Mrs. Chas. E. Yontz is visiting in Cleveland.

Mrs. E. C. Steele, of Moscow, Idaho, arrived in Logan, Sunday, for a visit of several months.

Mrs. Helen Bowen is the guest of her daughter, Mrs. John Monahan, of Nelsonville.

Miss Anna Shannon will spend the balance of this week with Miss Katharine Porter, of Vinton.

Mr. and Mrs. Chas. Knowles, of Little Hocking, are visiting Mr. and Mrs. Harry Kirker.

Probate Notice.

Notice is hereby given that the following Accounts and Vouchers have been filed in the Probate Court of Hocking County, Ohio, for First and Final settlement of the Estate of William M. Smith, Administrator of the Estate of Mary E. Bowley, deceased, and the same will come on for hearing on the 10th day of November A. D. 1909 at 10 o'clock A. M. or as soon thereafter as may be convenient.

F. F. MARTIN, Probate Judge.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—
"Sold for over sixty years."
Ayer's

Death of Mrs. Henry James

On Tuesday morning occurred the death, suddenly, of Mrs. Henry James. She had been feeling badly for some time but not confined to her bed. On Monday she and her daughter, Mrs. Fred Grove, did much house cleaning, and she seemed none the worse in the evening, but about nine o'clock began to suffer much with her usual malady of rheumatism. She grew rapidly worse, the affliction affecting the heart, and at sun rise in the morning death relieved her of her pain.

The funeral occurred from the home today, Rev. Wilson officiating.

Mrs. Luitia Jeanetta (Skinner) James was born near Bristol in Perry Co., Ohio, May 19, 1859. When about sixteen years of age she came to Logan, where she remained some time, later she removed to Columbus and on the 20 day of April 1881 she became the wife of James Henry James. From 1882-1891 the family resided in Columbus, coming to Logan during the year 1891, where they have since resided.

Early Tuesday Morning Oct. 23. Mrs. James passed to her reward, aged 47 years, 5 months, and 4 days. The deceased is survived by her husband, and family as follows: Mrs. Fred Grove, Lillian, Erwyn, Merton, Faith, and Herold, and one sister Mrs. Lillie Parks of Columbus.

Some ten years ago she became a member of the Logan Presbyterian Church in whose fellowship she remained until called into the communion of the church above.

A beautiful life is ended. A sweet and unselfish spirit has departed, leaving behind a blessed memory to comfort husband and children in the days to come.

She made this world better for having known it. She died as she had lived thinking of others. "Give her the fruit of her hands; and let her own works praise her in the gates."

Resolutions.

Whereas, it has pleased the Almighty God in His most infinite wisdom to call from our fraternal order here on earth to the great Fraternity which exists in Heaven our beloved brother and Sir Knight, Charles A. Monroe;

And, Whereas he was an honored and useful citizen, a kind, indulgent and dutiful husband and father, a man of unflinching integrity and pre-eminent Christian character, and a faithful, earnest and loyal member of our Order;

Therefore Resolved that it is only with the assurance that his many virtues will be rewarded, and that he has entered into a more complete and fuller life whose happiness is not marred by pain or death that we are resigned to lay away in his last resting place our beloved brother and Sir Knight.

Resolved that in his untimely death our Order has lost a true, loyal and devoted member, who by his patriotism, fidelity and fraternalism has given us a fitting exemplification of the principles of our Order and taught us what a man can be and do in this earthly life; a brother who was ever ready to extend the helping hand in time of need and a voice of sympathy in time of sorrow.

Resolved that we ever emulate his numerous virtues and ideals and appreciate his high and lofty purpose in life; that we bear united testimony of our esteem to the bereaved family and relatives, extend our sympathy to them in their loss and commend them to the Most High who is able to comfort and bless.

Resolved that as members of Queen City Tent No. 379, Logan, Ohio, we drape our Character in mourning for thirty days, and that a copy of these resolutions be sent to the family, be spread upon our minutes and be furnished to the county papers for publication.

H. M. WHITCRAFT,
OTIS W. SOWERS,
J. H. CAMPBELL,
Committee.

Rose-Williams.

At the home of Mr. Alva Rose last evening Rev. White joined in marriage Charles F. Rose and Miss Elizabeth M. Williams, of Shawnee. The couple will make their home in Logan, and have the best wishes of their many friends.

The Labor Question And Humanity

...By...
EUGENE V. DEBS,
Former Socialist
Candidate
For
the Presidency

THE labor question, broadly stated and understood, is the question of HUMANITY. On it depends the welfare of ALL the people. The capitalist system, which springs from feudal times, has divided society into two classes—capitalists and the workers—and these classes are pitted against each other in a WORLDWIDE STRUGGLE. Unfortunately for the workingmen the capitalists own the tools, which in these days consist of machinery. A different state of affairs existed a hundred years ago, when men worked by hand. Then there were no millionaires AND NO TRAMPS. Today we have about 1,000 of the former and approximately 1,000,000 of the latter.

There are 26,000,000 working people in the United States at the present time. Five million are women and 2,000,000 are children. Having no tools of their own, they are forced to enter the labor market, COMPETING WITH EACH OTHER for a livelihood. They do not sell themselves bodily, but they sell ten and twelve hours of their time each day for a stipend.

WITH THE WEALTH THEIR LABOR PRODUCES, MEN AND WOMEN OF THE CAPITALIST CLASS MAKE MERRY IN NEW YORK AND NEWPORT.

The capitalist class is unnecessary to society. Its members do absolutely nothing that is useful. Their function is to spend WHAT THE WORKING CLASS PRODUCES.

Let me use Andrew Carnegie as an illustration. He is a fully developed capitalist and therefore a fully developed parasite. Carnegie owns or practically owns a great modern steel plant, in which 70,000 men toil for a living. These 70,000 men do the work and produce Carnegie's wealth. Carnegie spends most of his time in Scotland and has no more to do with the direction of the steel industry in Pittsburg than if he were on another planet. The same is true of the capitalist class generally.

Politicians employed by capitalists endeavor to keep the workingmen of America divided on ALLEGED ISSUES in which the labor classes have no interest whatsoever. As long as they succeed in doing this the capitalists will hold the reins of power. Both the Republican and Democratic parties are capitalist parties. The Republican party protects the interests of the Carnegies, the Rockefellers, the Morgans, the Hills and all of the great trusts and corporations. The Democratic party represents the small capitalists and the middle classes. IF EITHER PARTY WINS the laboring man loses, because both enact laws to protect capital.

Workingmen of all classes will secure justice only when they control the social machinery, of which they are the greatest part.

THE MIDDLE CLASS IS RAPIDLY DISAPPEARING, OWING TO THE ENCROACHMENTS OF CAPITAL, AND IT IS ONLY A MATTER OF TIME BEFORE ALL MEN OF THE SO CALLED MIDDLE CLASS WILL BE SOCIALISTS.

Wireless Power for Use In Aerial Navigation

By SANTOS-DUMONT, Famous Aeronaut

THE recent ascent of Professor Bell's aeroplane is very interesting, mainly because of the use of WIRELESS ENERGY. Of course force has already been transmitted from a dynamo placed on the ground to a motor on a flying machine of sufficient power TO RAISE IT FROM THE GROUND, and I remember that an experiment of this kind was made comparatively recently at Monaco.

I do not think that Professor Bell's experiment is of very much PRACTICAL value. A flying machine must, if it is to be of any use, be SELF SUPPORTING—that is to say, it must carry its own motor on its own back. Unless power can be transmitted by wireless energy from the earth to a PRACTICALLY UNLIMITED DISTANCE the experiment which Professor Bell is reported to have made is of little real use, for a flying machine worked thus could not fly very far.

Only the Rugby Game of Football Will Survive

By BENJAMIN IDE WHEELER, President University of California

I DO not believe the present experiment in American college football can survive. In my opinion, the WHOLE COUNTRY will within five years be playing the RUGBY GAME.

I hope there will be no hesitation in adopting the Rugby game. The alternative—namely, the adoption of the new intercollegiate—involves also practically the learning of a new game. No man can yet tell what that game will really be. At present it is merely a BODY OF RULES ON PAPER. What will be the effect of the rules requiring the side with the ball to make ten yards in three downs and the rule allowing a forward pass can be established and known only when the proposed game shall have been played FOR A CONSIDERABLE TIME.

The Rugby game is being played all over the globe. Its rules are well understood. The game is known to work. Hundreds of thousands see the game played every week AND ENJOY IT. That it is more interesting to the spectator than the intercollegiate is, I think, unquestionable. To the player it is immeasurably more interesting, inasmuch as it involves more variety and gives EVERY PLAYER participation in the various features of the sport. The old game had made pushing and downing the principal features and had concentrated upon these nine-tenths of the force and activity of the players. Our men enjoy Rugby. It is freer and healthier. I prophesy that this game will be played out of season for the fun of it.

NO ONE COULD PLAY THE OLD GAME EXCEPT WHEN IN TRAINING AND IN COMPANY WITH MEN WITH WHOM HE TRAINED, BECAUSE DEFINITE EVOLUTIONS DEPENDENT ON SIGNALS WERE NECESSARY.

I know of no better service the universities could render the schools than to provide them with a game of football to take the place of the THOROUGHLY DISCREDITED intercollegiate, which, as being a system of evolutions rather than a game and a prolonged mechanical strain rather than a free sport, had proved itself PECULIARLY UNFIT.

:: Fall Clothing ::

IT IS EASY TO MAKE YOUR SELECTION HERE—OUR STOCK IS COMPLETE. Suits and Overcoats for Men, Boys and Children. All the new Cuts and Fabrics of the season—The new form fitting suits, both double and single breasted.

You should see them before you buy, they have all the snap and style of high priced custom made clothing at much lower price.

NO EXTRA CHARGE

You can get a perfect fit at the same time. WHY NOT HAVE IT ? ? ? ? We give you the advantage of the service of our splendid tailor shop, make any change necessary. We have experts to fit them on you. We change the set of a collar, the hang of the sleeves, make the width or style of the pant's legs to suit you, infact anything that will bring out the best results for your individual style or figure.

WE DO IT CHEERFULLY — WE KNOW HOW TO DO IT :: :: :: ::

Have You Seen Them ?

If you haven't yet seen the famous Lattimer-Williams Stoves and Ranges that are being advertised so extensively in the popular magazines, you should call at our store at once.

The L-W Line will interest you because the stoves and ranges are handsome in appearance, well made, have all the modern improvements, and sold at a price which represents a saving of 10 to 25% over what is charged for similar stoves elsewhere. And the special offer we are prepared to make in connection with them will interest you still more.

Why Not Try Them ?

You can have us set up in your own home any stove or range you may pick out, and you can use it for 60 days. If at the end of that time you do not feel satisfied that you have more than your money's worth, and as good a stove as you could possibly buy anywhere, we will cheerfully take the stove down again, and refund every cent of your money.

We are able to make this liberal offer because stoves bearing the L-W mark are good stoves. They are made of the best materials obtainable, by well-paid, competent workmen, and have every improvement that can add to their serviceability and efficiency.

The stove pictured above is a good example—there is nothing on the market that approaches it at anywhere near the price. See it on our floor, let us explain its good points to you, and tell you more about our liberal trial offer.

Farmers' Co-Op. Hardware Co.

Secretary Taft Promised to be Good.

It is understood that Secretary Taft has promised to be good on the occasion of this visit to the Buckeye state, and will wear only his far-seeing glasses, so that his range of public discussion will carry his mind back to the Philippines and Cuba, and will rivet his attention upon the tariff and other national questions. In other words, he will entirely ignore the Democratic issues of bossism and graft, given prominence in the Republican state convention.

Congressman Theodore E. Burton was very anxious to secure Secretary Taft for a meeting in Cleveland, thinking perhaps he might duplicate his Akron performance of a year ago, and his disappointment will no doubt be very keen. But there are three reasons why the secretary of war will help Douglas rather than Burton. The first and most important of these is that the situation in the Eleventh district is considered close and doubtful, and Douglas needs help; the second is that Secretary Taft promised Mr. Douglas long ago that if he came to Ohio to make any speeches, he would visit the Eleventh district; and the third reason is, that Burton's election is assured.

Dread Days of Mud and Cold.

Ask the rural mail carrier how he likes to hear the wind howling through the trees these days, and he will answer you with a shiver and a shrug. The rural mail man is "game" and has no verbal knock coming, but the rising winds and intermittent showers bode ill for him, as he very well knows. It means that deadly enemy of the suburb mail server, the mud, is again on the threshold waiting for its ally, the clouds, to succeed in their attacks against Old Sol, and foil him in his repeated attempts to warm up this old earth and make the weather conditions ideal for the man with the horse and wagon. And before many weeks slip around the cog into the dim vista of the past, the clouds will have succeeded and then the mud will have full and undisputed sway turning the pleasant drive of summer into the monotonous difficult drive of winter. There are few things the rural mail man hates so sincerely as the mud. Snow has not the same amount of terror. It is easy to change from the wheels to the sleds, but the mud—and again the man in the uniform shivers and shugs. Then there is the cold. Ten degrees below zero, think

you, is cold enough around these parts to be engaged in the delightful occupation of being on one of the 600-footers in the middle of Lake Erie, where there may be angry waves—but no mud; and where the danger may be great—but the climate warm and comfortable without the use of camel's hair, cardigan jackets, overcoats, blanket galore, woolen scarfs and a pocket edition of a stove, etc., etc., ad libitum.

Twenty-five miles on days of this kind—with frequent stops and opening of the door to admit the icy blasts—do you wonder that the verbally stoical caller at the farm houses shivering and shugs at the thought of what the near future has in store for him?

Hansel-McBroom.

There will occur tonight at the home of the bride, the marriage of Mr. Will Hansel to Miss Nellie McBroom. The bride is the accomplished daughter of Mr. and Mrs. John McBroom, and the groom the youngest son of Mr. Henry Hansel. We wish the young people a long life of happiness together.
