 The Cuban patriot waxed warm. "It is an unusual insult, this offer of seventy-five dollars for my arms," he said. "Do you refuse the money," asked the paymaster.
 "The Spaniards would have taken them and given us nothing," he continued, "but I like an insult that you can put in your pocket." He ferbithwith walked away.

Grant, has arrived here after a smooth voyage. One private died after the transport arrived. The troops brought by the transport will go to the island of Negros to relieve the California troops. Gen. Bates, who arrived on the transport, and Gen. Grant will be probably assigned to the command of the volunteers, some generals of whom will leave for home soon. Gen. Hale and Funston desire to accompany their regiments home. The Utah artillery, it is announced, will accompany the Nebraska troops on board the transport Hancock, leaving their guns here. The Pennsylvanians will start for home on the transport Senator this week. The Indiana sailed Monday with 500 discharged and sick soldiers. She will go into dock for a few days at Nagasaki, Japan. Military operations against the insurgents in the south have apparently been planned. Gen. Wheaton at Imus, sent out reconnoitering parties Monday to locate the enemy and other reconnaissances are being made from Cavite.

SHE CAN KEEP A SECRET.
 After Nearly Thirty Years a Sister Tells of a Murder Committed by Her Brother Alexander.

WICHITA, Kan., June 19.—Because her wealthy brother refused to obey her whims Mrs. Cornelius Street, of Shawnee, Okla., has written Sheriff Simmons here demanding he be arrested for murder. On May 2, 1871, Alexander Jester murdered his traveling companion, William Gates, near Warrensburg, Mo. Jester then stole Gates's wagon, team and money and escaped. At Valley Center, Kan., a few weeks later Jester was arrested and confessed. He was taken to Warrensburg, but escaped before his trial was called. Thousands of dollars were spent in searching, but to no avail. It is now claimed that Jester went to Shawnee, Okla., under the name of W. H. Hill, as he is now living. The alleged murderer is 80 years old, wealthy and influential. He will be arrested at once.

AFTER THE TRAIN ROBBERS.
 They Leave the Hole in the Wall Country and Are Now Heading Toward the South—The posse Still in Pursuit.

CASPER, Wyo., June 19.—Eight of the posse hunting the Union Pacific train robbers in the Hole in the Wall country returned to Casper Sunday. The robbers have left the Hole in the Wall mountains and are traveling back south. The last heard of them was at Powder river coming south. They seemed to be heading toward Wolton. A large party is following them now. Sunday the guards were placed at all the bridges across the Platte river, and new men with fresh horses started for the Wolton country. The pursuing party at Sullivan's sheep camp, where the robbers ate breakfast and took a packhorse and bed, were 12 hours behind.

This will be formally published at once for the information of the meat inspectors in this country. The decree recites the preceding decrees prohibiting importations of cattle from America and the opinion of the veterinarians and announces that American neat cattle and swine can now be imported into Belgium under the terms of the decree of 1897 prescribing the places where they may be landed and slaughtered.

NEW YORK, June 17.—The jury trying George B. Barrow, the kidnaper, retired to consider their verdict at 11:50 a. m., Friday. They were out only 25 minutes, and then returned with a verdict of guilty. Judge Furman immediately sentenced Barrow to 14 years and 10 months at hard labor in Sing Sing. After Barrow had been sentenced, Bella Anderson, alias Carrie Jones, the nurse girl, was called to the bar and sentenced to four years' imprisonment. Clemency was accorded Carrie Jones because she confessed and turned state's evidence.

AUTOMOBILES PROHIBITED.
 They Are Excluded From the South Side Park, Chicago—It is Claimed That They Can Scare Horses.

CHICAGO, June 15.—The south side park commissioners issued an order Wednesday excluding from the drive-ways and boulevards all vehicles propelled by electricity. This rule applies to pleasure automobiles as well as to those used by mercantile concerns. The main reason for the action of the commission was the alleged effect of the machines on the horses, the animals, it is claimed, becoming frightened at the sight of the automobiles, and while uncontrollable, threatening the lives of the occupants of other carriages as well as pedestrians and cyclists.

IMUS EVACUATED.

Filipinos Have Fled to Binang, on the South Side of the Bay of Laguna.

PEOPLE OF IMUS WELCOME AMERICANS.
 Bacoor Partially Destroyed During the Terrific Bombardment by the American Gunboats.

Hundreds of Refugees Coming into the American Lines—One Hundred Insurgents Killed and 500 Wounded in Tuesday's Engagement.

MANILA, June 16.—Imus has been evacuated. The mayor of that place entered Las Pinas Thursday morning and announced that Gen. Noriel, the commander of the Filipinos, had left the town during the night and had gone with his troops to Binang, on the south side of Laguna de Bay. He said the Filipinos had taken 100 of their wounded with them. He declared that the people of Imus would welcome the Americans, and white flags in token of peace were being displayed all along the road between Las Pinas and Imus. Fourteen Spanish prisoners who escaped from the Filipinos Wednesday night, confirm the story that Gen. Noriel has evacuated Imus and moved his troops south.

The defeat of the Filipinos at Zapote was considerably more disastrous to them than was at first supposed. Their losses were at least equal to those they sustained at Calumpit, and the advantageous results to the Americans are fully as great as those secured in the latter engagement.

Gen. Lawton is extremely hopeful for the future, and it is the general belief that Cavite province has been permanently subdued. The road between Manila and Cavite, which has been deserted since the rebels massed below Manila, is now being opened again.

WASHINGTON, June 16.—Gen. Otis called Thursday the following:

MANILA, June 15.—Adjutant General. Washington: Success Lawton's troops at Cavite province greater than reported yesterday. Enemy numbering 4,000 lost in killed, wounded and captured more than one-third; remainder much scattered; have retreated south to Imus, their arsenal; of five pieces of artillery, three captured. Navy aided greatly on shore bay, landing forces occasionally. Inhabitants in that country rejoice at deliverance and welcome with enthusiastic demonstrations arrival of our troops. OTIS.

 His Friends Find Hope in His Noncommittal Attitude That He Will Accept the Nomination.

Representative J. H. Wallace and others have just returned from Washington, where they saw Gen. Wheeler. The latter is reported as saying:

"It is yet too early to make a definite decision as to what I shall do. To be governor of Alabama is an honor to which any man might aspire, yet I can not at this time say that I will make the race. I will say, however, that I am under obligations to no man to remain out of it."

A Big Stack
 of grain can be threshed in a day (and threshed perfectly and separated thoroughly, without waste) if you have a Nichols-Shepard Separator. And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Swinging Stacker. This takes the place and does the work of an independent stacker. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either stack or barn. This stacker has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a threshing machine. Like every other feature of the

it is strongly and durably made, without any intricate parts to break or get out of order. All the advantages of the Nichols-Shepard Separator and the Nichols-Shepard Traction Engine are fully described and illustrated in our free catalogue. Write for it.
