WEALTH AND HOW TO ATTAIN IT

100,000 SHARES OF STOCK OFFERED AT 50c ON THE DOLLAR.

For the purpose of further developing their holding the Company has decided to place One Hundred Thousand shares of stock—par value one dollar—at fifty cents a share.

6 Per Cent Guaranteed for 8 Years

The first one hundred thousand shares, besides being non-assessable, are guaranteed to pay six per cent interest annually for eight years.

Read What The Chicago Western Trade Journal of July 2, Has to Say Editorially:

"Greater fortunes have been made out of oil than any other product Mother Earth has yet given us. Rockefeller could not have acquired his hundreds of millions in a few years through any other source, nor the Standard Oil Company have paid dividends making hundreds and thousands of millionaires out of men who started with but the clothes they work.

Wise ones who get in at the start are sure to make fortunes.

This being the situation, the question naturally arises, how and where an investment in oil development stocks should be made. Common justice to our readers requires that we should advise them as to a reliable company, whose stock are offered on a basis which ensures safety and speedy profits.

The following is from an article which appeared in the Los Angeles Herald of June 2:

"A large number of land holders have just succeeded in consolidating some of the best oil lands in Southern California, and have incorporated the Central Pacific Oil Company—Capitalized for Five Million of Dollars.

If you want some of the First One Hundred Thousand Shares of Stock, send your orders to the Secretary of the Company, A. Samuel Parks or through Wells, Fargo and Co. Express, or to the Broadway Bank and Trust Co., our Los Angeles depository—or direct to
