Are Advertisements Ever Read?

In the course of a spicy article, answering this question, the Mobile Register says: "If any man affects to believe that advertisements are not read, let him advertise that he wants to buy a dog, for instance."

The following bill to amend an act to provide for the creation and regulation of incorporated companies in this State was passed at the late session of the General Assembly and is now a law.

SECTION 1. Be it enacted by the General Assembly of the State of Ohio, That Section thirteen of the above mentioned act be amended so as to read as follows:

SECTION 13. Such corporation or any corporation operating a railroad in whole or in part in this State, may demand and receive for the transportation of passengers on said road, not exceeding three cents per mile for a distance of more than eight miles, and for the transportation of property, not exceeding five cents per ton per mile, when the same is transported a distance of thirty miles or more; and in case the same is transported a less distance than ten miles, such reasonable rate as may be from time to time fixed by said company or prescribed by law; and every such corporation, company, person or persons who shall violate, or permit to be violated, the provisions of this act, or any other corporation, company, person or persons who shall demand or receive a greater sum of money for the transportation of passengers or property on or over their railroad than the sum allowed by law, shall forfeit and pay to the aggrieved a sum equal to double the amount of the overcharge, but in no case shall the amount of the forfeit be less than twenty-five dollars.

SECTION 2. That said section thirteen is hereby repealed, and this act shall be in force from and after its passage.

Wilhoft's Great Chill Cure. The unfailing ever faithful friend of the unfortunate who are afflicted with chills, fevers, agues, enlarged or enlarged spleen, sun pains and the dreadful frightful congestive chills that takes its victim in the short space of an hour or two.

This tonic contains no poison, no arsenic, no mercury, no quinine, nor any deleterious drug. It is as equally safe for every age, and leaves no racking pains in the limbs nor splitting pains in the head; but the renovated patient gets up a new man, and knows that he is whole once more.

As eminent scientific man explains why Prof. Anderson's Dermador acts so much more promptly than any other application in curing sore parts, as follows: The usual applications, such as plasters and poultices, confine the heat so it escapes with difficulty, and the cure must be slow.

The Dermador acts in direct opposition to all such applications—it keeps the skin moist, and instead of confining it conducts the heat off, and reduces the inflammation immediately.

Holloway's Pills. The physical disturbances to which females are exclusively subject, and the many disorders proceeding from their neglect or maltreatment, are at once relieved by Holloway's Pills.
