

The News-Herald.

OFFICE IN POST-OFFICE BUILDING

MAY 5, 1892

Water works election next Monday.

Miss Nellie Ferrin spent Saturday and Sunday with friends in Bond Hill.

Miss Sarah Richards has returned from an extended visit in Washington, D. C.

Miss Lallah Richards is entertaining her friend, Miss Nettie Patton, of Sinking Spring.

Abe Fisher, of the Bent Wood Works, is in Richmond, Ind., this week on a business trip.

Mr. Frank Emmerling left on Tuesday for Asheville, N. C., where he will remain for a month.

The special election next Monday will be held in the Council Chamber between 6 a. m. and 6 p. m.

Miss Margaret Ferris returns this week from Chicago, where she has been visiting for a month past.

Mrs. Judge Steel and her daughter, Miss Besie, have returned from a three months' stay in Washington, D. C.

Mrs. Dudley Larrimore and children, of New York, are the guests of her parents, Mr. and Mrs. W. A. Morrow.

Mrs. Frank Benham, of Lebanon, O., returned to her home on Tuesday after a visit with her sister, Miss Eva Richards.

Messrs. Woodward Devoss, of Greenfield, and Otho Ferneau, of Bainbridge, spent Sunday and Monday in this city with friends.

The annual meeting of the Highland County Bible Society will be held in the Presbyterian Church next Sunday evening at 7:30 o'clock.

The Orange Tea given in the lecture room of the Presbyterian Church on last Friday night was largely attended and a neat sum was realized.

Do not forget to go to the polls next Monday and take a neighbor with you. Vote water works—yes, unless you want to see Hillsboro fall back a step.

The first oboe ever owned in this county is now in the possession of Mr. Olph Doggett, of the Hillsboro Military Band, and will be played at the coming "Pop."

Do you want to see Hillsboro advance; do you want more factories and more business; do you want safety from fires, more convenience and more comfort in your homes, better water, better drainage and better health? Vote water works—yes, at next Monday's election.

A large barn on the farm of Mr. Elza Koush, who lives near Fairview, was burned with all its contents on last Wednesday night. Three valuable horses, two wagons, a buggy and a number of farming implements were lost. The loss is about \$1,000, with no insurance. It is supposed to have been the work of an incendiary.

Henry Schwartz, a tramp who has been making himself a nuisance to the people of Concord township, was brought before Mayor Dawson on last Monday and bound over under the "tramp law" to await the action of the grand jury. The fellow has been entering houses in that part of the county and refusing to leave when ordered out.

The plans and specifications for the proposed system of water-works are on exhibition at the Clerk's office, and Mr. N. H. Ayres will take pleasure in explaining them if you call. You can see whether you are on the pipe line and whether or not you will be afforded fire protection. There are twenty-three fire plugs called for in the specifications that are not shown on the plans. These will be placed where they will be most needed.

Dave O'Brien, "risen like a Phoenix from its ashes under the Tyson treatment for alcoholism," and a first class company of rank failures appeared before about 175 people at the Armory last Friday night in the extraordinarily poor play, "The Young Hero." If cabbages were ripe or the Easter season had not absorbed the egg crop the company would have had a warm reception. It was decidedly the most James Owen O'Conneresque show of the season and we would rather have David stick to whisky than to run the risk of his coming again.

Very few, perhaps, of the immense audience that witnessed the daring performances of the two principal bareback riders of John Robinson's circus last Wednesday, were aware that the rider in the north ring and the one who won the most applause has made his home in Hillsboro for a number of years and had just joined the company that afternoon. His name is Walter Heathly and for the past three years, when not traveling, he has worked here for J. R. Steen, H. J. Ervin and others. For the past few months he has been a fireman at the Electric Light Works and had announced his intention of quitting the circus, but when the tents went up last week the fascination proved too great and he again donned the spangles. Newt Langley, another Hillsboro boy, plays the clarinet in the circus band.

An Opera House Hillsboro's Greatest Want.

One of our greatest needs is an opera house, not only for public amusements, but for conventions and political meetings. The only hall we now have is in a third story and, while difficult of access, is by many considered unsafe and avoided.

What we want is a hall on the ground floor with easy access and egress, free from any combination with other buildings and with sufficient seating capacity.

There are two ways this can be secured. One is by forming a joint stock company of say ten thousand dollars; the other is by providing a bonus of such a sum as will induce some one to erect such a building. We believe that either of these plans is practicable and they are now being talked of in a business way, and we believe our people should at once take hold and indicate which of these plans they prefer.

So far as we are advised the intention is to erect an opera house of seating capacity for say 1,000 persons to include a balcony. Say seven hundred orchestra chairs and three hundred balcony seats, all fitted up in the most modern style, lighted with gas and electricity, large, commodious stage, dressing rooms, etc. The whole can be completed for about ten thousand dollars, including the ground, and located in a very eligible and desirable place.

While it is not probable that the investment would be a profitable one in direct dividends, yet the general advantages would justify its construction if it never paid a cent. The probability of its not being a paying investment deters private parties from taking hold and constructing it on private account, yet we believe if a reasonable bonus should be given there are parties who would do the building and assume the risk.

HEAVY DAMAGES.

Wm. H. Loyd Gets \$9,000 From the B. & O. S.-W.

The trial of the case of Wm. H. Loyd vs. the B. & O. S.-W. R. R. for damages for the loss of a leg by the plaintiff, who was a freight brakeman on the road of the defendant, occupied the greater part of last week in court at Chillicothe. The jury on Thursday returned a verdict for the plaintiff for \$9,000. Billy's many friends here, where he was once in business, will be glad to learn of the successful issue of his suit.

Remember the Y. entertainment on Thursday evening, May 12th. Reserved seat tickets 35 cents.

Mr. Oren Stafford, formerly a resident here, but now of Altona, Kas., has been visiting here for the past week.

The official duties of Mayor Davis will not interfere with his legal business, and he will continue in the practice of his profession.

The C. T. Pope farm of 177 acres on Clear Creek was sold at Sheriff's Sale last Saturday to S. P. Scott at \$22 per acre. The appraisement was \$31.

The most pleasant event of a life time will be to witness the biblical drama, "Jephtha and His Daughter," at Armory Hall, Thursday evening, May 12th.

The firm of Dawson & Duckwall has dissolved partnership. Capt. Dawson will remain at the present stand, while Mr. Duckwall will locate his office in the Merchants' National Bank building.

Mr. Josiah Santee, father of J. C. Santee, of the firm of Walker & Santee, died at his home in Greenfield on Monday night at the age of 83 years. The funeral services will take place at Greenfield this afternoon.

Hillsboro has been talking water-works for ten years. Next Monday will give you a chance to express at the polls the opinion you have held all that time. What council wishes is a full and decisive vote on the question, whether it be yes or no. Go to the polls.

If any have been opposing water-works for fear the proposed expenditure would not furnish an adequate supply of water for the outskirts of the city, let them look at the plans on exhibition in the Clerk's office. 52 plugs cover the town fully, but the other 23 will make assurance doubly sure.

The W. O. T. U. convention of the 23rd district will be held here to-morrow and Friday. The day sessions will be held at the Presbyterian Church and the evening services at the Methodist Church. On Thursday evening Mrs. Frances Lester, of Mansfield, will deliver an address, and on Friday evening Clara C. Hoffman, of Missouri, will lecture on "The problems that face us."

Col. W. H. Glenn, Capt. E. Carson, J. H. Richards, E. O. Hetherington, Mayor Davis, D. Q. Morrow, Ellis Pence, Fred Kelly, Phil Kramer, J. Y. Dean, Dr. V. E. McConnaughey, Ewing Newby, and E. V. Barrere left on Tuesday afternoon for the Republican Congressional Convention. Irwin McD. Smith and Squire Maddox went on ahead to fix things. The delegation will be increased by others from Lynchburg, Leesburg and Greenfield.

The success of Hood's Sarsaparilla is because it possesses true merit, and no claim is made for it which is not fully supported.

WATER-WORKS.

Plans and Specifications for Their Construction Received.

The council committee on water-works on Monday received from the firm of Johnson & Flad, of St. Louis, plans and specifications for the proposed system of water-works and a revised estimate of the probable cost of erecting the system. According to the submitted plans the water supply is to be derived from driven wells in the Clear creek valley.

The Cook Well Company, also of St. Louis, estimate the cost of experimental wells at not more than \$300. This includes the driving of the wells, the tests of their capacity by means of immense pumps and the chemical analysis of the waters. In the estimates of the cost of erecting the plant are included the engine and boiler house with brick smoke stack; the water tower 160 feet high, with foundation; two 1,000,000 gallon pumps; two 80 horse power boilers, with attachments and all necessary steam pipes, valves, etc.; 75 hydrants set in place with connections; three drinking fountains; 8 1/2 miles of 10, 8, 6 and 4 inch pipe; valves and boxes; excavations, and wells and suction pipe for the delivery of 1,000,000 gallons complete. The total estimated cost of all these items of the specifications, with 5 per cent. added for contingencies, is nearly \$10,000 less than the sum we have been authorized to pay. Of these seventy-five hydrants, fifty-two are located on the plat as follows:

Insurance.
The undersigned has been a regular insurance agent in the city of Hillsboro, Ohio, for over twenty years. His agency is composed, first, of five old American (fire insurance) companies, to-wit: Underwriters' Agency of New York; Home, of New York; Hartford, of Hartford; Etna, of Hartford, and the old Insurance Company of North America, of Philadelphia. Their assets aggregate over the large sum of \$39,000,000. They are no bundle of weakness, but a tower of strength, durability and true safety. They issue policies of insurance against fire, lightning, cyclones, wind storms or tornadoes. Their policies are comfortable covering to sleep under. They are the old home guards of America. He also represents a good accident insurance company and a good life stock insurance company, and can furnish first-class life insurance. The best is the cheapest. Call and see the agent. JAMES BRUCE, N. W. Corner Main and West Streets, Hillsboro, Ohio.

It's concealed, but it's there— ammonia in baking powder widely advertised as "absolutely pure;" 'tis easy to detect it; Boil up a heaping spoonful of the powder in a spoonful of water, and smell the steam.

There's nothing to conceal in Cleveland's baking powder; the composition is stated on every label. The ingredients are all so wholesome we are glad to have people know what they are.
