Heard From Vermont!

The latest Republican estimates place the majority at 28,000. This is a fine accompaniment to the election in Oregon. Let the ball roll on.

Estimates.

On a revised and corrected estimate of Democratic majorities, California is set down at twelve thousand, and then follows Iowa and Ohio in the Democratic list. We refrain—with the suggestion that the news be wired to Cal Brice, the intellectual end of the Democracy.

Who Pays the Tariff?

The Democratic orators, and Grover, too—although he is not an orator—claim that the consumer pays all the duty imposed on foreign goods sold in this country, be they high or low; that the duty must be added to the cost of production and paid out of the consumer's pocket. Major McKinley has ably shown the fallacy of this view in his Atlanta speech. There is a feature of the free trade agitation which should be considered by every voter in the United States, and that is the active part taken by British manufacturers. Let the voter seriously ask himself if the above idea, as represented by the Democrats, be true. Then why do British manufacturers advocate free trade? It cannot affect them, whether it is high tariff or low tariff, or no duty at all. Surely this is worth consideration on the part of the voters this fall.

That Convention.

It appears to the NEWS-HERALD at its remote distance from the seat of dispute that the contention over the result of the Judicial Convention held at Greenfield at which Judge Evans was nominated for re-election, is one of words and not of principle. (It is one of the weaknesses of the press, to indulge in fine phrases or bitter invective.) There are times when this is not only laudable, but an imperative duty. There are other times, and the present is surely one of those, when the duty of the press lies in an opposite direction. At this present time what is to be gained by the Republican organs of Ross and Fayette counties publishing the unpleasant recollections of past conventions? Highland county's organization has had tender spots, but for the public wead they are buried and forgotten. And for the general advancement of the principles of Republicanism throughout the counties of Ross, Fayette and Highland this war of words should cease. The principles and measures held and advocated by the Republicans of Ross county are identical with those held by Republicans of Fayette county. And the same may be said of the Leader, Herald and Cyclone, and the NEWS-HERALD comes in on this. We are all equally interested in the result of the coming November election. Shall we not unite our efforts and labor that the Republican majority may be greater in this district than it has been in any of the past years? What can possibly be gained by any county in this district, nursing a real or imaginary grievance, save giving aid and comfort to the Democracy and furnishing that old organization, against which we have vowed eternal warfare, with substantial aid, and that aid being furnished by members of our own household?

Republicans and Republican editors of this sub-division of the Fifth Judicial District, there certainly is urgent reason why this thing should now stop, and when you do stop cast your eyes towards Highland county and behold us as a band of loving brothers waiting for the fray. When all is ready give us the signal, and let the advance be by solid column, and we will give the enemy such a charge that the result of '88 will not be soon forgotten.

[From another correspondent.]

The two colored gentlemen, James Hardin and George Williams, (stone masons) from Hillsboro, who have been employed to build a large stone culvert in our village are doing work that will add greatly to their credit as first-class workmen. The culvert when completed will be one among the best jobs of stone masonry in the county. The Building Committee overseeing the work is well pleased with the same. Prof. D. S. Ferguson moved his family last week to Hillsboro. The Prof. resigned his position as principal of the Leesburg School to accept a position in the Hillsboro College. The majority of the citizens of this place will feel the loss of Prof. Ferguson and his estimable wife who had a warm place in the hearts of the people. While we mourn the loss of such honored citizens we are made glad to know that we gain two highly esteemed families, Prof. J. M. Kay's, of Hillsboro, and J. C. Harcum's. We welcome these two families. Our worthy Clerk of Common Pleas Court, J. H. Keech, was on our streets early Tuesday morning last executing pension papers for an old soldier whose health would not permit of his going to the Clerk's office to get same done. Who else besides Honest John Keech would leave his business, hire a livery rig and drive eleven miles to accommodate an old soldier by executing his pension papers free of charge? We say not one in a thousand would do it. Honest John is a hustler when it comes to fixing up pension papers for old soldiers. Although not drawing a pension himself, having been lame before entering the service, he knows how it is to have been there. He was also a prisoner. John did not remain in our town but a short time, as he was anxious to get back to see the Scott Dragoons leave for camp at Columbus. He says the Dragoons are the best military company in the State. A very large majority of our citizens in this part of the county consider Mr. Keech one of the best clerks Highland county ever had and will use all honorable means to secure his election for another term. He has every qualification for making a good officer. Democrats as well as Republicans should see to it that he is elected again.
