of the Campbells over the Great Ohio Desert on Nov. 6th, the day after the election. He has had the Democratic fever with a standing temperature of 107 F. for seven days. The fever, like a parasite, holds on like grim death and has been very obstinate and persistent. The Doctor thinks he will ride him over the attack provided no complications come as a sequel. He is convalescing rapidly now, sleeps well at night and has an appetite like a saw-mill. Joe, Ohio. Married, by Rev. Father Ritter, of Sacred Heart Catholic Church, on Tuesday, Nov. 19, Mr. Joseph Spetes of Delphos, O. and Miss Maggie Noll of this place. After the ceremony at the church, which was witnessed by a large concourse of invited guests, the bride and groom and invited guests returned to the home of the bride where a sumptuous dinner was served to about one hundred guests. The presents were numerous and grand. The good wishes of warm friends attend these young people in this new relation, and the fondest desires are that they may be unceasingly help-

ful to each other, an honor to their friends and a blessing to the world. Two children of Anthony Smeltzer are very sick with whooping cough. This disease is very prevalent in this community. Mr. and Mrs. C. E. Sholl left on an extended visit to Junction City last week, to visit relatives. Messrs Willard Johnston and Bert Sholl were visitors at Baird's Furnace, Saturday. No. 3 School is progressing nicely under the supervision of J. H. Leonard. Maxville Ohio. The event known as our autumn election has passed into history, and as the result thereof has been of such a peculiar and unexpected nature, that we are minus a rational explanation. We can only hear on the side of the victors, "I told you so," and from the defeated, "I expected it," while the more pious, relegate the result to that mysterious and unfathomable realm, known as an inscrutable Providence. We in our theophilosophic belief, that Providence has not, and will not have anything to do with our elections, but that it will not apply a preventing force, and let us vote as we please. When we look over the field of Waterloo, we must exclaim: truly the American people live by excitement. When a candid observer looks upon a political rally, when he hears music and the frantic shouts of an agitated multitude, when he sees and reads insulting and vulgar transparencies, when he sees the doors of quasi penal institutions unlocked and its inmates brought forward to swell the noisy throng, when party leaders scetter boodle, when law-makers, as supposed representatives of the people, rob a bankrupt state treasury of a twofold pay for one year's labor, just because THEY could do so, by law?—what honest, patriotic thinking man is it, who can not see, rising, in our distant political horizon, the dark cloud of final revolution? As long as the sacred right of an individual ballot can be bought and sold, and as long as Rotheild and Co. can play chess with our National gold reserve and treasury, that long we are incompetent of self government, and are not free American citizens. The immortal Washington describes the pillars on which the glorious fabric of our independence and national character must be supported, when he wrote to the governors of the several states, April 18th 1783, "The prevalence of that pacific and friendly intercourse among the people of the United States, which will induce them to forget their local prejudices and politics, to make those mutual concessions which are requisite to a general prosperity; and in many instances to sacrifice their individual advantages to the interest of the community." Then, and only then can we lighten the string of our national pride and let our eagle soar in the known world, bearing in its mouth the olive branch of peace, good will to oppressed humanity. J. L.
