

To Bring the Drowned to Life.

At this season of the year when so many fatal accidents are occurring, the following advice by Dr. Valentine Mott, is particularly opportune: Immediately as the body is removed from the water, press the chest suddenly and forcibly downward and backward, and instantly discontinue the pressure. Repeat this violent interruption until a pair of bellows can be procured.

When they are obtained, introduce the muzzle well upon the base of the tongue. Surround the mouth with a towel or handkerchief, and close it. Direct a bystander to press firmly upon the projecting part of the chest to expel the air from the lungs, to imitate the natural breathing. Continue this at least an hour, or until signs of natural breathing comes on.

Wrap the body in blankets, place it near a fire, and do everything to preserve the natural warmth, as well as impart an artificial heat, if possible. Everything, however, is secondary to inflating the lungs. Send for a medical gentleman immediately. Avoid all frictions until respiration shall be in some degree restored.

The Webster Case.

Boston, Monday, July 8. A hearing was held this morning before the Committee on Pardons, in the case of Professor Webster.

A petition was presented for clemency, signed by 988 persons of New York city—two from Franklin county, New York, and two from Michigan.

The Lieutenant Governor stated that a large number of petitions for a commutation of the unhappy sentence were received from all parts of the country—one from Mr. Green, a jurymen in the case, and two or three others from persons who said they themselves committed the murder, and not Professor Webster.

Several medical men were present, and showed that a blow on the head, such as that which Professor Webster said he gave Dr. Parkman, often caused death in a short time.

Mr. Edwin Jarvis cited two instances to prove the unmanageable temper of Professor Webster, and how soon it was over. In one case, Dr. Webster, when a student, commenced the play of knocking off hats with a fellow student, in which Webster got rather the worst of it. Finally, Webster got enraged, seized a stick, and would have given his companion a deadly blow, had he not been prevented. The next moment it was all over with him, and he did not evince the least excitement whatever.

At another time, while in London, Professor Webster was being shaved, when Dr. Lathford playfully remarked, "Did you ever see a barber shave a monkey?"

Mr. Webster was much enraged at this, and seized a knife, and would have struck at Dr. L. had he not been prevented. Dr. Jeffries Wyman was introduced to show that Dr. Parkman's skull was a little thinner than the average of persons.

A petition was presented by Prof. Brown, signed by President Sparks, and nearly all the Professors of Harvard College, praying commutation of sentence, not on the ground of his late confession—he, as they say, having forfeited all claim to be believed—but on the great probability that exists that the act was not premeditated.

Professor Bowen urged a delay in order to obtain more direct petitions in the case. The case was then postponed until the 15th inst.

JUDGE JOHNSTON.—This gentleman is now in the northern part of the State. He spoke at Cleveland, and his speech is reported in the Herald of that city. We shall endeavor to publish this speech entire next week, that the people may understand where our candidate stands. The right spirit seems to prevail among our friends wherever the Judge goes.—The prospect that he will be triumphantly elected is daily becoming brighter.—Let the good and true Whigs show their determination to do their whole duty and there cannot be a doubt of his election. The time for action is approaching. We trust every Whig in Gallia will be found prepared to do his part of the work.

GEN. TAYLOR.—Gen. Taylor was born in Orange county, Va., in the year 1784, and at the time of his death was in his 66th year—forty years of which he has passed in the service of his country.

THE WHEELING BRIDGE.—A telegraphic despatch in the Philadelphia Bulletin, dated Washington 11th says: "Chancellor Walworth, to whom the Wheeling Bridge case was referred by the United States Supreme Court, has submitted to the Court that the Bridge is a nuisance."

The Supreme Court is not in session, and the report could not therefore be made to it, though it might be left with the Clerk. The Washington papers are silent on the subject. We suspect some mistake in the despatch.

St. Louis, July 16, 1850.

The City Register reports 212 deaths last week, of which 77 are reported to have died from cholera. Of the whole number 132 were children under five years of age.

This statement shows a marked decrease of mortality from the previous week.

Cincinnati, July 16, P. M. The deaths for the 24 hours ending this evening, were, by cholera 28—other diseases 42.

Union Meeting of Members of Congress. By the following it will be seen that the members of Congress have held a caucus to agree upon some plan for the settlement of the slavery question:

WASHINGTON, July 12, 1850. The Union caucus of members of Congress, of all parties favorable to the Union, was held to-day. The South agreed to the line, 34 deg. N. lat., as the boundary of New Mexico. All below that line to Texas. Texas agrees to this, and Mr. Clay agrees to it—the North agrees to it—and President Fillmore is contented with it. So that this question bids fair to be settled to the satisfaction of all parties. A proposition is entertained in the caucus to divide California by the same line; and at present time, (12 o'clock), the proposition is still under discussion, with a prospect of being carried.

From Mexico. By an arrival at New Orleans from Tampico, the Picayune has received papers from that port to the 22d and from the capital to the 12th ult., being precisely one day later than previous dates. The English Consul at Tampico has been empowered by his Government to solemnize marriages between Protestants of his country, persons of the same sect but of other nations not being allowed to avail themselves of this benefit.

An American vessel of war arrived off Tampico on the 15th, but did not communicate with the place, and in a few days departed. The Siglo XIX. of the 12th ult., says that the cholera in the city of Mexico had not made so much progress as was feared.

The Government of Saltillo has ceded to Antonio Menchaca the land necessary to form a civil colony at Remolino, in the department of the Rio Grande.

The State of Coahuila has passed a law fining members of the legislature \$100 for non attendance, and if they continue negligent, depriving them of their rights of citizenship during the time for which they may be elected.

We should like to have the handling of that daring calumniator, who said that the ladies are the very reverse of their mirrors, the latter reflecting without speaking, the former talking without reflecting.

HAVING had a very favorable knowledge of Vaughn's celebrated Lithotropic Mixture, we have at length succeeded in obtaining a supply from the inventor. The run for the Medicine has been so great that the inventor finds it impossible, as yet, to supply the demand, our order having been delayed on that account several months. Try it and you will never be without it. See advertisement.

Feb. 8, 1850.

Rheumatism, paralysis, palsy, nervous disease, rheumatism, &c., that have resisted the skill of the best physicians for years, can be speedily and permanently cured by the new and great Arabian remedy called H. G. Farrell's Arabian Liniment; excellent, also, for cuts, burns, sprains, bruises, bites of insects, scalds, &c., and is the best horse medicine ever discovered.

See advertisement. Beware of a spurious preparation called W. P. Farrell's Arabian Liniment, a base counterfeit, which has just made its appearance. July 11, 1850.

DR. S. D. HOWE'S SHAKER SARSAPARILLA. IN QUART BOTTLES.

HAS no parallel in permanently curing, and eradicating from the system all CUTANEOUS ERUPTIONS. Erythema, Pimples, Blisters, Boils, Tetters, Ringworm, Scald-head, Female weaknesses, Chronic Sore Eyes, &c.

Read the following certificate, although nothing extraordinary. ONE ANOTHER HUNDREDS OF SAME SORT. DA. HOWE—Dear Sir: Allow me to say a few words in reference to your preparation of Shaker Sarsaparilla. I have for the last two years been afflicted with sore eyes. I had tried every preparation of the so-called Sarsaparilla, without the least effect, whatever, until I was advised by a friend to try Dr. Howe's preparation. He said he had examined your recipe, and knew for a certainty that you use Honduras Sarsaparilla. Having confidence in my friend, I thought I would try it. I have used it, at this time, three bottles, and you would be astonished at the sight. My eyes are now nearly well; my whole system invigorated, and in fact I feel like another man. So great is the change for the better, that I have no hesitation in recommending your Shaker Sarsaparilla above all others. If you think proper to publish this you can do so, for I am willing to satisfy any person of the truth of the above.

HAMILTON POTTER. All the above diseases originate in deficient absorbent action, and consequent morbid condition of the blood. If we only set the absorbent vessels into active operation they will soon eliminate the morbid matter; that is, in plain English, they will soon purify the blood, and cure all diseases to which its impurity gives rise. No medicine has ever yet been found so certainly and effectually to promote this object as the Shaker Sarsaparilla, as now prepared by Dr. S. D. Howe, of Cincinnati, Ohio. Try it for 1 dollar per bottle, or 5 bottles for \$5 dollars.

For sale by all the principal Druggists, and by the proprietors. DR. S. D. HOWE & CO., No. 1 College Hall, Walnut street, 2 doors above 4th, Cincinnati, Ohio.

WE DAILY bear of the most astonishing cures being effected by that great and popular medicine, the genuine

H. G. FARRELL'S ARABIAN LINIMENT.

The greatest remedy ever discovered for almost all complaints requiring an external application, either in man or beast. In the short length of time it has been introduced to the people of the United States, it has gained a reputation unequalled by any other medicine in the known world. Why is it? The answer is plain: because no medicine of the kind has ever been put before the public so deserving of the rich laurels it has acquired; and it will continue to gain friends as long as it performs the most extraordinary cures of various descriptions, afflicting the doctor and all other remedied had. We do not only say that the genuine H. G. Farrell's Arabian Liniment can and does perform cures which no other medicine can do, but you have been fortunate enough to witness it. Why is it? The answer is plain: because no medicine of the kind has ever been put before the public so deserving of the rich laurels it has acquired; and it will continue to gain friends as long as it performs the most extraordinary cures of various descriptions, afflicting the doctor and all other remedied had. We do not only say that the genuine H. G. Farrell's Arabian Liniment can and does perform cures which no other medicine can do, but you have been fortunate enough to witness it.

THEODORE SMITH, of Mudd Creek, Tazewell Co. Va., says: "I had lost the use of my arm for more than a year by palsy or paralysis; the flesh had entirely withered away, leaving nothing but skin, muscles and bone. I tried all the best doctors and all the remedies I could hear of, but they did no good. I then commenced the use of H. G. Farrell's Arabian Liniment, and a few bottles entirely cured me, and my arm is now as strong and steady as the other. It is also first-rate for burns, sprains and bruises. The celebrated Doctor JAYNE, whose reputation as a benefactor to mankind extends over the whole world, reports that a lady of one of the first families in Philadelphia had been confined to her bed for several years with Rheumatism, and was cured by H. G. Farrell's Arabian Liniment. He also says: "Your liniment is going rapidly; send me a supply immediately by Leech's fast line."

My daughter, when 6 months old, was taken with a swelling in the tonsils, which grew larger and larger, till when 6 years old she had great difficulty in swallowing her food. Every night, when she was put to bed, she would weep and cry, and she would not sleep. The best doctors attended her, but could give no relief. I took her to the most eminent doctor in the East; they said there was no help for her but to cut it out. With a sad heart I returned home with her, when she became so much worse that the doctors had to be called in again; they said they would cut it out, as the only means of giving relief. My wife would not consent to this, and she determined to try your liniment, which gave relief the very first application, and by a continued use she entirely recovered. She is now 10 years old, and healthy and healthy as could be desired. Your liniment is also the best in use for sprains, bruises, cuts, burns, headache, &c.; and it will remove the most severe pain in a few minutes. It also cured caked under in my cow in a few days.

GEORGE FORD. Peoria, March 20, 1849. Mr. H. G. Farrell: Your Arabian Liniment is the greatest medicine for horse flesh in the world. I had a mare about to rise, when she became so helpless that she could not rise from the ground; she was in that way for several days, when with seven others I succeeded in raising her up, which was the only way it could be done, when I commenced the use of your excellent liniment, rubbed in well over the whole, and astonishing as it may appear, before I used up a bottle of the dollar size, she was able to get up and walk herself. I would not have given ten dollars for her before, and many advised me to shoot her to put her out of misery; she is now one of my best mares. I suppose it was a strain in the joint.

G. W. HUNT. Peoria, Ill., July 2, 1849. LOOK OUT FOR COUNTERFEITS! As they are in circulation. The true and only genuine H. G. Farrell's Arabian Liniment always reads with H. G. in his initials, before Farrell's, thus, "H. G. Farrell's Arabian Liniment," and his signature is also on the label of the bottle, and these words are blown in the glass bottle, "H. G. Farrell's Arabian Liniment, Peoria." Do not touch any other, and look well before you purchase, or you will get imposed upon.

Manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale Druggist, No. 17 Main street, Peoria, Illinois, to whom all communications must be addressed. For sale by MAGUET & NARET, Gallipolis; G. W. Cooper & Co., Chester; Kinton & Stevens, Pomeroy, and regularly authorized agents all over the United States. Physicians, Surgeons, and Apothecaries, TAKE NOTICE.

THAT we have made arrangements with an Eastern Importer of Drugs to receive fresh supplies of the latest importations. This arrangement will enable us to obtain goods at an exceedingly low price, and of pure articles, as they will not pass through the hands of dealers after they are inspected, and there will be no opportunity afforded for adulterating them. We are now in receipt of

Day.—Forwarded from the latest importations, comprising every article usually kept in this market, together with those new and finer preparations in which the East or physicians have had the monopoly, such as Citrate of Iron and Quinine, Glycerin, Colloidin, Chloroform, Lethogen, genuine white Cod Liver Oil, Monasia, pure Batters London Calomel, Iodide of Iron, Iodide of Mercury, white crystallized Nitrate of Silver, pure old Port and Madeira Wine in bottles; all of which we have tested, and will warrant. It has been our aim to anticipate every demand of the physician, and at the same time to select such articles as would prove reliable in the hands of the practitioner, saving him the disgrace of being duped into the administration of inefficient remedies, and ourselves the mortification of having obstructed the efforts of science to relieve human suffering.

All our preparations, Tinctures, &c., &c., are made according to the recommendation of the U. S. Pharmacopoeia, and are for sale in a legitimate way, as we keep no wagon to send out to huckster off deficient preparations.

Paints of every variety, Paint Brushes, &c., &c. Fine brown Tanners' Oil, Linseed, Sperm, Lard, Olive, Eastern Castor Oil, and every variety of Essential, distilled and volatile Oils.

DRUG STORES.—Logwood, Camwood, Brazil wood, Fustic, Nicaragua, Madag. Red Sanders, Annetto, Cochineal, Copal, Indigo, Oil Vitriol, Blue Stone, &c., &c.

Hobensack's Worm Syrup.

NO MEDICINE has ever obtained a higher or more deserved reputation than Hobensack's Worm Syrup; it is daily effecting some of the most astonishing and wonderful cures that have ever been recorded in the annals of Medicine.

We would that the public should know that a remedy is at hand that can be relied upon in the most extreme cases where worms are the primary cause of their suffering. And those who are pining away a miserable existence, under the supposition that they are dyspeptic, when Worms are actually preying upon the very vitals of their life, should use Hobensack's Worm Syrup ere it is too late.

Evidence certifying to the wonderful efficacy of Hobensack's Worm Syrup in expelling worms, and a Mother's grief changed to joy by its use: This is to certify, that two or three weeks past, two of my children were attacked with worms. I used every remedy I knew, but without effect, they yet growing worse, until the disease assumed an alarmingly fatal character, that I and all who saw them, felt assured that death must soon close the scene, if relief was not soon obtained. One of them presented a fearful picture of suffering; she was literally alive with worms, her countenance had a pallid, death-like hue, her breath extremely offensive, her frame wore down to a mere skeleton, and all the symptoms attendant upon worms of a highly aggravated state. To such a fearful extent did the disease arrive, that she passed worms from her nose, followed by copious bleeding. At this time I obtained a bottle of your Worm Syrup, and gave it with but little hope, but wonderful to say, after a few doses, a
