

The Democratic Advocate

WESTMINSTER, MD.

FRIDAY AFTERNOON, JULY 29, 1910

MEETING OF DIRECTORS.

The Board of Directors of the Democratic Advocate Company will meet in the Advocate office, on

TUESDAY, AUGUST 2, 1910, at 2 p. m., to transact such business as may come before them.

J. H. BILLINGSLEA, President.

SPECIAL INTERESTS.

In this day of graft and greed, of legislation being bought and sold, of the passage of laws for the benefit of the few at the expense of the many, the Jeffersonian doctrine of "equal rights to all, special privileges to none" is particularly applicable. It is the pole star by which the Democratic party should steer, as by so doing it will afford an opportunity to the honest men of all parties to join with it, and in its success come into their own.

The disgraceful scenes which took place in Washington, in the preparation of the new tariff, are so recent that they can be recalled by all. In the preparation of this act only those men whose private interests were involved were considered or consulted, and the tariff was written to please them. No consideration was given to governmental needs, when opposed to the wishes of the beneficiaries of high tariff, and so it is that although the tariff was lowered on some few articles that are not manufactured here or are not in common use, yet on the ordinary things of life, such as stockings and clothes, things necessary for the common and ordinary existence of today, it was raised. Its effect was immediately felt, and the people have since suffered in order that millions might be poured into coffers already filled to overflowing, for it was so skillfully arranged that the special interest, the favored few, would get \$7.00 from the consumer, in order that the government might receive \$1.00.

Although the Democratic party, in recent years, has had little opportunity to show that it is not allied with and controlled by what is called the "business interest" of this country, yet its fundamental doctrine being so opposed to governmental favoritism, it follows that it can be more safely trusted than the Republican party to war against those men who seem to think they have a right to prey, by law, upon the ninety million of people in this land. So long have they enjoyed special advantages, so long been granted special favors, so often called upon to furnish the alms of war, by which elections have been purchased, that they now think the whole object and purpose of the government is to legislate for their special benefit.

When it costs more for a Congressman to be nominated than he can possibly receive from his salary, it shows that those who furnish the cash naturally expect to be handsomely repaid in some way; they have in the past, and we can reasonably expect in the future will be paid, by the continuation of laws passed for their special benefit. No one for a moment would dream that the Hon. Joseph C. Sibley spent \$40,598.88 to win the Republican nomination for Congress in the 25th district of Pennsylvania, yet he spent this sum of money, and as there were only 10,446 votes cast at the primaries, they cost nearly \$4.00 apiece. No one believes that the "business interests" of the country would have spent this money, if they did not expect to get it returned, and how could Mr. Sibley return it, except by favoring them? As his salary for two years will only be \$15,000.00, it is absurd and ridiculous to think that he would have spent his own money for this purpose.

Thus it is that these Trust Magnates, "Big Business," by representation in the National House of Representatives indirectly obtain legislation for their benefit and against the interest of the people. The only way left for the people to return to their own is by electing to office men upon whom they can rely, men who will be governed in all their actions by the rule of "equal rights to all and special privileges to none." In this way only will the Republic be saved from being exploited by these favored few, who have grown so accustomed to robbing the people that they look upon it as a God-given right, as did the feudal barons consider it their right to administer the high justice, the middle, and the low. Before they passed away they ruled with an iron hand and sallied forth from their castles on the hills, to rob and pillage the helpless people who tilled the valleys below, looking on them as their natural prey, as the trust barons of the present day consider the consumers. But their order perished and passed away, and the moral awakening of the people will likewise overthrow the robber barons, who build castles in Scotland and hospitals in America with their filgotten spoils, with the money which is wet with the sweat and tears of the millions who toil and labor hourly for them, as they strive for their daily bread.

WESTMINSTER AS A SUMMERING PLACE.

We are glad to note the number of persons who are summering at the Hotels and Boarding Houses of our city. Westminster certainly possesses many advantages as a summer resort.

It is situated on Parr's Ridge, one of the prominent foot hills of the Blue Ridge Mountains, and is the highest point between tidewater and the Blue Ridge Range, being 259 feet higher than Thurmont. Its water supply is abundant and of the finest quality, is indeed Mountain water, and equal in quality to any of the famous Mountain waters.

The railroad service is first-class the trains being as fine as the best that come out of Baltimore, and making the run between Baltimore and Westminster inside of an hour.

The town is supplied with gas and electricity, with telegraph and telephone, and every other facility for the comfort of our own citizens, and those who come to visit us.

Westminster lies in the lap of one of the most picturesque and fertile sections of Western Maryland. On every side of the city there are superb landscape views, including a perfect view of the range of the Blue Ridge Mountains, on every day when the atmosphere is clear.

A year ago, when the Maryland National Guard encamped for ten days upon the suburbs of our city, they left with the unanimous expression of officers and men that it was, by odds, the most delightful camping place the Guard had ever occupied.

Fresh vegetables come into the market every day from the surrounding country, together with poultry, eggs, milk and butter, all of the freshest and best quality.

So that our hotels and boarding houses are always supplied with the best that such a market can afford. The citizens of Westminster are noted for their hospitality and are always glad to see persons coming to enjoy the fresh air and attractive surroundings of our city.

HON. B. F. CROUSE.

The many friends of State Insurance Commissioner, Mr. B. F. Crouse, of this city, who is now at the Johns Hopkins Hospital, Baltimore, will be pleased to learn that his condition is not regarded as serious by the physicians of that institution who have examined him. Mr. Crouse has not been up to his usual standard of good health for several months.

His case has been somewhat obscure to his medical attendants, and in order that a clear diagnosis might be made, and his case fully understood, he has gone to the Hopkins Hospital. There they not only have the highest medical skill, and intelligent trained nurses, but the Hospital is equipped with all the modern appliances for ascertaining the true nature of disease.

The doctors at the Hospital assure Mr. Crouse that he is not laboring under any organic disease, but that he is in a thoroughly "run down" condition, with highly impoverished blood, and that it will require some months to build him up, but they believe he will ultimately be brought back to his normal condition of health. This is highly gratifying to his family and to his large circle of friends throughout the State.

ASSESSMENT BLANK.

The blanks sent out by the assessors to the tax payers must be filled up by them with a description of their taxable property. This should be done at once, so that they will be ready for the assessor when he calls for them. The affidavit is to be made before the assessor and costs nothing. If the party is living outside of the State and will not be seen by the assessor it can then be made before any one authorized to administer oaths.

In making up this schedule the law requires that the name or names of the tracts or parcels of land must be given, and the number of acres in each and their value per acre. Reference must also be made to the deed or other title papers under which the land is held. When the property is located in town the number of front feet of each lot, as well as the number of the house and the name of the street upon which it is located, must be given.

It is important that everyone attend to this carefully and promptly. Not only will it result in the saving of the assessor's time, and thereby your money, but its exactness will enable the records to be made complete. Too much care cannot be taken, in order that the land assessed will be so clearly described, that a stranger would be able to locate and identify it.

At present Mr. Roosevelt is not taking sides with the standpatters or the insurgents, but is hearing both. Most people can not understand, in view of his public declarations, how he can support the Taft administration. They need not be surprised, however, if he does, because it will be nothing new for him to change his statements and nominate for membership in the Ananias Club any one who has the temerity to call attention to what he previously said.

Senator La Follette, leader of the Insurgents in the Senate, will submit his chance for re-election, to the Republicans of Wisconsin, on September 6th at a primary. If endorsed by the people he will expect the legislature to ratify their claims. He should win, but "Business" is against him.

DRY GOODS.

BABYLON & LIPPY CO.

T. W. MATHER & SONS, Westminster, Maryland.

Our farmers should not forget that the 25 cents duty on Canada wheat is helping to keep their at a living price. Some of the consumers may grow but they get their protection too. Don't let anyone fool you this fall.—American Sentinel.

But how does this duty help the price of wheat? America exports wheat, does not import it, and every one knows the price here is fixed in Liverpool. Is not then the statement intended to deceive?

Speaker Cannon has taken to the Chataqua platform. We can now expect trouble in these otherwise peaceful assemblies.

Roosevelt will make two tours of the country this fall in a private car and will speak from the rear platform to the public. We confidently expect strife to follow in his wake. Teddy is not a pacifist.

WANTED.
Good Store Clerk, must be well recommended and married. Baile, Engel & Co., Medford, Md. July 15 St
