HERE'S A RECORD

Lovely Weather of Year 1816, When There Was a Freeze Every Month.

There is written history of a season which has the present one beaten to a frazzle. It was the year 1816, which holds the record. The season's were almost reversed, winter being converted into summer and summer into winter.

January and February were warm and springlike. March was cold and stormy. Vegetation had gotten well along in April when real winter set in. Snow and sleet fell on seventeen different days in May. In June there was either frost or snow every night but three. The snow was five inches deep for several days in succession in the interior of New York and from ten inches to three feet in Vermont and Maine. July was cold and frosty, ice formed as thick as window panes in every one of the New England states.

August was still worse; ice formed nearly an inch in thickness and killed nearly every green thing in the United States. In the spring of 1817 corn, which had been kept over from the crop of 1815, sold for from \$5 to \$10 a bushel, the buyers purchasing the seed.

Cincinnati, O., June 3.—The name of M. E. Ingalls, railroad man, has been mentioned by friends as a Democratic candidate for United States senator to succeed Senator Foraker.

He believes that the prospects for Democratic success are bright. Asked about the rumor tonight he said:

"It is too early to make any declaration at this time. It is time, however, for the Democratic party to get together, as we are going to elect a Democratic senator next year."

"I am not an active candidate for the Democratic nomination for the senatorship, but would not refuse the honor of such a nomination."

THE LIGHT, THE WAY, THE TRUTH, Oh Light, whose beams illumine all, From twilight dawn to perfect day, Shine Thou before the shadows fall, That lend our wand'ring feet astray, At noon and eve Thy radiance pour, That youth may love, and age adore.

O Way, thro' whom our souls draw near, To Thy eternal home of peace, Where perfect love shall cast out fear, And earth's vain toil and wand'ring cease; In strength or weakness may we see Our heavenly path, O Love, thro' Thee.

O Truth, before whose shrine we bow, To thee our earliest strength we vow, Thy love will bless the pure and meek, When dreams or mist beguile our sight, Turn Thou our darkness into light.

Systemic Catarrh of Summer

Affects Many Organs of the Body.

"There is no better remedy in the world than Per-na for systemic catarrh." S. B. Hartman, M. D.

A War Veteran's Experience.

General A. F. Hawley, 1304 25th street, N. W., Washington, D. C., writes: "I have used Per-na and find it very beneficial for kidney trouble, and especially good for coughs, colds and catarrhal trouble."

Spring and Summer Catarrh.

There is a form of catarrh especially prevalent in spring and summer, called by Dr. Hartman systemic catarrh.

This form of catarrh especially deranges the stomach, bowels and other organs of the abdomen. The whole mucous tract lining the stomach, liver, bowels and kidneys is in an inflamed condition, and these organs fail to perform their proper function.

Systemic catarrh may be or may not be accompanied by catarrh in other parts of the body. In some cases there is a hacking cough. It may be also associated with catarrh in the head.

But, in typical cases of systemic catarrh all the organs of the abdomen are in a weakened and sluggish condition.

Dyspepsia and Biliousness.

Sometimes it is called dyspepsia, at other times biliousness, or the patient may be suspected of having kidney disease or appendicitis.

Systemic catarrh presents symptoms which resemble closely a great many different diseases.
