For Sale.

About a thousand pounds of second hand material, well adapted for a profitable "Independent" newspaper in Hocking county. The material will be sold at reasonable prices. Call at SENTINEL office.

PERJURY

In Our Courts Should Not Be.

President J. J. McCarthy Opinion on Perjury in American Court of Justice.

(From Public Policy)

President J. J. McCarthy made a startling statement regarding the prevalence of perjury in American courts of justice in his address to the Iowa State Bar Association at its annual meeting in Council Bluffs, July 16, 1901.

"Is it true," Mr. McCarthy asked, that perjury is committed in judicial proceedings? I need take no time for the discussion of this inquiry before a representative bar association. It will not record all false statements to lack of memory, visionary exaggeration, or inability to see and understand things correctly.

"Where is there a lawyer who has not seen the guilty criminal pass out acquitted and set free because of perjured testimony? What one of us but have seen the rights of person and of property sacrificed and trampled underfoot, presumably under due form of law, but really and truly by the use of corrupt, false and sometimes purchased testimony?

These are the things that begel distrust and disrespect for the courts and for verdicts and for our boasted forms of law. These are the things that produce anarchy, lynching and invite a just contempt as well as a lack of confidence in those tribunals called courts of justice.

"One judge of long experience on the bench writes me that in his opinion about one-half of all the evidence in behalf of the defense in criminal cases is false. Another judge of equal repute writes that he believes 75 per cent of the evidence offered in divorce cases approaches deliberate perjury. Another writes that perjury is committed in a majority of the law suits and that it is rapidly increasing.

In short with reference to the prevalence of the perjury, the time has come when justice must wear a veil, not that she may be impartial, but that she may hide her face for shame.

Some tell us that the crime is committed mostly in the police and petty courts, where as a rule the witnesses belong to the vicious classes. But the fact remains that it is committed in other courts and by men professing high station in society, church and state.

"Who can blame a poor contest for false swearing when pregameable reputable citizen do the same thing? Why do we expend time and money prosecuting some poor tramp for stealing an overcoat to keep from freezing, when the wrecker of a bank and despoiler of a home, the taker of human life or the embezzler goes unpunished of justice?"

"Why should a nation or a state cry out against discrimination, trusts, combinations and 'watered' stocks, when the very crime that makes them possible is passed unnoticed? Why does the press of a country write voluminous on the constitution following the flag, when the sanctity of an oath that gives both the flag and the constitution their real significance is almost ignored?"

Mr. McCarthy then proposed remedies. He said oaths were too common. He favored the abolition of all official oaths and the emphatic administration of the judicial oath. He believed that the judge himself should administer all oaths; that it should be done with gravity and solemnity, and that the witnesses should be told the extreme punishment that would be meted out to perjurers. Then the law should be enforced. Perjury should be swiftly and severely punished, and if it was so punished, a strong public sentiment would rapidly grow up against it and men would hesitate before committing this most heinous, wicked and cruel crime.

The Central Pacific Oil Co.

We publish elsewhere the advertisement of one of the largest oil companies in the country. The territory embraced in this organization is claimed to be as beautiful in its supply of oil as the famous Texas oil field. A number of Hocking Valley people are residents in Los Angeles, and neighborhood, and those of our readers desiring special information concerning the investment, can easily do so, by inquiring of their friends.

'Uncle Horace' Chapman Tells Why He Approves the Ohio Ticket and Platform

"I have high hope of the Democracy winning out in Ohio this year," said Hon. Horace L. Chapman, of Jackson, Ohio, "for we have an admirable ticket and a proper platform. Yes, I shall take the stump if the boys want me. I have never refused and am always ready."

DEAD.

Mother of Emperor William

And the Eldest Sister of Edward VII—Capitals of Two Great Nations in Mourning.

Cronberg, August, 5th—Empress Fredrick died at 8.15 p. m. The death of the Dowager Empress was somewhat sudden. At 4 o'clock her physician reported no change in her condition. Emperor William and Her Majesty's other children were in the sick room most of the day. They were all around the bedside when the Dowager Empress passed away quietly. Prof. Spethagen and Reubers were also in her room.

At 8 o'clock this evening Emperor William conducted the members of the Dowager Empress's household into the death chamber, and led them one by one, past the bedside, to take a last farewell of their mistress.

Closely following the announcement of the death from the castle the church bells were tolled and the flag half-masted. Visitors to the chapel began inscribing their names in a book placed for the purpose in the hall.

It is said the cause of the death was dropsy, accompanying the cancer. The remarkable vitality of the Dowager Empress astonished her physicians. She retained consciousness to the end. The castle grounds are now surrounded by soldiers and patrolled by hussars and mounted police.

GREAT BUSINESS

In Hocking Valley Coal Fields—New Houses Being Constructed.

A special from Nelsonville says: The coal business was never better in the Hocking Valley than at present. Several new mines are opened and running. The Columbus and Hocking Coal and Iron company, located at Doanville, three miles east of Nelsonville, is building 100 new houses for their employees, as all the houses are occupied, both at Doanville and Nelsonville. Hotels and boarding houses are full of people that cannot get houses to live in.

Nearly every mine is working to its utmost capacity. The long trains of 50 cars each carrying 30 tons follow each other, making an almost continuous stream of coal pouring out of the valley day and night like a huge black serpent winding its way to the market of Indiana, Michigan, Wisconsin, Minnesota and Canada. Taking all into consideration it is doubtful if the Hocking Valley ever did the amount of business it is doing.

Attention! 90th Regt. O. V. I.

The 35th annual reunion of the 90th Regt. will be held at Stoutsville, Ohio, on Tuesday and Wednesday, September 17th, and 18th, 1901. A full attendance is desired as business of importance will come before the association; our brave and gallant brigade commander, Gen. I. M. Kirby will be with us for the first time and he desires to meet as many of the boys of his old command as possibly can be present.

Our mustering officer, Frank P. Muhlenburg of the 12 U. S. Infantry, will be with us as I have word from him to that effect. So, boys, let us turn out in full force and give Kirby and Muhlenburg a grand reception.

JOHN W. TRIMM, Sec'y, 90 O. V. I. Association.

RESOLUTIONS OF RESPECT

At a regular meeting of Swan Lodge No. 358, F. & A. M. held July 7th, 1901, the following preamble and resolutions were adopted:

Whereas I have pleased Almighty God in His providence to remove from our midst our worthy friend and brother, Jesse S. Williams, who has often met upon the level acted by the line and parted upon the square of truth and virtue and passed to the undiscovered country from whence no traveler has ever returned. And in the taking away of brother Williams the Masonic fraternity has lost a worthy brother and the church one of its best members, and the community at large one of its best citizens, whose place it is hard to fill. Therefore be it

Resolved, That we recognize the right and might of an ever ruling Providence and humbly bow in reverence to His divine will, and that the kind sympathy and affection of this lodge of which he was an honored member, be tendered to his widow, family and friends in their bereavement and that this preamble and resolutions be spread upon the records of the lodge and also given to the county papers with request to be printed, and a copy thereof sent to the widow of the deceased.

Respectfully submitted, A. W. MAUK, JACOB THURNISS, E. E. PARISH, Committee.

JOINT DISCUSSION

Let Us Reason Together.

Col. Kilbourne challenges Gov. Nash to a joint discussion upon issues relating to the interests of Ohio.

The SENTINEL challenges the Hillman-Journal-Gazette-Republican, to a joint discussion upon the issues relating to the interests of Hocking County, and Ward township in particular.

Show your colors, come to the front. Unfold the "Banner." Let us have joint discussion.

Mr. Frank Kessler gave his employees an outing on last Saturday afternoon in Tri-amers grove. The day was pleasantly spent, and will be long remembered, as evidence of the good feeling between the employer and his help.

In the last issue of the Commoner which paper is the exponent of Mr. Bryan only, an article is copied from the English dude organ, the Pall Mall Gazette, giving the Pope's opinion on woman's dress. The Pope, a man eighty years of age, and with nothing to do, is most likely to devote his thoughts to the fashions for an English paper, of which Bryan's paper becomes a feeble echo.

Now, since our Cromwell advertises the Pope's opinions on female apparel, it would be in order to have the Commoner's idea on how to pare brows or trim toenails. The Commoner of late, is getting to be very common.

FAMOUS COFFEE CASE

May Go to Supreme Court For Final Adjudication.

Toledo, Aug. 1.—The case of the state against James White, which has been on trial here for a month, has finally reached a closing point. This was an action against White in some only. In the trial the merits of Arisco coffee were put to the test.

White is a Toledo grocer. Several months ago he was arrested on complaint of a food commission, on charge of selling Arisco's Arisco coffee, a coffee, as claimed by the prosecution, that was coated with a substance which made it appear better than it was. There were no charges of adulteration—simply the technical complaint that the glazing used by the Arisco makes the coffee look better than it is.

The prosecution had only a few witnesses. One of them was Professor Kirchmeyer of this city, a chemist in the employ of the food and dairy commission. His testimony was to the effect that the coating on Arisco coffee was a favorable medium for the propagation of bacteria. He also testified that the glazing gave the coffee a superior appearance.

BECKER & COMPANY

Freezing Ice Cream Without Labor. Plumbing Done in First Class Style...

It takes all the pleasure out of eating Ice Cream made at home, if some one has to work hard on a hot day to make it. That used to be the case, but it isn't so now. The Twentieth Century Ice Cream Freezer. Requires no labor. The cream freezes solid while it stands still. It makes the most delicious cream that can be made in any freezer, with equal materials, and it uses less ice. It freezes the cream so hard that it can be put on the table for slicing.

Five Sizes: \$1.50, \$1.75, \$2.00, \$3.00 and \$4.00.

BECKER & CO., LOGAN, OHIO.

GREATER THAN EVER.

Ohio's Agricultural and Industrial Exposition.

AT COLUMBUS AUG. 25 TO SEPT. 7. With Added Glory the Exhibition Takes the Place of the Annual State Fair—An Event of Great Magnitude and of Vital Importance to All Ohioans—Program and Features of Special Days.

The story of the Ohio State Fair since it began, fifty years ago, in two tents and two open sheds, reads like the history of the state. As Ohio in this last fifty years forced herself to the forefront in the sisterhood of states, so the State Fair has steadily grown from its humble beginnings to be first and best of all state exhibitions.

The two weeks covering the period from August 26 to September 7, all eyes and attention in Ohio will be directed toward Columbus and the grand Industrial Exposition of the state that will be then and there in progress. Preparations for which have been earnestly going forward for several years past. Travel to this great central mecca of industry, during its progress, will be from all directions, from every city, town and hamlet in Ohio, and over every railway line. No attraction anywhere will be greater to Ohio people than this Exposition, which will represent in its completeness every industry for which the state is noted, and all the latest devices and inventions now interesting the people, as applied to their arts. This Ohio Exposition, conducted in the sole interest of the citizens of the state and the improvement of their industries, will excel in one very important and pleasing respect any of the extensive exhibitions yet held throughout the country, which respect will be the positive completeness of every detail on the opening day. The serious drawback of most exhibitions has been that many things were in a chaotic state long after the time announced for opening, thus destroying the harmony of such things as were complete and being very annoying to visitors.

The Ohio Exposition management have succeeded in positive arrangements that will overcome all such objections, and when the Exposition opens it will be finished for inspection in every building, in every department, in every class, and the program announced for each day will be carried out with a regularity and clock-like precision that visitors may surely count upon. All the great Exposition Buildings have been completed for several months, since which time the labors of the management have been devoted to ornamenting and beautifying the grand park. All are in a thoroughly finished state, with a harmony of effect in grounds, buildings and park embellishments, the beauty of which will be strikingly apparent to visitors immediately on entering the Exposition gates and viewing the great panorama of architectural completeness and park perfection. Avenues lead from each of the central arch gateways to all portions of the park, and to each of the massive De Witt Buildings, and as visitors

Monday, Aug. 26—Preparation Day. Tuesday, Aug. 27—Preparation Day. Wednesday, Aug. 28—Patrons of Husbandry Day, with reunion of the patrons of Ohio and other states, and complete exhibitions in all departments. Thursday, Aug. 29—Farmers' Day, with continuation of the same program. Friday, Aug. 30—Columbus Merchants' Day, with special exercises at the Central building conducted by the Board of Trade. Saturday, Aug. 31—Columbus Manufacturers' Day, with special industrial program.
