

"WHITE MEN SHALL RULE AMERICA."

McARTHUR, OHIO:

THURSDAY, --- MAR. 27, 1866

Dr. Condee's Last Notice.

All persons that have accounts against me, the undersigned, will please present them for payment by the 1st of April...

I have, also, a large amount of Household Goods, Horses, Carriage, etc., which I will sell at private sale between this and the 1st of April.

Dr. A. CONDEE.

Democratic State Convention--

Thursday, May 24th, 1866. The Annual State Convention of the Democratic party of Ohio, will be held in Columbus, on Thursday, the 24th day of May, 1866...

Secretary of State; Judge of the Supreme Court; Member of the Board of Public Works.

The basis of representation for the apportionment of Delegates is as follows: One Delegate for each county; one for every five hundred votes given for Gen. Governor W. MORGAN for Governor, last October...

The great issue before the people is, whether all the powers of Government shall be concentrated in the hands of the General Government--the States being reduced to the conditions of counties--and a consolidated despotism be thereby established...

The Secretary of the Treasury, Mr. McCulloch, will not reply to the inquiries of the Controller of the Currency, Mr. Clark. It was decided to remove him from office, but the Attorney-general has decided that the Controller can not be removed except for cause...

President Johnson, in reply to a dispatch from New Orleans, proposing to deny the new Mayor, Monroe, his office, says that he has no information that would justify such a proceeding. Mr. Monroe will therefore be inaugurated.

The Wisconsin Senate has passed a negro suffrage law. In favor of the fact that the people, by a large majority, voted it down at the late election.

According to the latest reports the Emperor Napoleon has agreed to evacuate Mexico in a year. The Government has refused all the copies of Bancroft's Lincoln oration in France, and will not allow it to circulate on account of its bitter attack upon France.

There is much dissatisfaction expressed that the Prince Imperial, son of Napoleon a boy ten years of age, should be nominated as President of the coming World's Fair in Paris, in the spring.

The House of Representatives of the Rump Congress has agreed to adjourn on Thursday in May.

There are no less than thirty-five thousand men under arms in Canada. The excitement is tremendous, and the greatest preparations are being made to receive the Fenian invaders.

Seventy-six arrests had been made in Ireland under the suspension of the habeas corpus, of whom forty-two were Irish-Americans.

The General Appropriation Bill in the Ohio Legislature costs up \$1,650,000. Immense as this sum is for the tax-payers, we are informed that it will be largely increased.

The New York News' Washington correspondent says the President will veto the Civil Rights Bill, which has been in his hands several days.

GREAT FIRE IN CINCINNATI, O.

Pike's Opera House Burned Down.

On Thursday night about twenty minutes past eleven o'clock, Pike's Opera House was discovered to be on fire. The play was concluded about half an hour before, and the audience had retired. The entire building was destroyed together with Summer & Co's, Sewing Machine department, Phillips & Co's, Piano manufactory rooms, Carroll & Co's, book store and several other establishments.

Loss and actual damage not yet received, as we got our news by the night Express that left the city when the fire was raging, at 12:28 on Friday morning.

STILL LATER.

The Cincinnati Enquirer office entirely destroyed, and the entire row to the lot alley east of Pike's on 4th St. Total loss will run to about two millions.

THE NEWS.

Out of eight hundred and fifty applicants, the President has appointed ten West Point Cadets in accordance with the law empowering the Executive to appoint annually ten Cadets from the country at large.

General Spenser, called states Treasury has prepared a statement of the condition of the National finances, which will be presented to Congress. Hereafter the monthly statement of the public debt will be prepared and published by General Spenser, in accordance with a suggestion from the Secretary of the Treasury.

An agent of the Russian Government has been in Washington during the present week, engaged in examining our system of disposal of public lands, with a view to the improvement of the system now in use by his own country.

The published report that fractional currency to the amount of \$1,200,000 is issued daily by the Treasury Department is incorrect.

The Superintendent of the Printing Division daily delivers from \$20,000 to \$100,000 in fractional currency.

The Concord (New Hampshire) Patriot says that the majority for Disunionists in that State will be considerably reduced from last year. It thinks it is one-third less. It says the Democracy did as well as could be expected when the fact is considered that the whole patronage of the President was allowed to be used against the friends of his policy.

The Secretary of the Treasury, Mr. McCulloch, will not reply to the inquiries of the Controller of the Currency, Mr. Clark. It was decided to remove him from office, but the Attorney-general has decided that the Controller can not be removed except for cause...

President Johnson, in reply to a dispatch from New Orleans, proposing to deny the new Mayor, Monroe, his office, says that he has no information that would justify such a proceeding. Mr. Monroe will therefore be inaugurated.

The Democratic State Convention in Rhode Island has met, and adjourned without making nominations of State officers. It passed resolutions indorsing the President and favoring the administration of the Southern members.

A Question Answered.

KINDERHOOK, PICKAWAY Co., O., March 12, 1866.

To the Editors of the Cin. Enq.: Sirs--You would confer a favor on a subscriber and constant admirer of your valuable paper by giving the following information: Are out door laborers included in the late act passed by the Legislature making eight hours a day's work?

Yours, &c., A WORKING-MAN. The language of the statute now pending in the Legislature is as follows:

"Sec. 2. That in all engagements to labor in any mechanical or manufacturing business, when the contract is silent on the subject or where there is no express contract to the contrary, a day's work shall consist of eight (8) hours, and all engagements, contracts or agreements for labor in such cases shall be so construed."

If the "out-door" work is of a "mechanical or manufacturing" character, then the eight-hour act applies. If any question arises under the act it will be upon the construction to be given those words, "mechanical or manufacturing."--Enquirer.

Arrest of Sterling King.

A man named Sterling King was arrested in Bowling Green, Kentucky, on the charge of horse-stealing. He was brought here and put in jail. This man escaped from several prisons in the United States where he was confined under sentence of death for being a spy, &c.

While the Stock Train was going east on last Saturday morning, on the M. & C. R. R., a spark from the locomotive set a car on fire containing forty-nine hogs. Twenty-two were burned to death, and the balance were all more or less burned. The accident happened between this point and Vinton Station.

We learn that a man was killed on the railroad east of this place, on Monday evening. He was lying on the track, and was not discovered until too late to prevent running over him.

We were also informed that another man was lying on the track a few rods beyond the one run over and very narrowly escaped the fate of the first. Some six or seven cars were thrown off the track of the M. & C. R. R., on last Saturday afternoon, at the tunnel near Moonville, some ten miles east of this place.

A number of the track hands started from Hope-tation, on a hand car, to assist in getting the cars on the track again, when they met with an accident on the tressel across a stream. One man was terribly bruised and cut by being caught on the crank wheel, and another had his arm broken. We heard that one man was drowned, but afterwards the report was contradicted.

New Hampshire.

The Dayton (Ohio) Journal says: "The Republican State ticket was elected by over 5,000 majority, being a slight gain of about 2,000."

Last year the Republican State ticket had 7,400 majority in New Hampshire, including the soldier vote. This year they have 5,000 majority. We would inquire of the Journal upon what side it counts its gain of 2,000 votes?--Enquirer.

The Civil Rights Bill at Washington.

By persons at Washington who do not look through Radical eyes, the Civil Rights Bill, which is still in the hands of the President, is regarded as a more detestable abomination than the Freedmen's Bureau Bill, and yet there are Republican Senators and Representatives who profess to believe the President will approve the bill.

Public Debt Increased Seventeen Millions in January.

It was the expectation of the public that the debt of the Federal Government would be decreased, now that the War is over. The expectation was just. They will therefore be surprised to learn from the regular monthly statement of the National Debt by the Treasury Department, that it increased seventeen millions during the month of January.--Statesman.

The General Assembly to visit Cincinnati.

Both branches of the General Assembly have now excepted the invitation of the Cincinnati Chamber of Commerce, and will start for that city on the 1:40 train, on Friday afternoon.--Statesman.

Thoughts on the Times.

BY THEOPHILUS THINKER.

President Johnson is still following the tailoring business--(The Radicals still call it Tylering business)--

But that don't make any difference--

He is giving Sumner and Stevens "fits," and

Is making "breaches" in the Republican party--

It don't "suit" them a bit.

He has "sewed" up Forney--

The tailor's "goose" has turned out to be a "dead duck."

Andy don't like "patch-work"--

Otherwise called amendments.

The Radicals will have enough to do a mending their ruptured party, without troubling the Constitution.

The Radicals don't like the spirit of Johnson's speech--

They say it is the spirit of Rye--

We should think so, from the way it riled them.

The Republicans now spoil the name of the past month February.

They rue the President's speech

We don't blame them--

It was very rude toward them.

The Freedmen's bureau was to have been composed of many drawers--from the public treasury--

It was fitting that it should be brought to a close (clothes).--

In view of his many letters, Governor Cox may be said to be all write--

From the way the Radicals "pitch into" his last epistle--

It might be called a letter de cochet.

Comfort for the Tax-payers.

A deficiency in the State Treasury preventing the payment of current expenditures, and an increase of seventeen millions in the Public Debt of the Federal Government during the month of January! There's comfort for the tax-oppressed people.

The holders of bonds, who are exempt from taxation, however, look on serenely. Rather an expensive luxury, Government in the hands of Republican politicians and Revolutionary and Malignant experiments.--Statesman.

Indiana Convention.

We learn from various reliable sources that the late Democratic Indiana State Convention was a perfect success; that its proceedings passed off to the entire satisfaction of the people, and that no doubt exists that the Democracy will carry the State by a large majority.

WOODFORD!!

THIS Celebrated Thorough Bred Race Horse is nearly 16 hands high, chestnut, well muscled and shapely. He was brought to this country in season, and proved himself a race horse, by his own success in a race against good Blooded Horses, not 1/2 a mile in this county, as his pedigree will show. The following letter which was received from Mr. R. A. Alexander, of Woodford county, Ky., who raised this Col. Woodford, and sold him into Ohio, is unquestionable proof beyond dispute of the Pedigree of Woodford:

SPRING STATION, Woodford Co., Ky., January 15th, 1866. Mr. WARREN LOCKE--Dear Sir--Yours of 15th December, arrived during my absence from home of several weeks duration; I now, on my return hasten to answer: Below I send pedigree as desired of chestnut col:

23 dam Vintner mare (B rd); The above Col. was sold at my sale in June, 1856, to Saml. Alexander, Green county, Ohio. Respectfully, R. A. ALEXANDER.

Woodford at Columbus, July 1865

23 day--Purse \$250, mile heats, best 2 in 3: 1st A. Alexander's Col. Woodford; 2nd. Moore's b. horse; 11. Waller's m. Kate Heaton, by Lexington dam Anna Stephens by Im. Trustee.

Woodford was the favorite, winning the 1st and 2d heats, and has distinguished himself at several races--(Wilke's Spirit of the Times. What may be said of him--he has never yet had a fair chance to show what he could do. He never had the proper handling and was run invariably out of condition being in hands unacquainted with race horses. What was done, was but the result of his uncutivated speed and his great endurance, he being a close descendant of old Boston and Sir Archy. No other blood ever run in the veins of a horse! Woodford was purchased and brought to this county for the purpose of improving the stock, and will stand the early part of the coming season for a limited number of good mares at the very low price of \$25 for the invoice. Mares from a distance will receive good attention and be kept at reasonable rates, on pasture or any kind of feed the owners may direct.
