LOCAL AFFAIRS.

LOCAL BRIEFS.

O. A. Haines, of Silver Run, has several thousand bushels of peaches in his Woodstock orchard.

Notwithstanding the drought the early sweet corn will be about three-quarters of a crop, so the packers say.

The German Baptist Brethren will hold their annual lovefeast at Sam's Creek Church on September 8th and 9th.

A horse belonging to George Simpson, near Linwood, recently slipped and fell over a pair of iron wheels.

At 8:30 p. m., on Wednesday, the mercury registered 114 degrees in the sun in front of this office, and 81 degrees in the shade.

Owing to the intense heat summer guests and visitors are loth to leave the country for the heated dwellings and pavements of the city.

At 10 a. m. yesterday, Friday, the Weather Bureau sent out the following bulletin: Fair tonight and Saturday; light to moderate winds.

Mr. Milton Chew of Heese, left at this office a dozen of the Netted Gem and Rockley variety of cantaloupes. The flavor was very superior.

Mr. Samuel F. Nall, near this city, favored an aged and well known variety of cantaloupes. A pair, grown together, he called Bryan and Stevenson.

On Thursday the Sunday schools of the Methodist Episcopal and Methodist Protestant Churches held an all-day picnic in the grove at the water works park.

C. Bradley Garner, porter at the Westminster, this city, was awarded second prize, for the best milk can, at a cake walk, at Hillman Park, near York, Pa., on Monday last.

Next Monday is a legal holiday. All the County Commissioners will meet on Tuesday, and the Orphans' Court on Tuesday and Wednesday.

Work on the new roadbed between Mr. Wilson and Frederick is being delayed on account of the difficulty in securing laborers. Several carloads of men have been brought to the work but they would not accept the \$1.25 per day.

The following fourth-class postoffices have been ordered abolished, the patrons being supplied by rural free delivery: Armacost, Baltimore county, near Hampstead; Beckwith, Baltimore county, near Hampstead; Beckwith, Baltimore county, near Hampstead; Beckwith, Baltimore county, near Hampstead.

Contributors to the Flower Mission this week were Mrs. J. F. Keffer, Mrs. J. F. Keffer, Mrs. Mary Reese Rinehart, Mrs. Hannah Hoppe, Misses Mattie Derr and Marguerite Stange, and a cake walk, Misses Mattie Stone and Elsie Elgin.

The many friends of Mr. Frank W. Shriver, formerly of this city but residing in Philadelphia, Pa., will regret to learn of the death of his wife, which occurred on Saturday last. Mrs. Shriver was a daughter of Mr. William Gregg, of Wilmington, Del., and was only ill a short time.

Mr. Albert Bankert, of Oakland Mills, Frederick county, is visiting relatives at Taney, attempted to get on an extra freight train at that place on Tuesday. His hold broke and he fell alongside of the track, fortunately escaping injury, though his clothing was torn from his body and the left leg of his pants was cut from the hip down.

Master Charles Hinler, brought to this office an early born worm which he found in a potato on his father's farm, near this city. Its color was brown and white, head and eyes like a snake, a small snout, with gold colored bands on the eyes, and two long horns protruding above the snout, occasionally yellow. The worm was an inch in length and was a rapid runner.

The suit for an injunction by Mr. John H. Blocher, of this city, against the School Commissioners of Carroll County, and the W. J. C. Dulany Co. of Baltimore, restraining them in their school law, was argued before Judge J. H. Norman, President of the Baltimore Business College, was in this city on Wednesday. He noted many changes since the County was argued before a full bench on July 12. Yesterday, Friday, a unanimous opinion of the court was filed sustaining the writ against the defendants.

Another Enjoyable Strawdride. The home of Mr. and Mrs. Stewart Roberts, near Medford, was thrown open to a large number of young people from this city and vicinity on Tuesday afternoon. They enjoyed a very delightful strawdride to their hospitable home. The house and lawn were beautifully decorated, and the guests were given a hearty welcome by Mr. and Mrs. Roberts and their daughters, Misses Bessie and Bertha Roberts. After an exchange of greetings guests were induced in on the lawn, and continued till a late hour, when all retired to the comfortable dining room, where instrumental music and conversation occupied their attention until refreshments were served in abundance. About 12:30 good nights were respectively said and the young folks on their homeward way, which was enlivened by singing, blowing of horns, etc., but not by driving out. Mr. Edward O. Diffendal furnished and accompanied the team. Mr. Norman Leister acted as teamster.

Miss Mary Leister, of Baltimore, is visiting friends around here. Mr. S. H. Hoffacker is receiving applications for a license to sell liquor.

Miss Mary Leister, of Baltimore, is visiting friends around here. Mr. S. H. Hoffacker is receiving applications for a license to sell liquor.

"AN OPEN DOOR TO WESTMINSTER."

A Large Meeting in Opposition to the Washington and Westminster Turnpike—Another Meeting to be Held September 10.

The above was the heading of an advertisement which appeared last week in the Westminster papers. It was a notice of a meeting to be held at the Washington and Westminster Turnpike, on the 10th of September, at 10 o'clock, a. m., at the Westminster Hotel, to discuss the proposed road from the line of the proposed new road and from this city to the line of the proposed new road.

A letter was read from Dr. Charles Billingslee, of this city, regretting his inability to be present and expressing his hearty sympathy with the objects of the "Open Door to Westminster" meeting.

The meeting was addressed by Messrs. O. Newton Lee, Ezra Copestake, W. M. Mather, John B. T. Selman, Dr. F. S. Shipley, Harry Owens, Charles C. Gorschuch, O. D. Gilbert and others, most of whom expressed in condemnation of the condition of the new turnpike.

Mr. John F. Williams objected to the laying out of a new road through Morgan Run Valley, as it would only refer to the people in that section and leave the people on the Park side in a better condition than at present.

A committee was appointed to draft resolutions expressing the sense of the meeting, viz.—Messrs. Joseph I. Cox, Charles C. Gorschuch, John B. T. Selman, E. O. Grimes, Frank Snyder, O. Newton Lee, Frank Frick, William O. Lockard, Harry Owens, William Prugh, E. E. Stoner, O. D. Gilbert, Joseph B. Boyle and John B. T. Selman, who reported the following, which was unanimously adopted:

"Resolved, That this meeting call in a body on the County Commissioners and inform and explain to them the situation that now menaces, hinders, detracts from and endangers the business and growth of the city of Westminster and the good of the county, and request their aid in opening a parallel road, free and without charge, to and from the city of Westminster."

Mr. L. Howell Lamotte, of New York city, is visiting relatives in Woolery's district.

Mr. Fred D. Miller, of Miller Bros., is visiting relatives in Chicago.

Dr. Young Bond and daughter Miss Daisy, of St. Louis, Missouri, were guests of his brother, ex-Judge James A. C. Bond on Tuesday.

Mr. Eugene H. Hathaway, superintendent of the Division of Free Rural Delivery, was in this city on Sunday. He has fully recovered from his late illness.

Mr. Frank A. Wilt, of Laurel, Md., was a guest of his mother-in-law, Mrs. J. H. Wilt, of this city, on Sunday.

Mr. J. H. Wilt, of Laurel, Md., was a guest of his mother-in-law, Mrs. J. H. Wilt, of this city, on Sunday.

Mr. J. H. Wilt, of Laurel, Md., was a guest of his mother-in-law, Mrs. J. H. Wilt, of this city, on Sunday.

Mr. J. H. Wilt, of Laurel, Md., was a guest of his mother-in-law, Mrs. J. H. Wilt, of this city, on Sunday.

Hicks' Forecasts for September.

The first three days of the month promise reactionary storm conditions that will make themselves generally felt. Moon at first quarter and extreme declination south on the 2nd, indicating that the low pressure and scattering storms of the month will first days of September will break up suddenly with quite cool, northerly winds, a rising barometer and probable frost northward, say from the 25th to 30th.

The Volean storm period on the 8th, and extending from the 6th to 11th is fully within the grasp of the Earth, Venus and Mars periods, with the Moon on the celestial equator and all planets in and perigee on the 8th. We predict that very marked disturbances on land and sea will develop at this time. The storms of this period will advance progressively from west to east, and along the coast from the south to northeast, from Saturday the 8th to Tuesday the 11th. Keep a cool eye on the indications, through these dates, and heed all reasonable warnings of coming storms, especially on the seas and lakes. We predict that a rapid and great change to high barometer, high northwest gales, and very much cooler weather will follow, progressing from about the 10th to 12th.

The present Mars period is central on October 4th and extends to the end of that month, therefore we predict that the weather and general conditions of the month will be characterized by which may be expected until approximately the end of October. Of course, we mean in kind, but not in degree, as very open and a hot and dry October would necessarily be cooler and more autumnal in character than open, warm weather in September. We believe, however, that this September will bring an early visitation of very warm weather to most parts of the country, with dashes of sleet, snow, cold frosts in many western and northern sections.

It was prophesied that the corn would be a failure, but since Bryan was nominated it is looking better, and by election day it will be O. K.

Mr. David Starner has a cow who about two weeks ago dropped a six-legged calf. It is a perfect picture of health and uses all of its legs in walking.

Mr. David Starner has a large trade in line this season.

A Birthday Dinner. Last Monday was the 72nd birthday of Mrs. Mary J. Ziehl, of this city, who is a very unusual combination of storm producing causes. There are two distinct periods of disturbance within the Mercury Belt—16th to 27th—17th to 28th, the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th. But moon is on the celestial equator on the 24th, and new and in apogee on the 25th, which facts, together with the fact that the storm centers centering on these dates, indicate that a spell of prolonged stormy and violent weather will prevail all throughout the Mercury period.

There is another one of these periods in the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th. But moon is on the celestial equator on the 24th, and new and in apogee on the 25th, which facts, together with the fact that the storm centers centering on these dates, indicate that a spell of prolonged stormy and violent weather will prevail all throughout the Mercury period.

There is another one of these periods in the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th. But moon is on the celestial equator on the 24th, and new and in apogee on the 25th, which facts, together with the fact that the storm centers centering on these dates, indicate that a spell of prolonged stormy and violent weather will prevail all throughout the Mercury period.

There is another one of these periods in the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th. But moon is on the celestial equator on the 24th, and new and in apogee on the 25th, which facts, together with the fact that the storm centers centering on these dates, indicate that a spell of prolonged stormy and violent weather will prevail all throughout the Mercury period.

There is another one of these periods in the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th. A Tournament and Bicycle Contest at Hampstead.

Many persons attended a tournament at Hampstead on the 26th ultimo. There were three entries in a bicycle race, the contest was won by John W. S. Slick, who received the first prize, a silver teapot; Charles Wells, second prize, gold cuff buttons, and Cleveland Leppo, third prize, a bicycle.

The successful knights in the tournament were: First class—George P. Baseman, Knight of Freedom; Lee Adams, Mount View; Samuel Shaver, St. John's; Arthur H. W. Shady Maple, Second class—Grant Baseman, Knight of Oakland; W. E. Shirley, Harrison; R. H. Mercer, St. John's; Charles J. A. Valley, Brock. A general championship prize of a gold medal was given to the Knight of Freedom for having taken the greatest number of rings—30—at the tournament. The officers of the tournament were: Cashier, John W. S. Slick; Marshal, Row Shover, Arthur Murray, herald; Peter Buchman, Charles W. Gray, Kenneth Mason, judges; the referee, Mr. Guy W. Steel, of the Westminster Bar, and the prizes were presented by Mr. Harry E. Goodwin, of the Baltimore Bar.

Bachman's Valley Items. Miss Ida Stangor, of Baltimore, is visiting relatives and friends in this vicinity.

Mr. Harry Ziehl, of this city, who is a very unusual combination of storm producing causes. There are two distinct periods of disturbance within the Mercury Belt—16th to 27th—17th to 28th, the Volean storm period, 17th to 21st, and the reactionary storm period, indicated by the stars 24th to 26th.
