

Local Matter. ADVERTISEMENTS for insertion in the STANDARD must be handed in by noon on Tuesday each week, as the paper is made up on Tuesday evening.

This following new advertisements will be found in the STANDARD this week: For Work for Sale—David T. ...

J. F. TOWELL, Portsmouth, Ohio, offers to the Merchants and Furnacemen of Jackson county a superior stock of Dry Goods & Notions, on terms the most favorable.

SITUATION WANTED.—A young man who can bring good recommendations, desires a situation as salesman or book-keeper. Would prefer the latter. Address this office. [16.]

We have received two fonts of new type, and a lot of labor saving, and can turn out any kind of a job on short notice, and in fine style. Send in your orders.

WILD DEER.—We saw a man in town on Monday, selling a couple of deer skins. He got \$5.00 for the two. The deer were killed between Jackson and Fayetteville, in this county.

We commence this week the publication of an excellent story, "The Man who Stole the Money." It will run through two or three more numbers. Be sure and read it, as it is an excellent thing. We have read it through.

THANKS.—The officers of the M. & C. R. R. have our thanks for a free pass over said road, and its Portsmouth Branch, for the year 1887.

FURNACE FOR SALE.—Attention is directed to the advertisement of Gov. Tolt, for the sale of Diamond Furnace. This is valuable property, and is now in good condition, and working well.

BUTTER AND EGGS.—It will be seen by our market report that Orange Furnace Stairs is paying 50 cents per pound for butter, and 30 cents per dozen for eggs. This is a good price, and farmers should bring them in, as warm weather will soon be here, and then prices will be down.

PERSONAL.—Col. James Allen and John Peters, of Ironton, were at this place last week, making an effort to buy the coal lands of Dunagan & Davis. They did not succeed. We believe they intend to build a furnace either at this place or at Portland.

SPEECHES.—Mr. Bundy has sent us a number of speeches, some of which we may hereafter. Hon. R. W. Clark, of the 6th Ohio District, has sent us his speech, upon the financial condition, and we intend to publish a part, or the whole of it hereafter, as we may have room.

AMERICAN FARMER.—We have received the February number of this publication. It is interesting and useful. On the first page we publish an article from this number. It is published at Rochester, New York, by John Turner, at \$1.00 per year.

We learn that John J. Jones Esq., of Portland, has bought the Reed farm at Oak Hill, for \$15,000. We believe it is the intention to build a furnace at that place. There is any amount of coal, limestone, iron ore and good water on this farm. There is over 200 acres of land, lying on the railroad.

The following are the proceedings in the Probate Court of Jackson county for the week ending on Saturday last: Miranda Reed, Guardian of Francis Manly, vs. his ward and others. Report of appraisers filed and approved.

MARRIAGE LICENSES ISSUED: Harrison Towner and Mary Shumate. Abraham Dixon and Sarah Clark. James H. Qualls and Lizabeth Dowell. Silas Evans and Jane Woten.

Y. CYMO.—As we were going home from church on last Sunday night, we heard preaching in the Court Room. Going up, we found Rev. Jonathan Thomas preaching in the Welsh language to twenty or thirty Welsh people. We had not heard a Welsh sermon for ten years, and the sermon, the earnest responses of the audience, and the old time song, reminded us of days long ago. The sermon was an earnest argument in favor of Irish rights.

MEDICAL NOTICE.—L. T. Monahan, M. D., will give special attention to all Private, Lung, Throat, and chronic diseases of every character. From past experience in the treatment of diseases of the above named character, I am well satisfied the system that I adopt is far superior and much more successful than the treatment generally adopted. In all hemorrhoids or communications of disease, I discard the use of Mercury, and other debilitating agents, so injurious to the system, and give my attention to the use of tonics and alteratives that destroy the disease, and reconstitute the system at the same time.

I am the only Physician in Jackson that thoroughly understands the Eclectic system of practice. Private Office in back part of my Drug Store. Residence on Main Street, nearly opposite Bunn's Store. L. T. MONAHAN, M. D. Feb. 7, 1887.—3m

MENTAL anxiety or excessive thinking tend to deplete the vitality of the scalp; its effects are to produce a feeble affection of the head, which causes gray hair and baldness; and although gray hairs may be abundant in old age, yet a premature bleaching, or loss of hair in the young or middle-aged, is to be regretted, and as it is natural for us all to desire a youthful appearance, we would recommend to those afflicted in the above manner, the use of Hall's Vegetable Sicilian Hair Renewer. This preparation will soon change gray and heavily hairy to its original color, and make it of silken texture; and will create a new growth when it has fallen off, as it furnishes the nutritive principle which nourishes the glands of the hair, filling them with new life and coloring matter, and giving a healthy condition to the whole through mass.—Dramatic Chronicle.

The Beautiful Princess of Denmark and the Young Czarowitz of Russia; Excellent American Divines, including the Reverend Doctors Stevens, Thompson, Durbin, McClintock, Morris, James, Simpson, Whelan, Ames, Nast, Elliott, and Haven; also, Hon. Dr. Weston; Self-Government; Pope's Essay on Man, etc., in February number Phenological Journal, Only 25 cents, or \$2 a year. Address Fowler & Wells, 369 Broadway, New York. This is true economy, and economy is wealth. Go to the sign of the Three Red Posts.

JACKSON DEBATING SOCIETY.—The debate on last Monday night was very interesting, and was largely attended. We had intended this week to give the points made in argument on the suffrage question, at the previous debate, but have not room. The Society invited Mr. Mayo to deliver a lecture on next Tuesday night, and Dr. Mackley on Friday night, February 14th, and Dr. A. B. Monahan on the 23d. Question for next Monday night: "Resolved that the political party now in power in the United States, deserves the approbation of the American people." Affirmative, Samuel Saylor, D. Mackley, Negative, Walker Bennett, Barber Duffell.

BELIEVER.—The folks about Portland are becoming belligerent. We learn that Young Slater beat a man named Mackey severely; John Williams, known as Jack Williams, and a pious school named Tom Perkins, had a pitched battle, in which Perkins used metal knuckles, and used up Williams badly. A young man from West Virginia, passing through Portland, stopped at the grocery to get some bread and cheese. A lot of drunken men struck him down, splitting his lip and knocking him down. They then kicked him out of the house. He did not say or do anything to offend them. If the good citizens of Portland do not take measures to put a stop to this lawlessness, all decent people should avoid the place.

THE GREAT THAW.—On last Thursday it turned warm, and on Friday the snow went off. On Saturday it rained, and there was mud. Now to meet the emergency of the mud, heavy boots were in demand. All went to Orange Furnace Store to get their boots. They not only keep boots there, but every possible and almost impossible variety of goods, such as are used in families, or by young men and old bachelors, as well as every variety of goods for the ladies, from a hoop skirt to a chemise. (That is the French name for water.) Call at this store, just below the Bank.

THE SECOND FOX CHASE.—Last Saturday was another bad day for foxes. The waters were so high that the hunters were much impeded in their operations. Only one fox was caught. Baldridge and Crashead did better than this. They not only told clothing to those who got their clothes torn in the brush at the fox chase, but they sold to many others. They sell clothing in all kinds of weather, to all kinds of people, and of every size and quality. Call on them, opposite the Standard Office, on Main Street.

DAUGHTERS.—A great many things are dangerous. It is dangerous to drink bad whisky, or eat diseased pork. It is dangerous to ask an old maid how she is, or to tell a mother that her child is not pretty; but of all dangerous things, it is the most dangerous to take drugs or medicines unless you know that they are pure, and what they purport to be. We can recommend the drug store of Reed, Curtis & Co., of Portsmouth, as a place where you can get just what you desire, and get it pure. See their card in this paper. Feb. 7, 1887.—2w

OBITUARY.—On last Friday week, W. S. Bundy, only son of Hon. H. S. Bundy, died at his residence, in Milton township, in this county. He served under Capt. Hoffman, in the first company that went from this county, and again enlisted for three years, in the Seventh Ohio Cavalry. He was wounded by a piece of a shell, and was discharged. He never recovered from his wound, which finally caused his death. He leaves a widow and one child.

MILK.—H. J. Carr wishes us to say that he is now prepared to furnish all persons in Jackson with pure fresh milk, delivered at their houses each morning. He has not heretofore been able to supply the demand; but having procured a few fresh cows, he is prepared to supply all who may favor him with their orders. Orders from hotels and private families solicited. (7-2)

THE LATEST FASHIONS.—Since the invention and successful introduction of the Celebrated Duplex Elastic (or double) Spring Hoop Skirt, by Mr. J. W. Bentley, of New York, the ladies throughout the country have given up the idea of discarding the fashion of wearing hoop skirts, on account of the peculiar and graceful manner in which the Duplex Skirts adapt themselves to every exigency and emergency. So generally acceptable have these Skirts become, that the ladies regard them as a special favorite, in view of the superior flexibility, lightness and durability combined in their manufacture. They also consider them a far more economical and comfortable Hoop Skirt than any ever before made for all crowded Assemblies, for the Promenade or House Dress. Any lady wearing one of these Skirts will have a remarkably healthy disposition with their use. Long experience in the manufacture of Hoop Skirts, has proven to the proprietors of this invention, that Single-spring Skirts will always retain that stiff, unyielding and fungible style which has ever characterized them, whereas the Double Spring Hoop, or the Duplex Skirt, will be found free from these objections. Notwithstanding the ability of the manufacturers, Messrs. Wests, Bradley & Cary, to turn out over six thousand Skirts per day from their Large Manufacturing in New York, they feel obliged to request all merchants ordering the Duplex Skirts, to send their orders a few days before they are wanted, if possible, as they are now constantly overstocked some days ahead.

REASONS WHY THE AMERICAN WATCH MADE AT WALTHAM, MASS. IS THE BEST. It is made on the best principle. Its frame is composed of SOLID PLATES, NO iron latere, with the harmony of its working and no snore shock can damage its machinery. Every piece is made and finished by machinery (itself made in the factory) properly made. The watch is in fact all made in the factory. ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grade, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "watches" "topies" and "English Patent Levers," are perfectly well aware of the truth of this statement. At the beginning of our enterprise more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million, to take the place of these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere. How well we have accomplished this, may be understood from the fact that after more than half of a century, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no other maker has ever gained such universal estimation. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the most complete facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the best imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assure without fear of contradiction that for the same work our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and their workmanship is good at all times, and their accuracy in all parts of the world. CAUTION.—The public are cautioned by way of responsible dealers. All persons selling counterfeits will be prosecuted. ROBBINS & APPLETON, Agents for the American Watch Company, 182 Broadway, N. Y. Schenck's Seaweed Tonic. This medicine, invented by J. H. Schenck, of Philadelphia, is intended to dissolve the food and make it absorbable, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested. Consumption cannot be cured by Schenck's Tonic Syrup unless the stomach and liver be made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia. Dr. Schenck makes professional visits in New York, Boston, and at his principal Office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days of visitation. Please observe, when purchasing, that the two likenesses of the Doctor, one when the last stage of Consumption, and the other as he now is, in perfect health, are on the Government stamp. Sold by all Druggists and Dealers, price \$1.50 per bottle, or \$7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa. General Wholesale Agents: Deans Barnes & Co., N. Y.; S. H. Hance, Baltimore, Md.; John D. Parke, Cincinnati, Ohio; Walker & Taylor, Chicago, Ill.; Collins Bros., St. Louis, Mo. Oct. 1866.—1st w ea mo 1y.

A HUMBURG. How often we hear this expression from persons reading advertisements of Patent Medicines, and in nine cases out of ten they may be right. It is 19 years since I introduced my medicine, the VENERUS LIVERWORT, to the public. I had no money to advertise it, so I left it for sale with a few druggists and store-keepers through a small section of the country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated on my pamphlet, no one need pay for it. In some stores two or three bottles were taken on trial by persons present. I was, by many, thought crazy, and would be the last they would use of me. But I knew my medicine was no humbug. In about two months I began to receive orders for more Liverwort, some calling it my valuable Liverwort, who had refused to sign a receipt when I left it at their store. Now my sales are millions of bottles yearly, and all for cash. I warrant it superior to any other medicine for the cure of Croup, Diarrhea, Dysentery, Colic, Vomiting, Spasms, and Sea-sickness, as an internal remedy. It is perfectly innocuous to take internally, see each accompanying bottle, and externally for Chronic Rheumatism, Headache, Mumps, Frosted Feet, Bruises, Sprains, Old Sores, Swellings, Sore Throats, &c. Sold by all the Druggists, Depot, 60 Cortlandt Street, New York. Jan. 4, 1887.—7w

THE MOON'S VOLCANOES are engaging the attention of astronomers, but the world of Beauty and Fashion is less interested in human discoveries than in the great question of TURNING THE HEADS that have been whitened by age or sickness to a glorious black or brown hue. Nobody now is such a LUNATIC, as not to admit that the finest and most harmless hair-dresser in existence is Cristadoro's Hair Dye, which nourishes the fibres as well as changes their hue. Manufactured by J. CRISTADORO, of the Astor House, New York. Sold by all Druggists. Applied by all Hair Dressers. Jan. 17, 1887.—1m

REASONS WHY THE AMERICAN WATCH MADE AT WALTHAM, MASS. IS THE BEST. It is made on the best principle. Its frame is composed of SOLID PLATES, NO iron latere, with the harmony of its working and no snore shock can damage its machinery. Every piece is made and finished by machinery (itself made in the factory) properly made. The watch is in fact all made in the factory. ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grade, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "watches" "topies" and "English Patent Levers," are perfectly well aware of the truth of this statement. At the beginning of our enterprise more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million, to take the place of these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere. How well we have accomplished this, may be understood from the fact that after more than half of a century, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no other maker has ever gained such universal estimation. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the most complete facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the best imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assure without fear of contradiction that for the same work our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and their workmanship is good at all times, and their accuracy in all parts of the world. CAUTION.—The public are cautioned by way of responsible dealers. All persons selling counterfeits will be prosecuted. ROBBINS & APPLETON, Agents for the American Watch Company, 182 Broadway, N. Y. Schenck's Seaweed Tonic. This medicine, invented by J. H. Schenck, of Philadelphia, is intended to dissolve the food and make it absorbable, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested. Consumption cannot be cured by Schenck's Tonic Syrup unless the stomach and liver be made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia. Dr. Schenck makes professional visits in New York, Boston, and at his principal Office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days of visitation. Please observe, when purchasing, that the two likenesses of the Doctor, one when the last stage of Consumption, and the other as he now is, in perfect health, are on the Government stamp. Sold by all Druggists and Dealers, price \$1.50 per bottle, or \$7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa. General Wholesale Agents: Deans Barnes & Co., N. Y.; S. H. A HUMBURG. How often we hear this expression from persons reading advertisements of Patent Medicines, and in nine cases out of ten they may be right. It is 19 years since I introduced my medicine, the VENERUS LIVERWORT, to the public. I had no money to advertise it, so I left it for sale with a few druggists and store-keepers through a small section of the country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated on my pamphlet, no one need pay for it. In some stores two or three bottles were taken on trial by persons present. I was, by many, thought crazy, and would be the last they would use of me. But I knew my medicine was no humbug. In about two months I began to receive orders for more Liverwort, some calling it my valuable Liverwort, who had refused to sign a receipt when I left it at their store. Now my sales are millions of bottles yearly, and all for cash. I warrant it superior to any other medicine for the cure of Croup, Diarrhea, Dysentery, Colic, Vomiting, Spasms, and Sea-sickness, as an internal remedy. It is perfectly innocuous to take internally, see each accompanying bottle, and externally for Chronic Rheumatism, Headache, Mumps, Frosted Feet, Bruises, Sprains, Old Sores, Swellings, Sore Throats, &c. Sold by all the Druggists, Depot, 60 Cortlandt Street, New York. Jan. 4, 1887.—7w

THE MOON'S VOLCANOES are engaging the attention of astronomers, but the world of Beauty and Fashion is less interested in human discoveries than in the great question of TURNING THE HEADS that have been whitened by age or sickness to a glorious black or brown hue. Nobody now is such a LUNATIC, as not to admit that the finest and most harmless hair-dresser in existence is Cristadoro's Hair Dye, which nourishes the fibres as well as changes their hue. Manufactured by J. CRISTADORO, of the Astor House, New York. Sold by all Druggists. Applied by all Hair Dressers. Jan. 17, 1887.—1m
