The rumble of the water wagon can be heard in the land.

Senator Dick's record which he insists in standing upon ought not to be much of a burden for him to carry.

To run around the country making speeches seems to be the main duty of cabinet members of all administrations.

We would suggest as a most appropriate Christmas gift to a friend a year's subscription to THE NEWS-HERALD.

When you have fallen on the ice and almost broken yourself in two, isn't it pleasant to have somebody ask you, "What is the trouble, did you slip?"

Having tried all the other available places in the last year, the fashion authorities have kindly allowed the waist line to return to the place where the good Lord put it.

New subscribers to the NEWS-HERALD continue to come in at a rate that to say the least is most pleasing to us. Every day sees four or five new readers added to our list. Come in and subscribe now and you will never regret it.

For fear some of our readers may have secured a wrong impression we desire to state that Uncle Joe Cannon is still "It" in the House and Nelson W. Aldrich, of Rhode Island, is running the Senate, any reports to the contrary notwithstanding.

We have heard several people complain of the weather we have been having the past two weeks. Now certainly these people must be hard to please if they have not had the kind of weather they wanted at some time during that period for we can not imagine any kind of weather we have not had recently.

Charles P. Taft, Arthur I. Vorys, and Gov. Herrick all just happened to be in Washington the same day recently and all three by a strange coincidence were invited to lunch at the White House. They none of them had any idea that the others were going to be there and Ohio politics was not discussed. Stange isn't it how things like this so often happen with politicians? And we believe that Senator Dick should be pardoned if he should show some curiosity as to what was the topic of conversation.

A Disgusting Habit.

There is no more disgusting and senseless habit than the use of profane language. How often do we hear foul language absolutely without any cause? The habit is usually formed when one is young and is almost always due to the fact that some boy hears older men swearing and thinks it is smart. If he knew how much every man, who is really a man, regrets that he ever formed the habit, we do not believe that he would ever utter an oath. Foul language is degrading to the user and disgusting to the hearer. To use it places you at a disadvantage always. It never made anyone have a better opinion of the user and will almost without exception give a bad impression of you to a stranger even if he has the habit himself.

Why should any one except as a matter of habit swear? It does no good and is certain to leave the impression that the thoughts of the user are foul. In using it one inevitably lowers himself for if the language used to express your thoughts is always foul it is certain that the thoughts will finally become foul.

We know men for whom we have a very high regard who are addicted to the habit of swearing. But we know that it has often been a detriment to them and has caused them much embarrassment and many a regret. An oath is certain to slip out at an inopportune time if you have the habit. And once formed the habit grows on one and is almost impossible to break. There is nothing manly about swearing it gives no added force to an expression and will only lower you in the opinion of the people whose good opinion is worth while.

Anyone who has the habit is facing life handicapped.
