MISCELLANEOUS. WESTMINSTER NURSERY.

Millions of Fine Young Trees and Plants Growing. We recently visited the grounds of the Westminster Nursery, near Westminster, located on the Gorsuch Road.

The trees and plants have every indication of health and vigor, scarcely a weed was to be seen, and were finely arranged in blocks.

In one block of peach trees Mr. Stoner stated, that there was over 100,000 budded peach of the best kinds on seedlings grown from the Kansas Natural Seeds known for their hardiness.

There was much California Privet Hedging, several blocks containing over 150,000 young plants.

The Westminster Nursery is for a young industry, a credit to Westminster and Carroll County, and a visit there will give you some idea of its stock. It imports yearly thousands of fruit and ornamental stock from France and will bid this season upwards of half a million peach, apple, pear, cherry and plum trees.

It ships yearly stock to most every state east of the Mississippi River, through Maryland, Pennsylvania and New York, gets the bulk of it. Mr. Stoner stated that one nursery firm in New York received last spring over 30,000 plants and trees.

Mr. Stoner has spent his entire life in growing nursery stock and seems to understand the business.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

A Record of Thirty Years. We call the attention of our friends to a record we are both proud of and thankful for, and that is, THIRTY YEARS of continuous business, the same kind of business, at the same place, with the name of Nathan I. Gorsuch at the head. We are Still Buying Farm Produce, and especially want New Wheat and Rye. We also Solicit Farmers Exchange Business, and our friends can leave Wheat with us and get Flour for same as they want it, during the year. N. I. GORSUCH SON CO. Westminister, Maryland.

Hammock Time is Here. The convenience and pleasure to be had from a good hammock in the summer time will prove a revelation to those who have not had the good kind. A poor hammock that has no shape cannot be comfortable nor safe, and there is no pleasure in them. We would like to show you a hammock that is built for actual use and for continual use. There is the greatest difference in hammocks, as you well know. Let us show you the good one. D. S. GEHR, THE HARDWARE MAN ON THE CORNER.

DOG'S TEETH HURT BOY'S LIPS; HE DIES. Wound Made in May Last Was Forgotten, but Slight of Water Discloses Hydrophobia. Little Thomas Dennis, five years old, died in Bellevue Hospital yesterday a victim of hydrophobia. The boy, whose parents live at No. 404 West Fifteenth street, was bitten by a dog last May. The wound was cauterized and healed. He seemed apparently in good health until a few days ago, when an attack of illness, which was later aggravated when he saw water, revealed to a physician that he had rabies. He was hurried to Bellevue. His parents wished to have him take the "pasteur" treatment, but the physicians said it was too late. Dr. Donovan, who was in charge of
