Resolutions of Respect.

Comrade Carey Fenner died at his home in Hillsboro on July 17, 1908. Another bark has stranded and beneath the tempestuous waves of the great ocean of life, another brave comrade from our Post has disappeared. Again we are called upon to surrender ours to a higher claim of One who doeth all things well. As a Christian he was firm and true, kept the faith until the summons came and took him to his eternal home.

Comrade Fenner was in his 73rd year when he died. He belonged to a family that stands first in the history of our country. Having nine brothers that with him answered to their country's call to maintain our national integrity and unity during the great conflict between the North and the South. Carey enlisted in Company A, Second Battalion, Ohio Independent Cavalry. True patriotism made him and his brothers as valiant soldiers as ever answered a bugle call.

Robert Jackson, a colored man, who was raised by Stephen and Sarah Fenner, the parents of the boys, also enlisted and stood the test with his white comrades, and amid blood and carnage, the rattle of musketry and the roar of cannon, they figured in the battle line and were always found where the fight grew the hottest and the shot and shell flew the thickest. Very remarkably they all escaped death, were honorably discharged and returned home to their loyal father and mother.

Resolved, That these resolutions be published in the papers of your city and put on the minutes of John M. Barrere Post, No. 205, of which Carry Fenner was an honorable member and a copy sent by the adjutant to the sorrowing family, who have the sympathy and highest regards of the members in this time of great sorrow and bereavement.

The August American Boy.

Unalloyed enjoyment of the water's refreshing coolness is shown on the face of the boy looking out from the front cover of the August American Boy, and the contents of the magazine just fits in with the vacation season. The fine serials of Houston, Tomlinson and Optic, with Weir's story of his experiences Under the Great White Canvas continue with increasing interest. Of the many splendid short stories in this issue, there are: In the Hands of the Enemy, telling of the manly courage of a boy during the trying times of the Civil War; The Traitor of Camp Bennett, a fine story of boys camping out and how a traitor was dealt with; A Boy and a Bear tells humorously of a boy who was anxious to meet a bear and what he did when Mr. Bruin confronted him; In Quest of a Sea Otter is a vivid account of the dangers encountered by two boys in a boat while trying to kill a sea otter; History Written in Bark will appeal to the boys who love to carve their names on the bark of trees; My Friend's Stiff Shoulder is a stirring story of hunting tigers in India; The Runabout Trio at the Chicago Convention gives a most interesting of what three boys saw and heard while attending the National Republican Convention at Chicago. Then there are How to Float, Trapping Hints for Boys, Opening of the Oyster Season, Talks with the Doctor, and Destroyer of Boys, while the various departments are filled with the sort of matter which appeals to the boys with hobbies. 76 Illustrations; \$1.00 a year. The Sprague Publishing Co., Detroit, Mich.

"Say, Mike," queried Plodding Pete, who was looking at the piece of a Sunday school paper that had come with a handout, "wot does it mean 'bout being' between the devil an' de deep sea?"

"It's de same as bein' told t' take yer choice between goin' t' work an' takin' a bath."

The large number of Italians and persons of Italian origin domiciled in America has, of late years, created a constantly growing demand for Italian vegetables and food products. Instead of the United States sending farm products to Italy, the situation is quite the reverse.

A Lovers' Quarrel.

Two young persons of Germantown had been engaged, had quarreled, but were too "proud to make up." Furthermore, both were anxious to have it believed they had entirely forgotten each other.

One day the young man called, ostensibly on business with her father, on which occasion it chanced she should answer the door-bell.

The young man was game. "Pardon me," he said, with the politest of bows, "Miss Eaton, I believe. Is your father in?"

"I am sorry to say he is not," the young woman responded, without the slightest sign of recognition. "Do you wish to see him personally?"

"Yes," replied the young man, as he turned to go down the steps.

"I beg your pardon," called out the young woman, as he reached the lowest step, "but who shall I say called."

"He is a self-made man all right." "His wife claims that she superintended the job."—Birmingham Age-Herald.

"Only fools are certain, Tommy; wise men hesitate."

"Are you sure, uncle?"

"Yes, my boy; certain of it."—The Tattler.

Modesty.

Modesty is supposed to have come over in the Mayflower, along with the story of Rebecca at the Well. Since then Boston has become psychological and modesty has a subliminal self.

There is a tradition that modesty once lived in New York, but this has never been proved. It is highly improbable, especially as New York has always had a smart set.

Modesty was a visitor at the White House during the Civil War and shortly before. Since then she has received no further invitation. If modesty should appear there now, Heaven would doubtless be too timid to extend a helping hand.

Modesty, indeed, is a recluse. Her pew in church has been given up. She never had a box at the opera. She would not dare be operated in any hospital. The children would disconcert her in any home. With no roof to shelter her, no nourishment to sustain her, she walks the untrodden paths, a miserable and discontented thing of the past.—August Lippincott's.

The Chinese newspaper is printed in a roll so that the subscriber may throw away that portion which he has read.

"Poor man!" said the kind lady. "How did you go blind?"

"Frost went 'way down to Maine for a change of air."

The British government has made some trials with gas engines on a gunboat, and, according to Lord Graham, the advantages are a reduced coal consumption by nearly 50 per cent, diminished space occupied, diminished weight and marked saving in labor. Lord Graham reports that the further development of the gas-producer plant will give England the greatest labor economy it has ever had.
