Maryland's Jockey Club's Fall Meeting.

The fall meeting of the Maryland Jockey Club takes place at Pimlico, October 15th to 31st, inclusive, and if anticipations are only half realized it will be the most interesting ever held by the club.

In the number and quality of horses that will take part it promises to far exceed that of any former meeting, while the improvements to the track and grounds will commend themselves to the horse-men as well as the public.

New stables have been erected, the track has been widened, and the steeplechase course thoroughly overhauled, so that now Pimlico will compare favorably with the most modern plants in the country.

Among the prominent owners who have signified their intention of being on hand are Mrs. R. W. Walden, August Belmont, Thomas Clyde, W. F. Pregrave, H. P. Whitney, S. C. Hildreth, Fred. Littlefield, G. R. Tompkins, Jr., R. F. Carman, G. R. Tompkins, A. H. Higginson and many others.

On Saturday, October 15th, the opening day, the famous matron stakes will be run in two sections, one for colts, the other for fillies, each being worth about \$10,000 to the winner. S. C. Hildreth's Novelty, that won the Futurity in one of the entries, and also Bashit, for which Harry Payne Whitney gave \$30,000 at the sale of the Newcastle stable.

The first race will start each day at 2.15 p. m., and there will be six races, including a steeplechase daily.

Apple Cutting.

For the Advocate.

Misses Viola and Pauline Barnes were assisted by their many friends on the evening of September 21, in preparing apples for the kettle. The older folks came early in the afternoon, and spent quite an enjoyable time together, but not forgetting all the while to keep their busy knives going.

In the early evening, after the older folks had disappeared, their younger companions began to gather at the apple basket. All were as busy as could be expected until about nine o'clock, when some one cut the last apple, then the scene changed to the dining room, where refreshments were served in a plentiful state.

After everyone had his or her share of the good things that were to be had on the occasion another scene took place where the young people were standing around the piano enjoying themselves in music and songs. All were sad to see the last moments come when it was time to depart, but as all earthly things must have an end, thus ending the pleasant and well spent evening.

Those that assisted in the afternoon were Mrs. Joshua Peeling, Mrs. Fred Zentz, Mrs. John Conway and Mrs. Lewis H. Haines. Those that assisted in the evening were: Misses Mary Stockdale, Maggie Zepp, Edna Barnes, Viola Barnes, Messrs. Vernon Stockdale, Snyder Arnold, Irving Barnes, Walter Barnes, V. B. Griffice, Jarrett Shauk, Worth Barnes and Chas. Conway.

Wreck on W. M. R. R.

An extra westbound freight train was sidetracked by Western Maryland passenger train No. 6, which left Hagerstown at 7 o'clock Wednesday morning for Baltimore, the accident occurring at a siding one mile west of Thurmont. The engine of the passenger train was derailed and its engine, V. H. W. Straw, of Baltimore, had both legs badly bruised.

Seven of the freight cars were derailed and damaged and traffic was blocked during the forenoon.

At the point where the accident occurred there is a decided grade and also a reverse curve. The freight was taking the siding, but the rear cars had not cleared the main track when the passenger train rounded the curve. Engineer Straw attempted to stop his train, but had succeeded in reducing the speed only to about 12 miles an hour when his engine struck the freight. None of the passenger coaches left the track, but the passengers were badly shaken up.

After being attended by Drs. Keenan and Wachter, of Thurmont, Engineer Straw was taken on to Baltimore from Hagerstown, and Union Bridge wrecking crews were sent to the scene and had the track cleared and trains running by noon.

The Western Maryland College football team defeated their old rivals, Dickinson College, at Carlisle, Pa., on Saturday by a score of 3 to 0.

Both teams were evenly matched and the contest hard fought. The scoring was done in the second quarter, when trick plays the visitors worked to the 25-yard line, and in a fake rush Twigg, the quarterback, kicked a goal from the field.

SYKESVILLE AWAKE!

TO ESTABLISH AN EXTENSIVE CREAMERY.

Declares 25 Cents Per Gallon for Milk Not Too Much.

Complaints of lower prices paid by Baltimore dairymen for milk, as compared with wholesale prices in other nearby cities, has resulted in a movement at Sykesville, one of the main shipping points in the Baltimore district, for the establishment of a creamery.

If the plans being considered are carried out—and the milk producers in that vicinity are enthusiastic over them, as was discovered by a reporter of the News, who made a trip through the section—then milk from the surrounding country will be shipped to the creamery instead of to Baltimore, and will be sent in bulk from the creamery to the city making the highest bid for the product.

Much of the agitation for the establishment of the creamery, according to reports made to The News representative, is due to the fact that farmers only a few miles further up the state, who ship milk to Washington, get higher prices for their product, although this milk is retailed in Washington at the same price as the milk from Baltimore. The consumers pay in Baltimore what better prices for their milk and their argument appears to be that by handling the milk in bulk through their own creamery they can ship it in good condition to Washington or Philadelphia, in which latter city also milk sells at wholesale for higher prices than in Baltimore.

Touring through Howard, Frederick and Carroll counties in an Auto-car, the representative of The News found on every side that the farmers were complaining of the comparatively small price paid for milk in Baltimore and seeking ways to develop new markets for their product. Investigation showed that about 1500 gallons of milk are produced daily in the Sykesville district, and that practically all of this would be handled through the creamery if it is erected.

A man from the West who is an expert at establishing and building creameries has been in Sykesville looking over the territory and perfecting plans for the creamery. Just when work on the plant will begin could not be ascertained.

Samuel Shipley, State Dairy and Cattle Inspector for Howard and Carroll counties, who has a large dairy farm about three miles outside of Sykesville and who ships 40 and 50 gallons of milk to Baltimore daily, strongly advocates the creamery. He says it will not only help the farmer to get better prices but will offer him an incentive to keep his cows. The milk that comes from the creamery will be less apt to sour, and consequently if Washington or some other city outside Baltimore for the milk it can be safely shipped right through Baltimore to some other point.

"I believe that the prospective creamery, which is being backed by farmers far and near, will help us to get a better price for our milk," said Mr. Shipley. "We will have to get better prices or else go out of business. There is no profit in dairy farming now, and when one stops to consider how the number of cows is decreasing it is really alarming. You hear so much talk about the scarcity of pasture, but this is not the root of the while evil. The farmer is getting careless these days and is not keeping cows like he used to."

If the creamery is built at Sykesville it will prove a blessing to the farmer who ships milk there. It will not only take our surplus milk, but will help to keep up the price and this is what we want. I do not think, however, that the retail dealers in the cities should raise their price of milk to 10 cents a quart. If this is done I will demand 24 cents a gallon.

William Moser, who has a small dairy farm near that of Mr. Shipley, also complains about the low price for milk he is getting from the Gardiner Dairy in Baltimore. He has been getting 16 cents a gallon, but will get 18 cents in a few days. He had been shipping 20 and 25 gallons, but on account of the scarcity of feed and pasturage is only shipping 10 gallons.

William L. Hammond, owner of a big merchandise store, mill, many houses and a 400-acre farm near Hoodsville, about 35 miles from Baltimore, is another Carroll county farmer who declares the producer must get more for his product or get out of business. Mr. Hammond had been, until the present drought, shipping into Baltimore every day about 125 gallons of milk, but his shipments now amount to about 45 gallons. Mr. Hammond has been seen by many Baltimore dairymen who have offered him 19 and 20 cents a gallon for milk, but owing to his contract with another Baltimore dealer would not let them have milk. Mr. Hammond says that he has been feeding his cows winter feed since June 25. If the Sykesville creamery is built the large milk output of Mr. Hammond will likely be sent there.

at Cookeville, about five miles south of Sykesville, in Howard county. Mr. Mercer says his milk output is only about half its normal and that he has been giving winter feed to his stock several months. He expects to get 20 cents a gallon for his milk in a few days, and while he says the farmers ought to get more than 20 cents they cannot get it at present.

Arthur Forsythe, whose dairy farm of 400 acres is located on the Hoods Mill road, between Hoods Mill Station and the B. & O. railroad and Cookeville, declares that 25 cents a gallon for milk from the dealers in Baltimore would not be asking too much for the present, owing to the fact that winter feed, which the farmers are now giving their cows, is so high. Ensilage, or cut-up fodder, which is a strict winter food, is being given to cows on all the farms.

The milk output on the Forsythe farm is now only 45 and 50 gallons, but in the early part of the season it was near 100 gallons. Up to a few weeks ago Mr. Forsythe had been shipping 20 to 25 gallons of pure cream to Baltimore, but was told to send "straight milk" by the dealer here, as there was a scarcity of milk in Baltimore.—From Baltimore News.

Rag Sorter's Job Good.

Whippany, N. J.—Herbert Streuble finds the job of rag sorter at a paper mill in this place a most remunerative position. His wages are only \$6 a week, but during the last week he has cleared \$1,800 from valuables which he found concealed among the old rags and waste which daily pass under his rake.

Recently he picked up an old stocking which contained two diamonds worth \$500 each. Some time ago he came upon a large sapphire and a ruby tied up in a handkerchief.

As a result of the recent publication of the finding of precious stones in waste rags and paper the superintendent of the factory has received several letters from people who say they have lost precious stones. A woman, writing from New York, said that she lost diamonds valued at \$2,000, which were tied in wrapping tissue paper.

WEDDING BELLS.

Clarke—Reifsnider.

Westminster society was much interested in the marriage of Miss Marianna Reifsnider and Lieut. Stanley Clarke, which took place last Saturday afternoon at 4 o'clock in Ascension Episcopal Church.

The bride's family is one of the most prominent in Westminster. She is daughter State's Attorney and Mrs. John Milton Reifsnider, a granddaughter of Mrs. Fairfax, widow of Admiral Fairfax, of Hagerstown, and a great-granddaughter of Admiral Andrew Hull Foote, the naval hero of Ports Henry and Donelson in an engagement with which he was wounded and received injuries of which he died. She is an exceptionally attractive young girl and has many friends.

The groom, who is a son of Mrs. Geo. Gray Ward, Jr., of New York, is a young officer of the United States Marine Corps, now stationed in Panama.

The wedding marches were played by Prof. Howard T. Benson as the bride party entered and retired from the church. The bride entered the church on her father's arm, by whom she was given away and was attended by her sister, Miss Eleanor Reifsnider, as maid of honor, and her younger sister, Miss Josephine Reifsnider, was flower girl. They were met at the chancel rail by the groom and his best man, Lieut. Joseph D. Murray, of the United States Marine Corps. The ushers were to have been Lieut. Alfred McC. Robbins, Lieut. Pere Wilmer, Lawrence Wroth, of Baltimore, and Passed Midshipman Lawrence Fairfax Reifsnider, brother of the bride. Lieutenants Reifsnider and Wilmer were however prevented by the target practice being held at sea, from arriving in time.

The marriage ceremony was performed by the rector, Rev. Frank M. Gibson. The church was elaborately decorated with the golden rod. As the bride's mother has not entirely recovered from a serious and prolonged illness no reception was held, but among those present at the wedding from a distance were Mrs. Fairfax, the bride's grandmother, and her daughters, Mrs. James Reese, of Hagerstown; Mr. John Milton Reifsnider, Jr., of Swanton, Miss Fairfax's brother; Mrs. Richard Cready, of Newport, R. I., the bride's aunt; Doctor and Mrs. George Gray Ward, Jr., of New York; Judge and Mrs. Harry M. Clabaugh, their daughter, Mrs. Beale Bloomer, Mr. W. McNeil Fairfax, Dr. John Briggs, of Washington, D. C.; Capt. Albert Billings, of Chicago; Mr. and Mrs. Chas. T. Reifsnider, Jr., Mr. and Mrs. Samuel D. Thomas, Reverend and Mrs. Henry Evans Cotton, Mr. and Mrs. Winfield Henry, Doctor and Mrs. Nathan R. Gorter, Mr. and Mrs. Jno. Ridgely, Dr. and Mrs. James Fraser, Miss Dulin, Miss Alice Gilmore, of Baltimore; Mr. and Mrs. Philip Small, Mr. and Mrs. J. C. Schmidt, Miss Katharine Schmidt, Miss Mary D. Schmidt, of York, Pa.

The bride wore a beautiful gown of white satin, draped with marquisette and trimmed with duchesse lace, and she wore a tulle veil and orange blossoms. She received many valuable presents, chiefly of silver and cut glass and numerous checks. Lieut. and Mrs. Clarke left by an afternoon train for Seabright, N. J., and returned to Westminster the first of the week. They will sail from New York for Panama on Wednesday, October 5th.
