FRIDAY AFTERNOON, APRIL 22, 1910

LOCAL AFFAIRS.

Today was Arbor day. The County Commissioners are expected to appoint the district assessors on Monday. Edward Orendorf, East Main street, had his house painted this week. W. S. Arbaugh was the painter. P. E. Trotter, of Waldorf, Md., is in Westminster selling lightning rods for the Carroll County Rod Company. Ray Spencer is playing left field on the New Orleans club. On Sunday he helped to win a close game against Mobile club, by making a single and stealing a base. Clayton Butler, son of Mr. and Mrs. Eli Butler, West Main street, has resigned his position with State Roads Commission and has accepted a position with the Western Maryland Railroad surveying corps, with headquarters at Mount Savage. A cow belonging to Mr. Alva Zimmerman, of Loy's station, gave birth to a curious calf. It had six well developed hoofs, and two small ones, making in all, eight hoofs. The head was a curious mixture of dog and tiger, the lower jaw protruding at least five inches further forward than the upper jaw and having four ears. Monday afternoon at the courthouse door, Towson, 240 acres of land near Pinksburg Station on the Western Maryland Railroad was sold to Mr. Frederick A. McGlone, agent, for \$3,500. The property is improved by a large dwelling, barn and other buildings. Attorneys Robert H. Bussey and George R. Gaither were the trustees. The assessors at large for Carroll county appointed last week by Governor Crothers are as follows: James B. Reaver, Taneytown; R. Lee Myers, Linwood; Geo. E. Marker, Westminster; A. Frank Crouse, Mt. Pleasant; John Reaver, Manchester; George R. Rupp, Hampstead; C. W. Selby, Taneytown, and Adolphus Chenoweth, Sykesville. On Wednesday the case of Baltimore and Ohio Railroad vs. the County Commissioners of Howard county, was argued before the Court of Appeals of Maryland by Curtis Neal Parke and Jas. A. C. Bond for the B. & O. R. R. Co., and James S. Donovan and Guy W. Steele, for Howard County Commissioners. The case was appealed from the Circuit Court for Carroll county. Mr. Jacob Myers, of Union Mills, living on the farm of Mr. David Ehrhart while driving the horses in a threshing machine on April 19, the rod of the machine caught his pants, winding his leg around the rod, causing a dislocation of both bones of right leg two inches above the ankle joint. Dr. Lewis Wetzel, of Union Mills, called Mr. L. Bott in consultation to reduce the fracture. The Pittsburg and Lake Erie Railroad Company is planning the construction of large freight yards at Dawson's Run, Pa., to accommodate the increased traffic resulting from the traffic alliance between the New York Central Railroad Company and the Western Maryland Railroad Company. The new yards will be used by both the Western Maryland and the Pittsburg and Lake Erie. A bank barn on the farm of J. Clarence Baughman, at New Freedom, was destroyed by fire supposed to have been started by a spark from a locomotive on the Northern Central railway Saturday. A horse perished in the barn and a hen house and wagon shed were destroyed. The cows were saved only after one of them had been badly burned. The total loss will reach several thousand dollars. President B. F. Bush, Vice President Alexander Robertson, Mr. H. R. Pratt, chief engineer of the road, and other officials of the Western Maryland Railroad Company, passed through this city on Tuesday for an inspection of the road. The trip is being made in connection with the proposed extension from Cumberland to Onnellsville, Pa. The contract for the work was let a few days ago to the Carter Construction Company, of Pittsburg, Pa. The Board of Managers of Springfield Hospital for the insane met on Wednesday at the institution at Sykesville with Governor Crothers. The managers will consider plans for the erection of new cottages, which will provide accommodations for about 400 more patients. It is believed that four new cottages will be erected. It is estimated that the buildings will cost about \$200,000, which amount may be taken from the bond issue of \$600,000 for the State care of indigent insane. The people of Westminster came very near seeing quite an exciting runaway Monday of this week. A freight train while shifting some cars at the station, left the main part of the train, which was heavily loaded, standing on the main line, when a shifting car struck the standing train and the whole train started toward New Windsor. The engine being on a switch could not prevent the cars from moving. A citizen of Westminster, who is manager of the Star Theatre, and one of the breakmen ran and caught it before it had gained much momentum, and by the use of the breaks the train was brought to a standstill.

The stork visited Mr. and Mrs. Geo. Sterner Tuesday morning and left a fine little daughter. The family driving horse of ex-Sheriff J. Oliver Murray, of Hampstead, died this week at the age of 37 years. This horse was a famous roadster and the ex-sheriff prized it highly. The rain of Sunday, Monday and Tuesday has benefited the crops to the amount of thousands of dollars, and springs, wells and streams which have been very low have been revived. The sink hole which appeared under the main track of the Western Maryland Railroad below the gas house several years ago and was filled up sank again some time on Tuesday and left another large hole, which was filled up for the second time by a force of railroad employees.

Thomson gathered at his residence the first of the week to see if he remembered the date of his birthday. He knew about his birthday but not about his friends who came to surprise him.

"HE SMILED HAPPILY." (Communicated.) Yes, but he smiles best who smiles last. Under the above heading, the readers of the Advocate were treated last week to a clipping from the Hagerstown Mail, the most conspicuous feature of said clipping being its lack of agreement with the facts in the case. The clipping says to start with, "Those citizens of Union Bridge, Carroll county, who contributed funds to the Anti-Saloon League in order to pay the expense of getting a three cent prohibition bill passed for that section are now scowling darkly and wishing they had left their money in their pockets." The facts are the citizens of said town or vicinity never contributed and money at all for the passage of any bill whatsoever. I mean the citizens in favor of the local option did not. I am not sufficiently informed to speak with certainty for the others. The clipping attributes the whole sentiment and stir-up here to the appearance in our town of a man it calls Dr. Bunker Hill. There are very few, that one of the largest and most representative bodies of citizens ever assembled for the purpose of enacting a law in this locality greeted Mr. Anderson on his first appearance here, is proof sufficient that our people here had at least some sense of right and wrong on the whiskey question before he came. And long before Mr. Anderson ever walked through the hospitable halls of Union Bridge, an overwhelming majority of her citizens were and are still in favor of local option and are demanding a more sober town in which to live. For the past five or six years and especially the past six months, the complaints against carousing and indecent drunken conduct, constantly on the increase has become a matter of common notoriety. The testimony of many of the very best citizens both in and out of town make it positively certain that we are fast losing our reputation as a civilized sober town. The very fact too that a large majority of our voters signed a petition favoring a three mile prohibition law, without near all the voters having been canvassed, is proof positive of the demand for such a law. Now if editor of the Hagerstown Mail will come down to our town, I will meet him at the station, drive him to my home, and give him a genuine old-time southern welcome; but he must promise to drink only milk and water while my guest. I will give him then, too, free of charge absolute proof of the above statements. I will tell him that there is no such place as "Union Bridge College Institute;" that there is nothing here "soon to be renamed Blue Mountain College;" that the prohibition bill of which he writes was not even so much as hinted at by Mr. Anderson and certainly not "proposed and promised by him" as he states. (It is probable that Mr. Anderson knew nothing of a bill before it came to Annapolis.) I will tell my guest further that the manager of Maryland Collegiate Institute now named Blue Ridge College did not "give up \$150 for expenses" of aforesaid bill for that of any other bill, but that, at a general temperance meeting held in our College chapel, at which Mr. Anderson was present only by urgent request, the above sum was gladly contributed by the citizens of this place for the general work of the local option league. In the fear of God, we gladly gave to free our fellows from the bondage of rum, to shield our home from the blighting curse strong drink, and to hand down to our posterity a government by the people clean and just, which shall not allow the strong to oppress the weak, nor even by the cunning devices of king alcohol. Nor do we "scowl" nor suffer chagrin nor wish our money back as he says anywhere in the clipping, but we are proud of the appearance in our town of a man it calls Dr. Bunker Hill. There are men by the thousands even in this age, I tell my guest, who live above enriching themselves by peddling their fellows; yea, there are those who will impoverish themselves by gifts of money, time labor, reputation, and more, to free and enrich their fellows, to find their own truest wealth and greatest joy in the highest common good. He whose heart throbs not in pity for the drunkard in his helpless hopeless woe, nor for those who suffer most by his bondage, must be either a god or a beast, and I am persuaded he is not a god. This is the twentieth century not the fifteenth, and calls for a brother's hand, not the fallen cap of the drunkard, but the hand of the thrice-cursed and thrust down and bind by chains of sin. I would, indeed, further tell my visitor that he made a slight mistake in telling the public that the three saloons here have been running for the past few decades without the slightest complaint as to their methods and that the \$750 license they pay go to support the town. As to complaints public sentiment here speaks for itself. As to the \$750 not one cent goes to support our town. It all goes to the county and state. The town has gotten absolutely nothing but a bad reputation, losses and additional expenses from the sale of liquors within her limits. My prospective guest says the three saloons have been running for four decades. Suppose their gross sales were each \$3000 per year. (They probably average \$5000.) Then at that rate, they have been pouring in here for decades without the slightest complaint as to their methods and that the \$750 license they pay go to support the town.
