

The Weakness of a Woman.

A woman who has suffered eighteen years, who has been cured after a life of misery and lives again in the sunshine of happiness, speaks to other women in words of no uncertain meaning.

Just a woman's story. Not strange because it happens every day, not romantic or thrilling, but just a story of misery and suffering such as only women know. For eighteen years, Sara E. Bowen, of Peru, Indiana, carried a burden of pain. Night and day, without respite, she suffered the most dreadful experience that ever fell to the lot of woman. That she did not die is almost beyond belief. That she is well to-day is a miracle. Mrs. Bowen's trouble requires no description beyond the symptom, which every woman will instantly recognize. In describing them Mrs. Bowen says: "For eighteen years I suffered with weakness peculiar to my sex. I was a broken down piece of humanity; a shadow of a woman. My brain was tortured until I could remember but little. I could not sleep or eat and was reduced in weight to a mere skeleton. What little I did eat could not be digested in my weakened state, and caused me untold misery. My skin was muddy, my eyes were heavy. I was dizzy all the time and totally unfit for even ordinary housework. Doctors prescribed for me without avail. Medicine was recommended and taken in quantity but it did no good. Time and time again I was at the brink

of despair. Day by day my trouble grew worse, and dark indeed was the day before my deliverance. A friend of mine told me about Dr. Williams' Pink Pills for Pale People and what they had accomplished for others in my condition. It was the first glimpse of the sun of happiness through the dark clouds of misery. I bought a box and took them. Ever then I felt their effect. I bought more and continued to take them until I was well and strong. They liberated me from the most terrible bonds that ever tortured a woman. They brought me new life when death was welcome. I recommend them to my friends, and I do not hesitate to say to every suffering woman in the world that Dr. Williams' Pink Pills will cure her. Dr. Williams' Pink Pills for Pale People are a specific for all forms of weakness. The blood is vitalized and becomes pregnant with the elements of life. The nervous system is reorganized, all irregularities are corrected, strength returns and disease disappears. So remarkable have been the cures performed by these little pills that their fame has spread to the far ends of civilization. Wherever you go, every drug store to be Dr. Williams' Pills for Pale People.

There is a Class of People Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomachs receive it without distress, and it is as much. Children drink it with great benefit. 15¢ per 5¢ package. Try it. It is a lower half section of the grain meaning: "I have been introduced to her father's dog." If the cottail looks like a porous plaster full of holes: "I didn't get the shot at a hardware store." Cottail with a large, open-faced tear on the bias: "I scaled the back fence." Dust on the cottail: "I had a painful interview with her papa's boot." Cottail ripped up to the collar: "I had two hap-year proposals at the same time."—Chicago News.

A thrill of terror is experienced when a brassy cough of croup sounds through the house at night. But the terror soon changes to relief after One Minute Cough Cure has been administered. Safe and harmless for children. W. R. Smith & Co., Druggists. Magistrate—You were drunk, of course when the hold up men went through you. B. D. Bohner—I was, your honor. Magistrate—Then you got everything you had, didn't you? Prisoner—Yes, your honor, except my watch and in my watch pocket. Magistrate—The fine will be \$2. Call the next case.—Chicago Tribune.

The Lebanon Patriot says: Farmers get your guns and be ready for the wheat swindlers who are operating in certain portions of the State, and they are said to be headed this way. They will offer you one dollar per bushel for your wheat delivered at the nearest shipping point, and have you sign a contract which will turn up at a bank as a promissory note.

The Postal Department urges upon the public not to direct letters to Greater New York, but to still use New York City and Brooklyn. It is a big task to get the two cities combined into one, and months will be required to get the streets and districts renamed and regulated. To insure the prompt delivery of mail matter the old addresses should therefore be used.

Rev. J. E. Abrams, of the Ripley M. E. Church, has rebelled against the time honored practice of requiring the preacher to announce all the church meetings and entertainments from the pulpit, at the head of the column, next to pure reading matter. Henceforth such information will be imparted to the congregation in a printed folder gratuitously distributed. Rev. Abrams is right.

We are in receipt of a copy of Idle Songs and Sonnets, by Harrison Conard, formerly of this county. It is a delightful little volume, full of sweet verse and sweeter sentiment. In this age of presumptuous literary assumptions it is really refreshing to get hold of a work breathing such pure thought, so happily expressed. Mr. Conard's verse has met an appreciative and deserved recognition on both sides of the ocean. His ability will certainly win for him very high place in the ranks of literature, and a warm welcome from the hearts of the people.

"Dickie, did you get any thing on Christmas besides skates?" "Yes'm got the croup."

McDaniel; State Rep., Leroy Keeler. This is a new order in this place, and if the principles it teaches are practiced, it will undoubtedly do a great deal of good.

There are three little things which do more work than any other three little things created—they are the ant, the bee and DeWitt's Little Early Risers, the last being the famous little pills for stomach and liver troubles. W. R. Smith & Co., Druggists.

OHIO LEGISLATURE

Seventy-third Session.

COLUMBUS, O., Jan. 18.—SENATE—When the Bramley bill repealing the Rogers 50-year franchise bill was passed last Thursday by the senate and became a law it wiped out all legislation relating to street railroad franchises. Monday afternoon in the senate Mr. Leet moved that the rules be suspended and his bill to re-enact the street railroad legislation which existed before the Rogers bill was passed be placed on its passage. The motion was carried and a very short but spirited debate followed. The bill passed without a dissenting vote. Mr. Alexander introduced a bill to provide for the creation and maintenance of a police pension fund in every city in which the tenure of office of members of the force is during good behavior.

HOUSING—Bills introduced: For a uniform system of fees and salaries for county officials and also a uniform system of bookkeeping; for the abolition of prison contract labor and the nullification of prison labor contracts on September 1; repealing the "Torrens land law"; repealing the anti-lending bill; amending the law for the appropriation of land for cemetery purposes; providing for the payment of the salary of the city solicitor of Dayton every month instead of quarterly. Speaker Mason announced the standing committees.

COLUMBUS, O., Jan. 18.—SENATE—Among the most important bills of the session is one introduced by Senator Veight Tuesday morning, by which it is made illegal for assignors to give preferred credits. Senator Veight also has come to the rescue of the bicyclist with a bill which repeals the provisions of the law which have contained for some time, the preservation of the "dry strip." The bill forbids sprinkling more than half the width of a street at a time. It applies to bicycles with a bill permitting roads to be graded and not at the same time macadamized, thus changing the law of 1896.

HOUSE—Bills introduced: Permitting women to act as clerks in cities and villages; increasing the amount of school taxes that may be levied from 8 to 10 mills; authorizing municipalities to appropriate property for elevated and underground railways over the line of existing street railways; to give justices of the peace jurisdiction in which the municipality is located concurrent jurisdiction with the mayor in cases of ordinances; making owners of factories liable for personal injuries where the orders of the state inspector for improvements and safety devices have been violated; giving the third party holders of negotiable paper no more rights than the original parties to the paper; to legalize bowling alleys and repealing the law against nine-pin game.

COLUMBUS, O., Jan. 18.—SENATE—The following bills were introduced Wednesday: Providing that courts may allow additional compensation to appraisers in assignment and administration cases when expert technical knowledge is required; providing that municipalities in cities having a population of more than 10,000 may be licensed to prohibit traffic in cigarettes; giving circuit courts jurisdiction in cases involving not more than \$2,500; providing that judgments or orders made by judges in chambers may be reviewed, modified or reversed. HOUSE—Bills introduced: To compel street railways to furnish seats to all passengers by abolishing hanging straps in cars; authorizing county commissioners to purchase all supplies for county officers; to make telegraph companies liable for damages for errors in transmitting messages; to limit the maximum of county contracts let by commissioners from \$1,000 to \$150; to include water-works in Nicholas corporation tax bill; prevent corporations from contributing money to elections. The following bills were introduced Wednesday: To place townships having saloons on an equal footing with villages having saloons. His bill would give the township half of the Dow tax for the use of the general revenue and poor fund; extending the charter of the Evangelical Brethren synod from Ohio and adjacent states; to cover the United States; to repeal the woman's suffrage law applying to school elections.

COLUMBUS, O., Jan. 21.—SENATE—Bills introduced Thursday: Providing that in attachment proceedings before a justice there must be personal service and also publication of the suit; providing that the common pleas court shall not grant more than one new trial on the ground that the verdict is contrary to the evidence; providing that in advertisements of judicial sales in cities in which streets are numbered the street and number of the property offered for sale shall be given; providing for the publication of additional copies of the "Ohio Statesman and Hundred Year Book," written by W. A. Taylor. The senate adopted Senator Fink's resolution declaring that the senate would not consider bills to change the names of persons, power to do so having been conferred upon the probate court. Adjourning until Monday.

HOUSE—Bills introduced: Requiring proper precautions against accidents in the operation of factory machinery; requiring surety bond from all persons having the custody of city, county or township moneys. This will apply to banks and bankers; reducing the per capita tax on dogs one-half; fixing the price of telephone service at 75¢ per year for a pay station, \$50 for a business house or office; reducing the rate for legal advertising in newspapers from 10 to 50 cents per square. Providing that in cases of criminal assault upon children or females within the Levitical degree the person convicted be confined in the penitentiary and no reasonable doubt having been raised of his guilt shall be sent by the board of pardons to some hospital and subjected to the operation of emasculation. Adjourning until Monday.

PROF. LIBBEY

To Conduct a Scientific Expedition to the Hawaiian Islands.

PRINCETON, N. J., Jan. 21.—Prof. William Libbey, of Princeton university, proposes to conduct a scientific expedition to the Hawaiian islands during the coming summer. He will take four or five Princeton students with him, and the party will be gone four or five months. Prof. Libbey went to Hawaii a few years ago and is thoroughly posted in regard to the country. He thinks there are scientific treasures on the islands, duplicates of which can not be found anywhere else. His party will thoroughly explore the lava beds, the forests and other places likely to contain specimens of biology, archaeological or botanical value.

Prof. Libbey explored the enchanted Mesa in Mexico last summer, but he thinks that the expedition he now has in view will be of far greater scientific interest than that.

An Important Decision.

BOSTON, Jan. 21.—Judge Sheldon, of the superior criminal court, Thursday decided a point of law which is of importance to labor organizations. He ruled that the word "intimidation" as used in the statute means "threats to use force" and does not mean "threats to leave work" or "threats to refuse to work with others."

FIFTY-FIFTH CONGRESS.

First Regular Session.

WASHINGTON, Jan. 18.—SENATE—The features of Monday's proceedings were the session of the bimetallic commission, upon the negotiations of the commission with European countries relative to international bimetallicism, and the passage of the Lodge bill restricting immigration into the United States. At the conclusion of the morning business Mr. Wolcott, at 12:30, was recognized to begin his address. He was in fine voice and commanded the earnest attention of his auditors. At the conclusion of his speech the immigration bill was taken up and discussed until 3 o'clock, the hour at which, by previous agreement, it had been arranged to vote finally upon the amendments and the bill. The bill as passed provides that all immigrants physically capable and over 16 years of age shall be able to read or write the English language or some other language, but a person not able to read or write, who is over 60 years of age and is the parent or grandparent of a qualified immigrant over 16 years of age, and capable of supporting such a parent or grand parent may accompany the immigrant or the parent or grand parent may be sent for and come to join the family of the child or grand child of age qualified under the law; and wife or minor child not able to read or write may accompany or be sent for and come to join the husband or parent who is qualified. The act does not apply to persons coming to the United States from the island of Cuba during the continuance of present disorders there who have heretofore been inhabitants of that island.

HOUSE—Monday was District of Columbia day in the house; but only three bills of local importance were passed. The remainder of the session will be devoted to the consideration of the army appropriation bill, which was completed.

WASHINGTON, Jan. 18.—SENATE—Tuesday's open session of the senate was brief. Practically the only business accomplished aside from the routine proceedings was the passing of the urgent deficiency appropriation bill. The measure as finally passed by the senate carries \$1,913,810. The Teller resolution providing that bonds of the United States may be paid in standard silver dollars was favorably reported by a majority of the finance committee and not given that it would be called up at an early date.

HOUSE—Cuba had a hearing in the house Tuesday and for a time it looked as if parliamentary procedure would be set aside and the senate resolution recognizing the insurgents as belligerents would be attached as a rider to the diplomatic and consular appropriation bill. Mr. DeArmond, a Missouri democrat, precipitated the issue by offering the resolution as an amendment, but a point of order against it was sustained. Mr. DeArmond appealed. The chair was voted on by the yeas and nays, before the diplomatic bill came up the army bill was passed.

WASHINGTON, Jan. 20.—SENATE—A spirited debate was precipitated in the senate Wednesday by the introduction of a resolution by Mr. Hear (Mass.), providing for an inquiry by the committee on post offices and post roads concerning the reasons for the postponement of general reducing the force of letter carriers in several cities of the country. Mr. Vest gave notice that he would move Thursday to take up for consideration the Teller resolution reported by the finance committee providing that bonds of the United States may be paid in standard silver dollars.

HOUSE—All day long the question of granting belligerent rights to the Cuban insurgents was argued in the house, but Tuesday the minority hurried itself against a stone wall. The only vote taken Wednesday was one designated to overrule the decision of the speaker and direct the committee on foreign affairs to report without further delay the Cuban resolution passed by the senate at the last session. The republicans stood stolid and voted to sustain the chair.

WASHINGTON, Jan. 21.—SENATE—By the decisive vote of 15 to 25 the senate Thursday decided to proceed at once to the consideration of the resolution introduced a few days ago by Mr. Teller (Col.), providing for the payment of bonds of the United States in silver at the option of the government. Mr. Vest announced his intention to secure a final vote upon the resolution as soon as one could be reached and accentuated his intention by forcing the displacement of the census bill with the Teller resolution as the unfinished business. The day, which was voted on Tuesday, was in executive session.

HOUSE—Speaker Reed, from the rostrum of the house, and Mr. Bailey, leader of the democrats, from his place on the floor, glared at each other at the close of the Cuban debate Thursday and joined an issue of veracity. This was the only vote taken Wednesday. The interest in the Cuban debate, which has continued uninterruptedly in the house for three days during the consideration of the diplomatic and consular appropriation bill. The debate Thursday was not as interesting as the one of the preceding day. The features were a characteristic speech by Champ Clark (Mo.) a strong appeal for conservatism from Mr. Johnson (rep. Ind.), a presentation of the results of his observations in Cuba during his recent trip to that island by Mr. King (dem. Utah), and an hour's speech by Mr. Dingley (Me.) in explanation of the causes of the reduction of the wages in the New England cotton industry.

WASHINGTON, Jan. 22.—SENATE—An agreement was reached by the senate Friday that a final vote on the Teller resolution providing that bonds of the United States may be paid in silver dollars and all pending amendments thereto should be taken Thursday. Mr. Allison, of Iowa, made the significant statement that an amendment to the resolution that would cause some delay in the passage of the bill in the discussion but gave no intimation of the nature, scope or amount of the amendment. During the greater part of the afternoon the senate was in executive session, and at 4:15 adjourned.

HOUSE—There was a preliminary struggle in the house Friday over the bill for the relief of the book publishing company of the Methodist Episcopal Church, South, which was before the house last Friday. By shrewd maneuvering its opponents succeeded in preventing action Friday. Previous to the consideration of this bill the house passed the bill to extend the public land laws of the United States to the territory of Alaska, and to grant a general railroad right of way through the territory. The urgent deficiency bill was sent to conference after the silver force, with some outside aid, had succeeded in concuring in the senate amendment striking from the bill the provision requiring the depositors of bullion at government assay offices to pay the cost of transportation to the mint.
