

REPUBLICAN STATE TICKET

For Secretary of State, MILTON BARNES, of Geary county. For Judge of the Supreme Court, W. W. BOYNTON, of Lorain county. For Member Board Public Works, JAMES C. EVANS, of Delaware county.

REPUBLICAN COUNTY CONVENTION.

The Republicans of this County are invited to meet in Mass Convention, at the Court House in Gallipolis, on Saturday, June 3d, 1876, at 1 o'clock P. M., for the purpose of nominating one Commissioner, one Infirmary Director and one Coroner.

Also, for the transaction of such business as may properly come before the Convention, including the appointment of a County Executive Committee, and the selection of fifteen delegates to represent the County in the Congressional Convention.

Every Republican in the county is invited to attend, and take part in the work of the Convention. Come out, and let us open the Centennial campaign with a live meeting.

The Kentucky Republicans held their State Convention at Louisville on Thursday. They present Barrow for President in words that would stir the patriotism of the most indifferent. We copy from the Cincinnati Gazette report:

The following section was read, and caused great applause, hand-shaking, and hat-throwing: "As Kentucky gave Abraham Lincoln to the country and to mankind, for the great work by him, she now presents Benjamin H. Bristow to complete the correction of the ills ever incident to war. His past conduct in office is an earnest evidence of the true course. He has been true to Republican principles in war and peace, ever manly, calm and courageous, and ever faithful in the discharge of his duties. His persistent and successful warfare against corruption deserves the thanks of all the friends of honest government. In thus presenting and commending our fellow-citizen to the Republican National Convention, we are not unmindful of the distinguished services and worth of other Republicans of Kentucky who are candidates such men whose allegiance to the party has been proved, and who have the moral courage to enforce the law."

Up to this point the proceedings had been tame enough, but pending the report by the districts of their delegates to Cincinnati, Hon. W. S. Goodloe, of Lexington, took the stand. For about twenty minutes the Convention was raised to the highest pitch of enthusiasm by the fervid eloquence of a speaker. Alluding to the objections to Bristow's nativity, he said the men of the North did not know

WHAT IT HAD COST TO BE A UNION MAN in the South during the days of '63-'65. "It was easy enough to be a Union man in the North, shut up within their secure borders, but in Kentucky it was a man's very life. It is no wonder that the Union men of Kentucky cling to the Republican party as the Christian clings to his cross. They refer to Johnson, Andrew Johnson, if born on the soil of Massachusetts and in Faneuil Hall, would have been the same political apostate and traitor that he was, and Benjamin F. Bristow, if born under the palmetto tree, would have been the same pure and incorruptible patriot that he is to-day."

This man is a model investigator of Republican officials. No doubt he would be happy to investigate Grant's Vicksburg campaign.

A CORRESPONDENT of the Columbus Dispatch is authority for the statement that the Railroad from Grand Haven, Michigan, to Gallipolis, represented by Mr. Gross, is now well advanced by the sale of ten millions of dollars of its bonds. The road is regarded with good favor by the Baltimore and Ohio Railroad, and by the people of Milwaukee, Wis., a point of grain export almost as extensive as Chicago. The correspondent predicts an early commencement of the location of the road.

THE National Prohibition Convention met in Cleveland last Wednesday. Hon. Green Clay Smith, of Kentucky, was nominated for President, and G. T. Stewart, of Ohio, for Vice President.

SAY to a Democrat—"Well, Allen carried off the honors at Cincinnati," and in almost every instance he will reply, in a solemn, stammering way, "Oh, ah—shucks."

PENDELTON's action in the Kentucky Railroad claim hasn't damaged him with the Ohio Alliance. He was made President of the Cincinnati Convention.

EASTERN democrats declare their conviction that the course pursued by the Ohio Democrats will render National success by that party in the coming campaign an impossibility.

"The Ohio Democratic Convention has covered itself with disgrace and derision," says the Baltimore Gazette. Democrat. The Democratic organ at Cleveland, says the platform means "inflation and repudiation." We are sorry for the good name of the country, that the Gallia delegates aided in this disgraceful business.

A TERRIFIC storm of wind, rain and lightning passed over Columbus and vicinity Sunday, prostrating fences and trees, and flooding the streets.

PRESIDENT GRANT expects to make a tour of the world upon the close of his term of office.

THE proceedings of the Inspiring State Convention are inspiring reading for a Republican.

A TERRIBLE steamboat disaster is reported. The side-wheel Evansville and Cairo packet Pat. Cleburne, while trying to land alongside of the Arkansas Belle, 3 miles below Shaweetown, at 11 o'clock on Wednesday night, exploded her boilers, took fire and burned to the water's edge. Fifty or sixty feet of the Arkansas Belle was wrecked, and both chimneys knocked down. Over thirty lives are reported lost. The Captain of the Pat. Cleburne, D. G. Fowler, was caught in the debris and burned to death in sight of his own and the Belle's crew, who could render him no assistance.

In the battle between the Politicians and the People in this city yesterday the power of earnest men devoted to a cause was made manifest. The politicians had the party machinery; they packed the Convention so far as able; they misrepresented whole counties; they had money and they had discipline, but they couldn't stand before the will of the people.—Cincinnati Enquirer.

"The will of the people," indeed! In Gallia, a few of the "Politicians" chronic office-seekers, met in the office of the Bulletin on dark evening, and packed their Allen delegates, and this the Enquirer calls "the will of the people!" The people had no more to do with the matter than the good of the country had to do with the Convention. It was a packed convention all the way through, and it turns out the Allen men were the most successful packers.

The Money power inside of the Democratic party is making hot and furious war upon William Allen. The bankers and bondholders who call themselves Democrats are all shouting for Thurman.—Cincinnati Enquirer.

The Eleventh District, whose congressman is for Allen and greenbacks, sends a "banker and bondholder" a delegate to the National Democratic Convention, and according to the Enquirer classification he shouts for Thurman. Is there discord in the Eleventh District, or is the party secretly for Thurman and hard-money, while openly for Allen and greenbacks? Who can tell?

The Volksfreund, the leading German Democratic paper in Cincinnati, refuses to accept of the action of the Bill Allen convention. It says: "We do not recognize the platform so far as it relates to the finance question, but we support the National Convention in St. Louis. We hope better principles will prevail there than was the case here. So far as the instructions for Allen are concerned, we hold them to be without significance. Allen has no chance of being nominated at St. Louis."

This is an important break in the democratic column.

Vance's associate in working up the business of the Government printing office, is a member from Mississippi, named O. R. Singleton. The Washington correspondent of the Cincinnati Enquirer gives a brief history of the man. He was a secessionist of the rabid style. The following incident of his intense hatred of the Union is related:

I well remember hearing a friend describe an interview he had with him at the Burnet House, in Cincinnati, when the country was on the eve of war. In discussing the question of secession Singleton gave way to his passions, and grasping a tobacco-jar that stood at hand, livid with rage, he dashed the glass vessel in a thousand pieces, saying: "There! If I had the power I would dash this Union in as many pieces as that!"

This man is a model investigator of Republican officials. No doubt he would be happy to investigate Grant's Vicksburg campaign.

Some idea of the importance of the Money Power in politics can be gathered from the recent fight in Connecticut over the seat in the Senate made vacant some time ago by the death of O. S. Ferry.—Cin. Enquirer.

Yes, and besides, "some idea" of Democratic corruption, for the "money power" here referred to was altogether Democratic. There has never been a more corrupt transaction in this country than that which has recently occurred in Connecticut in connection with the nomination of a United States Senator. Money, boldly used, bought the position. All the parties to it were and are Democrats—the Legislature and the candidates—and these are the men that propose to reform governmental affairs! There were two candidates for the nomination, English and Barnum. English is said to have spent not less than \$20,000 in the contest, but Barnum is supposed to have spent a much larger sum, as he came off conqueror. It seems to have been on a level with what Democrats charge in regard to the election of Senators by carpet-bag legislatures in the South.

There is no political reform in such men. If corrupt in seeking office, they will be corrupt in office.

In addition to the Bill Allenites of Ohio, another political organization has sprung into existence demanding of the government an issue of greenbacks equal to their wants. It appears under the name of the "Greenbackers." Its National Convention was held in Indianapolis last week. An attempt was made to capture Ohio's Bill Allen and make him their candidate for President, but the old man replied that he could not go out of the Democratic organization to accept nominations. They then nominated Peter Cooper, of New York, for President, and Newton Booth, of California, for Vice President. Cooper is only 88 years old, but it is said he too declines the honor.

What a pity it is the government won't give these men all the money they want, so that they can continue to live in idleness.

For the Gallipolis Journal. CHESHIRE ITEMS. The late freight and copious rains have started vegetation to growing at a fearful velocity.

Yes, "Bliz" Cheshire has a barrel-factory and a great many other improvements, such as Addison never will have. The factory is now in successful operation, having six machines, run by steam, which are used to cut, buck, plain and joint the staves, saw and round the heading, leaving but little work to be done by hand.

Considerable excitement prevailed among the inhabitants on the valleys of the Little Kyger and Turkey run a few days ago, for it was reported, and believed, that a wild animal (supposed to be a catamount or panther) was roaming at large in the woods, as a peculiar noise, sounding like the barking of some wild beast, could be heard every night. The people armed, turned out in mass, and it was soon reported that the animal had been seen, and a horrible description was given. The search continued every night for several weeks, but without success from all parts of the county were sent for, some of which was reported good for all to atoms. The chaps that had been making the noise by applying through a hole in a tin can, finally concluded that it might be safe to call the joke no further; there was several parties of them and when one would make the noise and get the hunter started in that direction, one of the others would start the music in another locality.

A correspondent of the Pyramith Republican has been circulating round here, and writes thus about Rio Grande: This place is situated about twelve miles from Oak Hill, and is a Gallia county town. It is a beautiful location on high ground. A few dwellings, and one grocery kept by J. C. Gross, mark the spot. Mr. Gross has built up a large business by his trading and close attention commands the confidence of the entire community around him.

A little to the left as you ascend the hill, stands the almost finished Atwood Institute, endowed by Mrs. Permelia Atwood, now Mrs. Wood, who resides about a mile from Rio Grande. The building has an imposing appearance with its mansard roof and cupola with four clocks to denote the time of day. It has fifteen rooms, well ventilated, every room with four hot air registers.

The building will be used for lectures, concerts and exhibitions of various kinds. Near the Institute, Mrs. Wood has a well equipped and large dwelling for the accommodation of the students. The building will be finished about October next and will cost \$13,000. She has endowed \$100 a year for the expense of the building.

Don't like the Ohio Democrats. There is very general dissatisfaction among Eastern Democrats, with the action of the Ohio Democratic Convention, yesterday, on the financial question, and several do not hesitate to declare their conviction that the course pursued by the Ohio Democrats will render national success by the party in the coming campaign an impossibility. There is a morbid determination on the part of these Democrats to take immediate steps to kill off the Ohio movement.

At 1 o'clock Saturday afternoon a severe storm passed over Pittsburg, Pa. It was of short duration, lasting not half an hour, but did considerable damage. Several buildings were damaged, but so far as known, no lives were lost. The lightning struck a chimney of the new St. James Avenue Hotel, while the guests were at dinner. The falling chimney crushed in the roof of the kitchen, slightly injuring eight girls, employees of the house.

Struck by a Train. Perry Savage, a young man twenty-three years of age, who lives in Gallia county, Ohio, was yesterday morning struck by a train on the Marietta and Cincinnati Railroad, about a mile and a half from Ludlow. It seems that Savage, seeing a passenger train approaching on one track, jumped off upon the other line, when he was struck by a freight train coming the other way. He was thrown out the track and picked up in an unconscious condition by Andrew Schaffer and John Smith, of St. Bernard, who brought him to the Cincinnati Hospital in an express wagon. He appears to be suffering from concussion of the brain, and has a frightful scalp wound on the back of his head, but the physicians think he will recover. Cin. Com. of Saturday.
