

**UNION Agricultural Works**

Westminster Md.  
WM. H. HARMAN & CO.

Take this method to acknowledge their debt to a generous public for the very liberal support they have received, it has far exceeded their expectations. They now assure the public generally, that with enlarged facilities for doing all kinds of work generally done in the best Foundry and Machine Shops in the whole country, they are now ready to furnish every article in their line—such as in part, as follows:

**THRESHING MACHINES.**  
SPRING TOOTH WHEEL HORSE LAKES, FLOORS of all kinds, and variety of Reapers, the Improved Patent Revolving Land Side Plough, Corn Shellers, and Agricultural Implements generally, at prices as moderate as any other establishment can afford to furnish the same, guaranteeing at all times all Machinery manufactured by us.

Having just completed a new and very extensive Foundry, we are now ready to supply Castings of all kinds of superior quality and finish at short notice.

By prompt attention to business, and a determination to maintain the standing and credit of our manufactory, we hope to merit the satisfaction of all our customers, and receive the continuance of the public favor heretofore so generously given.

**MCCORMICK'S MOWER AND REAPER.**

WM. H. HARMAN & Co., Sole Agents for the State of Maryland, this Reaper and Mower stands unrivaled in this country or Europe. We ask nothing more of any honest farmer than to give them a fair trial, whose true merit will show itself beyond doubt. We know that they will give entire satisfaction, under all circumstances. Messrs. McCormick & Bro. say to all who need or intend to buy a Reaper or Mower, "Take their machine and try it to your satisfaction through the Harvest with any other machine you can get, and keep which ever you like best." These machines combine all modern improvements of any value.

**ALSO AGENTS FOR GEISER'S Patent Self-Regulating Grain Separator, Cleaner & Bagger.**

At a time like the present, when labor is very scarce, it is important that Farmers, who are interested, should give attention to this improvement, which will considerably reduce the expense of Threshing Grain in the common way. This is now considered the best Separator before the public. It is particularly adapted to Farmers for their own use, and will apply to Lumber or Railway power, and will thresh and Clean from 100 to 150 Bushels per day, using four or six horses and as many hands.

**1871. Wheat Seeding.**

COMPOSED OF 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing qualities of Ground Bones.

Excelsior is a fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after TWELVE years' experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer generally offered for sale, therefore is fully 100 to 200 per cent. cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being initiated and counterfeited in this and other cities.

Farmers should see that Every Bag is branded as above, the Analysis and Our Name in Red Letters, all others are Counterfeit.

Price \$60 per Ton.
