The rarity of dogs in our city, as shown by the Assessors returns, makes an exhibition of these animals quite a curiosity to the people who travel on Main street. Charley Pierce tells us that on last Monday morning in broad daylight, Mr. V. C. Lowery walked into his grocery and bought a broom. Ordinarily such a transaction is not new. Mr. Pierce keeps good brooms and when we and other families go there and buy a broom, there is nothing thought of it, but when a handsome, good natured, well to do bachelor, like Virgil in the primary article of house keeping, the buying of a broom is significant, and the Printer scents Caka. OHIO STATE FAIR

At Columbus.—Extensive Preparations for the Great Exposition to Occur Aug. 29, 30-31, Sept. 1-3. Most extensive preparations have been in progress for several months and are now being pushed rapidly to completion, for the Ohio State Fair and Industrial Exposition which opens at Columbus on Monday, August 29th, to continue until Saturday, September 3rd. Since the Fair and Exposition of last year, vast improvements have been made on the grounds and to the numerous Exposition buildings, including the painting, in lively colors, of all the structures, so that, this year, the Fair will appear, as it were, in an entirely new dress of the latest pattern and cut in the very height of fashion and according to up-to-date ideas. Assurance is now positive that every building and each department will be filled with a line of exhibits that shall round out as a whole, a grand Industrial Exposition complete in every respect. In the department for flowers, plants and floral designs and for fruits and farm products, there will be the most extensive exhibits and the finest arrangement, displayed in the brick exposition building known as North Annex. Special interest is being taken in the country displays, for which large premiums have been offered. There will be many extensive and fine collective exhibits by counties that will form an interesting feature of the building. On the speed track there will be trotting and pacing races every night. The purses are such as to call out a desirable class of horses for each event on the speed program. The system of electric lighting has been vastly improved and enlarged, so that for the night exhibits in the several buildings and the features on the track, there will be the most perfect electric illumination possible, not only in the buildings and around the track and grand stand, but throughout the entire park and along every drive and avenue. As the grandest and most elaborate special attraction ever presented, the managers have contracted with the celebrated Pain's Fire Works Co. of New York, for the presentation of their very latest spectacular production, "Dewey's Victory at Manila," with the "Destruction of the Spanish Fleet at Santiago," and the "Blowing up of the Main." This spectacular production will be put on with all the scenery, battle ships sailors and costumed performers necessary to vividly represent the great war events. The battle ships will be shown in lively action, with the sinking of Spanish vessels under fire of the American guns. Great quantities of fire works are used in these productions, among which will be symbolic of the war. The reputation of Pain and spectacular productions are world-wide; those to be presented on the State Fair grounds, during the Fair, are his masterpieces. The railways of the State will offer rare inducements in the way of cheap rates and excursions from all points, and with the many decidedly extraordinary attractions to be presented this year, during the Fair, advantage will be taken of the special rates and the people of the State, will attend. "Route of the Veterans" to the 32nd Annual Encampment of the G. A. R. at Cincinnati, Ohio, September 5 to 10, 1898. The Baltimore & Ohio Southwestern Ry., the scenic, historic and popular "Royal Blue Line," and favorite route of the veterans, will, on account of the G. A. R. Encampment at Cincinnati, September 5-10, 1898, inclusive, make a rate of ONE CENT PER MILE from all points on its line, and will have tickets on sale, Sept. 3, 4, 5 and 6th, good going on date of sale, and good for return passage leaving Cincinnati Sept. 6th to 13th, inclusive. Special arrangements have been made for an extension of limit on these tickets, and by depositing same with Joint Agent at Cincinnati between September 5th and 9th and payment of a fee of twenty-five cents, tickets will be made good returning until Oct. 2, 1898. The B. & O.-S.W. has issued a Souvenir Folder and Guide to Cincinnati for the occasion, which will be of much interest and service to those intending to visit the "Queen City," and can be secured with other information by applying to any agent B. & O.-S.W. Ry. or to Geo. B. Warfel, Ass't. Gen. Pass. Agt., St. Louis, Mo. O. P. McCarty, Gen. Pass. Agt., Cincinnati, Ohio. If you see it in the SENTINEL, it is so. Every body reads it. Most every body subscribes for it. THE main issue of the campaign will be against the single gold standard, and the establishment of an imperial form of government as proposed by the Republican Party. Now is the time for Democrats to organize campaign SENTINEL Clubs.
