Ten years ago the cigaret was an article used in China by a small number of people, chiefly foreigners. The field attracted the attention of a group of American manufacturers who examined into it and decided to introduce the cigaret to the Chinese by American methods. MARY HALL.

New Dover, Ohio
October 13, 1909.

I have taken 5 bottles of "Nature's Creation" and found it all right. I was "all in" when I commenced taking it. I would cough all the time and was so weak I could hardly walk half a mile. Now I can work and feel all right. I have told others and they are going to take it. I thank Dr. Bonner for telling me about Nature's Creation and I can't say too much for what it has done for me, and hope it will help other sufferers as it did me.

Respectfully,

Carl Hall

India is not a nation, but simply a collection of heterogenous people. The mass of the population, in spite of their sun-tanned skins, are Aryans, but the yellow race is represented on the northeast borders, while the Carmandel coast section consists in a large part of the colored race.
